Long-range Plan Building Blocks

What's the problem?

Understand the **issues**, especially those of our historically underserved students and communities.

Why did it happen?

Identify the **root causes** by looking at the systems beneath the surface. In order to prevent problems from returning, deeper examination is necessary.

What will be done and how?

Develop **goals** (a vision of a destination) and **strategies** (a method of how to achieve the goal).

How are strategies prioritized?

Evaluate recommendations through a set of guidelines, “**decision-making framework**”, to provide transparency on how decisions are made.

Comprehensive long-range plan provides a roadmap to inform decision-making

Reactive vs. Proactive

The Long-range Plan is an actionable plan that:

- Supports historically underserved students
- Informs how limited resources are expended to support student achievement
- Establishes timeframes for recommendations

The LRP is developed through Equity by Design, however, this process may not be applied to all planning processes.
