

## AISD Transportation Information

05.07.2019

The following transportation information was provided by the Austin ISD Transportation Department.

### Eligible Student Riders

Students are eligible for transportation route service if the following criteria are met:

- Students live 2 or more miles from their campus of regular attendance—home school, magnet school or academy—measured along the shortest route to school. The home school campus is determined by the student's residential address and the assignment boundary of each school.
- Students living within 2 miles of their home school, magnet school or academy, who would be subject to hazardous traffic conditions if they were to walk to school.

### Hazardous Conditions Policy

A road condition is considered hazardous to student pedestrian traffic under the following conditions:

- Students must walk along or across a freeway, an expressway, an overpass, an underpass, or bridge where no walkway is provided.
- Students must cross an uncontrolled major traffic artery.
- Neighborhood streets without a sidewalk are not considered hazardous to pedestrian traffic.

City of Austin subdivisions currently within the **Kiker** attendance area

Subdivision/Area	No. of Students 2018-19	Current transportation to Kiker	Transportation to New SW ES and Mills ES (proposed boundary change)
