Independent Auditor's Report

Board of Trustees
Austin Independent School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Austin Independent School District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 3, the District adopted Government Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, effective July 1, 2020. The adoption of the standard resulted in an adjustment to increase the District's previously reported net position of the governmental activities and the fund balance of the aggregate remaining fund information. The District's previously reported agency funds that did not meet the requirements to be restated to special revenue funds, continue to be reported in the statement of fiduciary net position as custodial funds as a result of the adoption. Our opinion is not modified in respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedule—General Fund, Note to Budgetary Comparison Schedule—General Fund, Schedules of the District's Proportionate Share of the Net Pension Liability and Net OPEB Liability, Schedules of District Contributions for the Pension and OPEB plans, and Notes to Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section and Other Supplementary Information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying Introductory Section, as listed in the table of contents, has not been subject to the auditing procedures applied in the audit of the basic financial statement, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Austin Independent School District

Management's Discussion and Analysis June 30, 2021

This section of Austin Independent School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2021. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets plus deferred outflows of resources of the District exceeded its liabilities plus deferred inflows of resources at the close of the year ended June 30, 2021. Net position was \$131.9 million. Net investment in capital assets was \$184.6 million. The District's restricted net position was \$137.2 million. Unrestricted net position was \$(189.9) million.
- During the year, the District's expenses were \$25.1 million more than the \$1,775.2 million generated in taxes and other revenues for governmental activities. Expenditures totaled \$1,628.9 million after charges for services and operating grants and contributions (revenue). Total revenue from property taxes, state aid, unrestricted grants and contributions, investment income and miscellaneous revenues is \$1,603.8 million.
- At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$229.1 million, or 15% of the total General Fund expenditures.
- The District issued \$255.2 million of Unlimited Tax School Building Bonds during the fiscal year 2020-2021, and ended the year with \$25 million of outstanding commercial paper.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements.
- The Governmental Funds statements tell how general government services were financed in the short term, as well as what remains for future spending.
- The Proprietary Fund statements provide information about the District's internal service funds, which are used to accumulate expenses to be charged to the governmental funds.

Figure A-1
Required Components of the
District's Annual Financial Report

Austin Independent School District

**Management’s Discussion and Analysis
June 30, 2021**

- Fiduciary Fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section explains the structure and contents of each of the statements.

Figure A-2 Major Features of the District’s Government-Wide and Fund Financial Statements

Type of Statement	Government-Wide	Governmental Funds	Fiduciary Funds
<i>Scope</i>	Entire District’s government (except fiduciary funds)	The activities of the District that are not propriety or fiduciary	Instances in which the District is the trustee or agent for someone else’s resources
<i>Required Financial Statements</i>	<ul style="list-style-type: none"> • Statement of net position • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> • Statement of fiduciary net position
<i>Accounting Basis and Measurement Focus</i>	Accrual accounting and economic resources	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
<i>Type of Asset/Liability Information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets
<i>Type of Inflow/Outflow Information</i>	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after year-end, expenditures when goods or services have been received and payment is due during the year or soon thereafter	Agency funds do not report revenue and expenditures

Government-wide statements: The government-wide statements report information about the District as a whole, using accounting methods similar to those used by private-sector companies. The statement of net position includes all the government’s assets, deferred outflows of resources, liabilities and deferred inflows of resources. All the current year’s revenues and expenses are accounted for in the statement of activities on the accrual basis, regardless of when cash is received or paid.

Austin Independent School District

Management's Discussion and Analysis June 30, 2021

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, are one way to measure the District's financial position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating.
- To assess the overall financial health of the District, one must consider additional factors, such as changes in the District's tax base.

The government-wide financial statements of the District include the governmental activities. All the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

Fund financial statements: The fund financial statements provide more detailed information about the District's major funds, rather than the District as a whole. Funds are a governmental accounting tool the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by state law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage resources for specific purposes or to delineate the use of certain taxes and grants.

The District has three kinds of funds:

- **Governmental Funds:** Most of the District's basic services are included in Governmental Funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) on the balances left at year-end that are available for spending. Consequently, the Governmental Funds statements provide a detailed short-term view that helps determine the availability of financial resources to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the Governmental Funds statement, or on the subsequent page, that explains the relationship (or differences) between them. These include debt financing and capital projects.
- **Proprietary Funds:** Services for which the District charges internal departments a fee are generally reported in Proprietary Funds. Proprietary Funds, like the government-wide statements, provide both long and short-term financial information. In the District, internal service funds are used to report activities that provide supplies and services for the District's other programs and activities, such as the District's Self Insurance Fund.
- **Fiduciary Funds:** The District is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Austin Independent School District

Management's Discussion and Analysis June 30, 2021

Required supplementary information: The basic financial statements are followed by a section of required supplementary information. This section includes a Budgetary Comparison Schedule—General Fund, Schedules of the District's Proportionate Share of the Net Pension Liability and Net OPEB Liability, and Schedules of District Contributions for the Pension and OPEB plans. The Budgetary Comparison Schedule—General Fund provides detailed comparisons of expenditures and intra-agency transfers at the legal level of control. Comparisons can be made between the original budget, final budget and actual costs for the year. The Schedules of the District's Proportionate Share of the Net Pension Liability and Net OPEB Liability, and Schedules of District Contributions for the Pension and OPEB plans disclose covered payroll and related comparison information as of June 30, 2021.

Financial Analysis of the District as a Whole

Net position: The District's combined net position was approximately \$131.9 million at June 30, 2021. The following is a schedule of the District's net position:

Table A-1
The District's Net Position
(In Millions of Dollars)

	Governmental Activities		Percentage Change
	2021	2020	
Current and other assets	\$ 1,301.5	\$ 1,264.5	3%
Capital assets	1,676.5	1,453.8	15%
Total assets	2,978.0	2,718.3	10%
Deferred loss on refunding	20.3	22.0	(8%)
Deferred outflow for TRS pension liability	163.5	56.0	192%
Deferred outflow for TRS OPEB liability	52.7	36.0	46%
Total deferred outflows of resources	236.4	114.0	107%
Current liabilities	952.2	897.6	6%
Long-term liabilities	1,880.9	1,600.4	18%
Total liabilities	2,833.2	2,498.0	13%
Deferred inflow for TRS pension liability	46.6	42.9	9%
Deferred inflow for TRS OPEB liability	202.8	148.3	37%
Total deferred inflows of resources	249.4	191.2	30%
Net position:			
Net investment in capital assets	184.6	184.0	0%
Restricted	137.2	124.1	11%
Unrestricted (deficit)	(189.9)	(164.4)	16%
Total net position	\$ 131.9	\$ 143.7	(8%)

Changes in net position: The District's total revenues were \$1,775.2 million. A significant portion, 88%, of the District's revenue comes from taxes; 2% comes from state aid formula grants, while 9% is related to other operating grants and contributions; the remaining 1% comes from miscellaneous revenue sources.

Austin Independent School District

**Management's Discussion and Analysis
June 30, 2021**

**Figure A-3
Sources of Revenues for Fiscal Year 2021**

The total cost of all programs was \$1,800.3 million and \$1,673.0 million for the year ended June 30, 2021, and for the year ended June 30, 2020, respectively. When adjusted for the \$706.7 million in expenses in 2021 and \$639.6 million in expenses in 2020 related to Chapter 49 and other pass-through costs, 76% and 69.7%, respectively, of these costs are for instructional and student services.

The total of all program and service costs for school leadership was 3.6% in 2021 and 3.8% in 2020, and 6.1% and 6.2% in 2021 and 2020, respectively, for plant maintenance and operations (including security services).

Austin Independent School District

**Management’s Discussion and Analysis
June 30, 2021**

Table A-3 presents the cost of the District’s largest functions, as well as each function’s net cost (total costs less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded directly by state revenues, as well as local tax dollars.

- The cost of all governmental activities in 2021 was \$1,800.3 million and, in 2020, was \$1,673.0 million.
- However, the amount the District’s taxpayers paid for these activities through property taxes was only \$1,553.2 million in 2021 and \$1,474.3 million in 2020.
- Those who directly benefited paid some costs of the programs (\$4.8 million in 2021 and \$12.4 million in 2020), with grants and contributions (\$166.7 million in 2021 and \$194.3 million in 2020) sharing the load.

Table A-3

FINANCIAL ANALYSIS OF THE DISTRICT’S FUNDS

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants and segregation for particular purposes.

Governmental Funds: The focus of the District’s Governmental Funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District’s financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the District’s net resources available for spending at the end of a fiscal year.

At the end of the current fiscal year, the District’s Governmental Funds reported combined ending fund balances of \$395.2 million. Approximately 57% of this total amount (\$224.1 million) is available for spending at the government’s discretion. The remainder of the fund balance is nonspendable, restricted, or assigned to indicate it is not available for new spending because it has already been committed for various purposes, including capital projects, repayment of debt, food service, wastewater plant and investment in inventories.

The General Fund is the primary operating fund of the District. At the end of the current fiscal year, the fund balance of the General Fund was \$236.0 million. Of this amount, \$6.6 million is assigned for various projects and \$0.2 million is nonspendable for investment in inventories. As a measure of the General Fund’s liquidity, it may be useful to compare total fund balance to total fund expenditures. The total General Fund balance represents approximately 15% of total fund expenditures. The fund balance decreased by \$32.5 million during the current fiscal year period.

Austin Independent School District

Management's Discussion and Analysis June 30, 2021

The Debt Service Fund had an increase in fund balance of \$5.7 million during the current year to bring the year-end fund balance to \$144.0 million. The increase is primarily the result of current-year commercial paper issuances that were outstanding at year end and not redeemed during fiscal year 2020-2021.

The Capital Projects Fund accounts for the construction of school buildings and improvements. At the end of the current fiscal year, the fund balance was \$3.8 million. In addition to \$293.6 million related to construction costs, the District issued \$40 million in commercial paper to fund capital projects. \$15 million of the commercial paper notes were redeemed prior to June 30, 2021.

General Fund Budgetary Highlights (See Exhibit G-1)

Over the course of the year, the District revised the General Fund annual revenue budget for changes in student counts, property tax assessed valuations adjustments, revised state formula funding amounts and federal program revenues. The total change was \$81.3 million. The expenditure budget was revised during the year to refine estimates after the year had started. Significant changes occurred to the following functional areas of spending: Transportation, Curricular/Extracurricular Activities, Capital Outlay and Contracted Instructional Services between Schools (Recapture). The total change was \$105.2 million, or 7% of total expenditures.

Revenues

An unfavorable variance in revenue was primarily due to the following:

- Local revenues were approximately \$1.7 million less than anticipated projections.
- State revenues were approximately \$13.6 million less than anticipated projections.
- Federal revenues were approximately \$22.2 million higher than anticipated projections.

Expenditures

A favorable variance in expenditures was primarily due to the following:

- Employee payroll-related expenditures, including the related Texas Retirement System on behalf payments, were \$39.6 million less than budgeted amounts primarily due to conservative budgeting practices where an allocated full-time employee is budgeted for the entire year and not reduced for vacancies in the position.
- The District spent \$3.4 million less for other operating costs, related to Instruction and Community Services.
- The District spent \$14.6 million less for other contracted services than budgeted.
- The District spent \$9.8 million less for supplies and materials than budgeted.
- The District spent \$0.9 million less for capital outlay than budgeted.
- The District spent \$32.8 million more Contracted Instructional Services between Schools (Recapture).

Austin Independent School District

**Management's Discussion and Analysis
June 30, 2021**

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets: At June 30, 2021, the District had invested \$1,676.5 million in a broad range of capital assets, including land, equipment, buildings, vehicles and capital lease assets. (See Table A-4 below.)

Table A-4
District's Capital Assets
(In Millions of Dollars)

	Governmental Activities		Percentage
	2021	2020	Change
Land	\$ 86.2	\$ 86.0	0%
Buildings and improvements	1,559.5	1,336.0	17%
Furniture fixtures and equipment	30.8	31.8	(3%)
	<u>\$ 1,676.4</u>	<u>\$ 1,453.8</u>	15%

During the District's fiscal year 2020-2021, capital spending totaled \$296.7 million in building and improvements and capital equipment. At June 30, 2021, the District is committed under contracts in the amount of approximately \$232.9 million. The commitments are for remaining work on various construction projects. These commitments are payable from the Capital Projects Fund. For more detailed information on capital assets, refer to Note 8 of the notes to the basic financial statements.

Debt administration: At June 30, 2021, the District had \$1,460.9 million in long-term debt outstanding, as shown in Table A-5 (below). Additionally, the District is approved for the issuance of Austin Independent School District Commercial Paper Notes, Series A (Commercial Paper) in an aggregate principal amount not to exceed \$150,000,000 for the purpose of funding new construction and rehabilitation and renovation of existing facilities. The Commercial Paper notes mature in not more than 270 days from issuance and are supported by a revolving credit agreement with Sumitomo Mitsui Banking Corporation, acting through its New York Branch. The Commercial Paper is secured by a pledge of the proceeds of future general obligation bonds or loans issued by the District to pay the principal of the Commercial Paper or proceeds from ad valorem property taxes.

Table A-5
District's Long-Term Debt
(In Millions of Dollars)

	Governmental Activities		Percentage
	2021	2020	Change
Bonds payable	\$ 1,459.6	\$ 1,259.8	16%
Notes and leases payable	1.3	1.7	(24%)
	<u>\$ 1,460.9</u>	<u>\$ 1,261.5</u>	16%

For more information on long-term debt, refer to Note 9 of the notes to the basic financial statements.

Austin Independent School District

Management's Discussion and Analysis June 30, 2021

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2021-2022 budget. Among them:

- Property tax assessed values increased by an estimated 7.72%
- Fiscal year 2020-2021 fund balance carry forward (\$239.9 million)
- District student enrollment (estimated 77,351)
- Compensation-related increases (\$12.6 million)
- Chapter 49 Payments (\$103.1 million increase)

Expanded and new programs consist of the following:

- Additional CALT Allocations
- Full Implementation of Dual Language Through Mixed Language Classroom Relief
- Read-By-Three (Reading Academies)

Also considered in the development of the budget is the impact of local economy and inflation in the surrounding area.

Budgeted expenditures in the General Fund decreased by 0.1% to \$1.1 million in fiscal year 2021-2022 net of Chapter 49 payments. Property taxes are expected to be the primary funding sources. The District's maintenance and operation tax rate is \$0.9897 per hundred dollars of assessed value for 2020-2021 and is proposed as \$0.9897 for the 2021-2022 school year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Financial Services Department.

**Exhibit C-2 Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Position
June 30, 2021**

**Data
Control
Codes**

	Total fund balances—Governmental Funds balance sheet	\$ 395,216,390
	Amounts reported for governmental activities in the statement of net position (Exhibit A-1) are different because:	
1	Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the funds.	1,676,529,113
2	Amount of interest on debt payable in August is required to be recognized in the statement of net position.	(23,663,322)
3	Revenue in governmental activities is recognized in the period earned.	22,305,004
4	Internal Service Funds are used by management to charge the costs of certain activities, such as insurance to individual funds. The assets and liabilities of Internal Service Funds are included in governmental activities in the statement of net position.	40,890,934
5	Bonds and loans payable are not due and payable in the current period, and therefore, are not reported in the funds.	(1,460,921,006)
6	The accrual of vacation leave is not due and payable in the current period and, therefore, is not reported as expenditures in the governmental funds.	(2,246,363)
7	Unamortized loss on bond refunding in governmental activities, not reported in the governmental funds	20,282,159
8	Recognition of the District's proportionate share of the net pension liability, a deferred inflow of resources, and a deferred outflow of resources.	(129,876,702)
9	Recognition of the District's proportionate share of the OPEB liability, a deferred inflow of resources, and a deferred outflow of resources.	<u>(406,591,480)</u>
19	Net position of governmental activities	<u><u>\$ 131,924,727</u></u>

**Exhibit C-4 Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances—Governmental Funds to the Statement of Activities
Year Ended June 30, 2021**

Net change in fund balances—total Governmental Funds	\$ (6,808,820)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay (\$296,688,207), exceeded depreciation expense (\$73,795,369), and asset removal (\$154,179)	222,738,659
Bond and noncurrent loan proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond and noncurrent loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which repayments of principal and loan principal (\$85,627,595) was exceeded by debt proceeds (\$255,215,000).	(169,587,405)
Governmental funds report the effect of premiums when the debt is first issued whereas these amounts are deferred and amortized over the life of the bonds in the statement of activities. This is the amount by which amortization (\$16,809,852) was exceeded by current-year bond premium (\$46,638,702).	(29,828,850)
The amount of interest which is accrued, but not yet paid, for bond payments due in August is not recognized in the governmental funds. This is the net change in amount of interest payable.	(3,165,822)
Losses on refundings are not reported in the governmental funds, but are amortized over the life of the debt in the statement of activities. This is the amount of net change in the deferred loss on refunding between 2020 and 2021.	(1,745,580)
Delinquent property taxes and receivables not received within 60 days of year-end do not provide current financial resources in the funds, and as such, are recognized as deferred inflows in the governmental funds. This is the net change between 2020 and 2021.	(14,234,972)
The revenues and expenses of the Internal Service Fund are distributed in the statement of activities and are not considered a governmental fund. The difference is the amount of net loss (\$5,826,189), plus transfers in (\$0).	(5,826,189)
Costs associated with the accrual of vacation and sick leave are recognized as expenditures in the governmental funds when matured. This is the amount of net change in the vacation accrual between 2020 and 2021.	(222,479)
GASB Statement No. 68 requires that certain expenditures be recorded as deferred resources. This is the amount by which pension expense (\$45,530,851) and amortization of prior-year deferred inflows and outflows of resources (\$101,667,437) exceeded the prior-year contributions (\$19,006,118) and additional deferred items recognized in the current year (\$103,313,601).	(24,878,569)
GASB Statement No. 75 requires certain expenditures be recorded as deferred resources. This is the amount by which OPEB expense (\$16,391,711) and amortization of prior-year deferred inflows and outflows of resources (\$55,948,384) exceeded the prior-year contributions (\$4,329,598) and additional deferred items recognized in the current year (\$37,771,700).	8,459,552

Austin Independent School District

Notes to Basic Financial Statements June 30, 2021

Note 1. Reporting Entity

This report includes the financial statements of the funds required to account for those activities, organizations and functions which are related to the Austin Independent School District (the District) and which are controlled by or dependent upon the District's governing body, the Board of Trustees (the Board). The Board, a nine-member group as a body corporate, has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (TEA) or to the State Board of Education are reserved for the Board, and TEA may not substitute its judgment for the lawful exercise of those powers and duties of the Board.

The District receives funding from local, state and federal government sources and must comply with the applicable requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity," as defined by the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, since Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. There are no component units reported within the reporting entity. The District is a governmental entity exempt from federal income taxation under Internal Revenue Code Section 115.

Note 2. Government-Wide and Fund Financial Statements

The government-wide financial statements consist of the statement of net position and the statement of activities. These statements report information on all nonfiduciary activities of the District. The effect of the interfund activity has been removed from these statements. The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues, and grants and contributions used for capital requirements for a given function. Program revenues include charges to customers, grants and contributions used for operational requirements. Governmental activities are supported by tax revenues, state aid, charges for services, investment earnings and intergovernmental revenues such as grants.

Direct expenses are those that are clearly identifiable with a specific function. All capital asset depreciation is reported as a direct expense of the functional program that benefits from the use of the capital assets. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide information about the District's funds, with separate statements for Governmental Funds, Proprietary Funds and Fiduciary Funds even though the latter are excluded from the government-wide financial statements. Major individual Governmental Funds are reported as separate columns in the fund financial statements.

Austin Independent School District

Notes to Basic Financial Statements June 30, 2021

Note 3. Summary of Significant Accounting Policies

The financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), as applied to governmental units in conjunction with TEA's *Financial Accountability System Resource Guide* (FAR). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to, and accounted for the purpose of, carrying on specific activities in accordance with laws, regulations or other appropriate requirements.

Governmental fund types: The District reports the following major Governmental Funds:

The General Fund is the fund that accounts for financial resources in use for general types of operations. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. This is a budgeted fund, and any fund balances are considered as resources available for current operations. Fund balances may be appropriated by the Board to implement its responsibilities.

The Debt Service Fund is the fund that accounts for the use of debt service taxes and other revenues collected for the purposes of retiring bond principal and paying interest on long-term general obligation debt and other long-term debt for which a tax has been dedicated. This fund is also used to record all activity resulting from bond transactions, including all fees. This is a budgeted fund.

The Capital Projects Fund is the fund that accounts for transfers from the Debt Service Fund related to proceeds from the sale of bonds restricted for capital improvements, and other revenues to be used for Board-authorized acquisition, construction, or renovations, as well as furnishing and equipping major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal. This fund is budgeted on a project basis.

Additionally, the District reports the following Nonmajor funds:

The Special Revenue Funds are the funds that account for state and federally financed programs or expenditures legally restricted for specified purposes or where unused balances are returned to the grantor at the close of specified project periods. This fund type also includes the following funds which are allowed to maintain a fund balance: food service operations, State Textbook Fund, High School Allotment, Campus Activity Fund, childcare operations and scholarships. The Food Service Fund is the only Special Revenue Fund that is required to be budgeted and balances are to be used exclusively for allowable child nutrition program purposes.

Proprietary fund types: The Internal Service Fund, an unbudgeted fund, is the fund that accounts for the District's self-funding of workers' compensation claims, Campus Police, Print Shop, Laundry Services and Health and Dental Services. Revenues are generated in the Internal Service Fund through charges to various funds of the District. Internal Service Funds inherently create redundancy because their expenses are recorded a second time in the funds that are billed for the services they provide. Therefore, on the government-wide financial statements, the operations of the Internal Service Funds are consolidated and interfund transactions are eliminated.

Note 13. Defined Other Post-Employment Benefit Plan

A. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined OPEB plan that has a special funding situation. The plan is administered through a trust by the TRS Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

B. OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in a separately-issued CAFR that includes financial statements and required supplementary information. That report may be obtained on the internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, Texas, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their depends not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants, as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage:

TRS-Care Monthly Rates for Retirees				
Effective January 1, 2020 Through December 31, 2020				
	Medicare		Non-Medicare	
Retiree or surviving spouse	\$	135	\$	200
Retiree and spouse		529		689
Retiree and children		468		408
Retiree and family		1,020		999

Austin Independent School District

Note to Budgetary Comparison Schedule—General Fund Year Ended June 30, 2021

Note 1. Budgetary Data

The legal level of control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) for budgeted expenditures is the function level. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned. Formal budgetary accounting is employed for the General Fund, as outlined in TEA's FAR. The budgetary comparison schedule is presented on the modified accrual basis of accounting consistent with GAAP.

The official school budget is prepared for adoption for required Governmental Fund types prior to June 19 of the preceding fiscal year for the subsequent fiscal year beginning July 1. The budget is formally adopted by the Board at a public meeting held at least 10 days after public notice has been given.

Annual budgets are adopted on a basis generally consistent with GAAP for the General Fund, Debt Service Fund and the Food Service Special Revenue Fund. The remaining Special Revenue Funds and the Capital Projects Fund adopt project-length budgets, which do not correspond to the District's fiscal year. Each annual budget for these funds is presented on the modified accrual basis of accounting, which is consistent with GAAP. The Board amended the budget throughout the year. Such amendments are before the fact and are reflected in the official minutes of the Board.

During 2021, the District had unfavorable variances in the following functions: data processing services (FN 0053), interest on long-term debt (FN 0072), capital outlay (FN 0081), contracted instructional services between schools (FN 0091) and other governmental charges (FN 0093). Variances are due to an additional amount of local revenue in excess of entitlements, additional costs tied to the pandemic and re-opening campuses, and the impact of winter storm Uri.

2014	3,501,771	(3,501,771)	-	530,498,281	0.66%
2013	3,207,060	(3,207,060)	-	528,140,495	0.61%
2012	3,242,507	(3,242,507)	-	496,406,416	0.65%
2011	3,392,694	(3,392,694)	-	524,103,783	0.65%

The information disclosed for each fiscal year is reported as of the District's fiscal year-end date (August 31, 2011 through 2015 and June 30, 2016 through 2021).

See notes to required supplementary information.

Austin Independent School District

**Notes to Required Supplementary Information
June 30, 2021**

Note 1. Pension Plan Changes

There were no changes of benefit terms that affect measurement of the total pension liability during the measurement period.

The following were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Note 2. OPEB Plan Changes

There were no changes of benefit terms that affect measurement of the total pension liability during the measurement period.

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The discount rate was changed from 2.63% as of August 31, 2019, to 2.33% as of August 31, 2020. This change lowered the TOL.
- The participation rate for pre-65 retirees was lowered maintained at 65%. The participation rate for post-65 retirees was lowered from 50% to 45%, and 25% of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The ultimate health care trend assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This changed lowered the Total OPEB Liability.

Other Supplementary Information Section

This section includes financial information and disclosures not required by GASB and is not considered a part of the basic financial statements. It may, however, include information that is required by other entities.

**Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based
on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

Independent Auditor's Report

Board of Trustees
Austin Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Austin Independent School District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 17, 2021. The District's June 30, 2020 financial statements have been restated due to the implementation of Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. Our opinion was not modified with respect to this matter.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2021-001 and 2021-002 that we considered to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Responses to Findings

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance and
Report on the Schedule of Expenditures of Federal Awards
as Required by the Uniform Guidance**

Independent Auditor's Report

Board of Trustees
Austin Independent School District

Report on Compliance for Each Major Federal Program

We have audited Austin Independent School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and aggregate remaining fund information of the District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 17, 2021, which contained unmodified opinions on those financial statements. Our report included an emphasis of matter paragraph regarding the District's adoption of Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by the Uniform Guidance, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

**Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2021**

Note 1. General

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported using the current financial resources measurement focus basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note 3. Noncash Federal Awards

The District received noncash awards in the form of food commodities totaling \$1,402,334 (Assistance Listing Number 10.555) for the year ended June 30, 2021.

Note 4. Indirect Costs

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Section I—Summary of Auditor’s Results

1. Financial Statements

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP:

Unmodified

Internal control over financial reporting:

Material weakness(es) identified?	<u> </u>	Yes	<u> X </u>	No
Significant deficiency(ies) identified?	<u> X </u>	Yes	<u> </u>	None Reported
Noncompliance material to financial statements noted?	<u> </u>	Yes	<u> X </u>	No

2. Federal Awards

Internal control over major federal programs:

Material weakness(es) identified?	<u> </u>	Yes	<u> X </u>	No
Significant deficiency(ies) identified?	<u> </u>	Yes	<u> X </u>	None Reported

Type of auditor’s report issued on compliance for major federal programs:

Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?

<u> </u>	Yes	<u> X </u>	No
---------------	-----	--------------	----

Identification of major federal programs:

Assistance Listing Number(s)	Name of Federal Program or Cluster
84.010A	Title I, Part A
84.425D	COVID-19: Elementary and Secondary School Emergency Relief Fund (ESSER I and ESSER II)

Dollar threshold to distinguish between type A and type B programs: \$3,007,804

Auditee qualified as low-risk auditee?	<u> X </u>	Yes	<u> </u>	No
--	--------------	-----	---------------	----

Year Ended June 30, 2021**

Section II—Financial Statement Findings

A. Deficiencies in Internal Control

Finding 2021-001—Risk associated with unauthorized requests to vendor payment methods

Type of Finding: Significant Deficiency

Criteria: Management of the District is responsible for designing and maintaining a system of internal control procedures, which mitigate the risk of error, fraud or material misstatement impacting the financial statements. The design of the controls should ensure such matters are prevented and detected on a timely basis. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

Condition: The District did not have adequate controls in place, as described above, during the year to mitigate exposure to the risk associated with unauthorized requests for changes to method of vendor payments. The controls in place are not designed to prevent or detect in a timely basis, such unauthorized requests.

Cause: Personnel involved in this process had a misinterpretation of the controls overseeing requests for changes to vendor payment methods.

Effect: The District was exposed to a risk of fraud occurring and going undetected for an unknown period of time.

Recommendation: We recommend management review existing controls in place and make appropriate enhancements. Control procedures to consider include the following: (1) ensure any request to change vendor payment method is verified and confirmed directly with the vendor; (2) design a form which documents the request and have such form be signed by at least two management representatives of the vendor, as well as by senior management of the District; and (3) require a reasonable period of time of when a transaction may occur after the form is complete and executed by both parties, i.e., 30 or 45 days after last signature is obtained. Once the new control procedures are design, management should conduct formal training to related personnel; and such training should also be offered to new personnel.

View of responsible officials: Management concurs with the finding. See corrective action plan.

Finding 2021-002—Year-End General Ledger Closing Process
Type of Finding: Significant Deficiency

Criteria: Management of the District is responsible for designing and maintaining a system of internal control procedures, which mitigate the risk of error, fraud or material misstatement impacting the financial statements. The design of the controls should ensure such matters are prevented and detected on a timely basis. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

Condition: The year-end general ledger closing process is an integral part of an accurate and timely financial reporting function, which is required to effectively manage and guide an organization. The preparation of accurate financial reports is dependent on maintaining an accurate and up-to-date general ledger that is fully and timely reconciled to the supporting documents, and on having the appropriate level of experienced resources qualified for managing the accounting and reporting function of the District. Maintaining an appropriate level of resources provides for appropriate segregation of duties in the accounting and reporting of the District's operations, as well as opportunities for cross-training to reduce the risk of loss of institutional knowledge with personnel turnover or temporary absence from work.

The original general ledger for the fiscal year 2021 was provided to the audit team on August 23, 2021; however, 26 adjustments and reclassifications were subsequently identified and posted by District staff, including the accrual of June 2021 revenue in the Internal Service Fund and the deferral of revenue from unavailable grant reimbursements. The delays in computing these adjustments caused significant setbacks in reporting and performance of the audit since the trial balance was not finalized until November 1, 2021.

Cause: In an effort to provide the trial balance to the external audit firm by the agreed-upon-date, certain closing entries were not identified during the initial year-end closing.

Effect: The audit process was significantly delayed.

Recommendation: We recommend District management consider the following items.

- Formally document in writing the year-end general ledger closing, review and reconciliation procedures on an account-by-account basis
- Perform periodic (e.g., monthly or quarterly) reviews of all general ledger accounts to ensure any items requiring investigation are resolved in a timely manner prior to year-end
- Formally assign specific year-end closing procedures to named staff members and establish timelines for completion and review
- Formally document preparers and reviewers of required audit documentation
- Formally assign duties for year-end general ledger account reconciliations

View of responsible officials: Management concurs with the finding. See corrective action plan.

B. Compliance Findings

None reported.

Subject: Audit Finding 2021-001 Financial Services; Response

Finding 2021-001 – Internal Control:

Risk associated with unauthorized requests to vendor payment methods

Financial Services Response:

Management agrees with this finding.

Corrective Action(s):

Vendor ACH change requests will be initially reviewed & signed by the AP Supervisor and Comptroller with an approval date. Checks will be issued for 30 days after the request approval. The vendor will be required to provide the AP department a signed ACH form, submit a voided check, or a confirmation of banking instructions on bank letterhead. The vendor will also be required to verify check information from a previous payment such as the check amount, check date and what invoices are covered. The requested ACH account will also be compared with the account number on previous endorsed checks through the Wells Fargo portal. We are also exploring vendors who can assist the District with increasing our ACH controls. The team also participated in a seminar provided by Wells Fargo titled *Cyber Payments Fraud and Risk* and the District will continue to provide cyber training to key staff on an annual basis.

Finding 2021-002 – Internal Control

Year-End General Ledger Closing

Financial Services Response:

Management agrees with this finding.

Corrective Action(s):

Estimated Internal Service Fund accruals will be booked prior to year-end so that a balance exists before closing procedures. This amount will be evaluated at year end for completeness and accuracy.

Grant deferred revenue accounts will also be evaluated and a schedule set up to regularly draw down the grants on a monthly basis so that the year-end grant close process is complete, and revenue received within the 60-day recognition window.

We will also reconcile all grants and funds quarterly to prevent any additional year-end delays.
