00:46:03 AISD\_Melfi: The committee website is now live, <https://www.austinisd.org/advisory-bodies/bsc>

00:49:44 BSC Charles Mead: What are the comments?

00:49:57 BSC\_Nevin Hall: Mr. Mead makes a good point

01:10:59 BSC- Cuitlahuac Guerra-Mojarro he/him/el: Was the Performing Arts Center built with bond money?

01:11:12 BSC Aiden Woodruff: Y'all That's a troll.

01:18:27 AISD\_Matias Segura, Chief Operations Officer: @Cuitlahuac - Yes the PAC was built using bond proceeds from the 2008 Bond.

01:18:50 BSC- Cuitlahuac Guerra-Mojarro he/him/el: thanks Matias. Where does Texas AG office approval fit with that deadline?

01:19:36 AISD\_Sarah O'Brien: Cuitlahuac, we'll be sure to cover these questions in a Q&A after this section.

01:19:43 BSC- Cuitlahuac Guerra-Mojarro he/him/el: thanks

01:27:13 BSC - Nadia Khan: Is there a limit to the number of props we can have?

01:29:42 BSC - Monty Exter: Are renovation and maintenance considered the same thing?

01:30:12 BSC April Clark (she/hers/Eng): Reno can be bond maintenance cannot

01:37:38 BSC- Cuitlahuac Guerra-Mojarro he/him/el: I had a similar question - what is costing?

01:38:04 BSC Charles Mead: Do we have a list of all meeting dates?

01:38:34 BSC - Nadia Khan: cost estimates for work suggested by BSC? Or cost estimates for what each facilities would need, regardless of it it makes it to this bond?

01:50:41 BSC - Nadia Khan: Does ESA take into account the current student body, a projected student body? the current calculated building capacity? How is it decided that there is enough space in general ... (thinking of all the types of things I see at T1 schools in parables in particular, sped, VAPA, PSS, community in schools room?)

01:53:29 BSC- Cuitlahuac Guerra-Mojarro he/him/el: is that classroom size, square footage, the same for secondary and elementary?

02:08:03 BSC April Clark (she/hers/Eng): Are these numbers (at all schools) updated to reflect prior bond funding that was funded or work was completed? Are the FCA scores updated as well?

02:18:10 Laurie - ACPTA: @ April Clark - this whole convo made me remember this whole process back in 2016 and yes, looking at my school Cowan, we started with a FCA of 35. It now has an updated FCA of 58. Our ESA was 74 and is now 64.

02:18:42 Laurie - ACPTA: Previous Assessments: <https://www.austinisd.org/plans/fca-esa/previous-assessments>

02:18:57 Laurie - ACPTA: Current assessments <https://austinisdplanningtogether.com/>

02:22:14 BSC\_Erica L: What determines what the multiplier will be?

02:27:54 BSC - Nadia Khan: great question

02:27:58 BSC April Clark (she/hers/Eng): I agree with all of Monty's points

02:30:59 BSC April Clark (she/hers/Eng): Ensuring that we are not designing to a fad that might not work is why a Post Occupancy Evaluation is critical to make sure the Ed Specs are working the way we think or want.

02:33:04 BSC April Clark (she/hers/Eng): Question about FCA (sorry) are they updated to include damages that may have been sustained during Uri?

02:33:25 BSC - Monty Exter: in terms of utilization if the isd is likely going to make decisions that will change utilization will we be made aware?

02:35:11 BSC April Clark (she/hers/Eng): Seems like its important to understand what is still needed. thank

02:36:38 BSC - Nadia Khan: If a school is over enrolled, it's down graded for not having an art room, if the art room is being used as a classroom. When really, for the number of kids that it should have, it might have the space needed. And we are/should be per FMP 2109 working towards reaching

enrollment numbers appropriate for each building. While the capacity isn't taken into account here, we will have clearer capacity data available based on a more equitable understanding of capacity?

02:37:53 AISD\_Melfi: Thank you for taking the time to join us tonight. | Gracias por tomarse el tiempo para acompañarnos esta noche.
