Austin Independent School District

Sadler Means Young Women's Leadership Academy - TIP

2022-2023 Targeted Improvement Plan

Campus Number: 227901065

Board Approval Date: December 15, 2022
ESF Diagnostic Date: February 7, 2023

Superintendent: Dr. Anthony Mays
DCSI/Grant Coordinator: Dr. Angel Wilson

Principal: De'Sean Roby
ESC Case Manager: Adrienne King
ESC Region: 13
Assurances

DCSI/Grant Coordinator

I, the District Coordinator of School Improvement/Grant Coordinator, attest that I will provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for the implementation of all intervention requirements. If I am the principal supervisor, I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.

Signature: Dr. Angel Wilson

Principal Supervisor

I, as supervisor of the principal for this campus, attest that I will coordinate with the DCSI/Grant Coordinator to provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the principal I supervise can achieve successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.

Signature: Dr. Angel Wilson

Principal

I, as principal for this campus, attest that I will coordinate with the DCSI/Grant Coordinator (and my supervisor, if they are not the same person) to use the district-provided commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I agree to carry out the plan elements as indicated herein.

Signature: De'Sean Roby

Data Analysis

Student Achievement

What accountability goal has your campus set for this year?

This year, the scholars at Sadler Means YWLA will achieve 60% Approaches, 35% Meets, and 20% Masters across all grades and subjects. This will help us achieve our goal of a C in Student Achievement.
School Progress

What accountability goal has your campus set for this year?

This year, 80% of the scholars at Sadler Means YWLA will meet their personal progress targets in Reading and Math. This will help us achieve our goal of an A in Domain 2A and an 85 Overall.
Closing the Gaps

What accountability goal has your campus set for this year?

This year, Sadler Means YWLA will meet 5 out of 16 Academic Achievement Targets, 10 out of 14 Growth targets, their ELP target, and 4 out of 9 Student Success targets. This will result in a Closing the Gaps score of 73 (C). This will help us achieve our goal of an 85 Overall.
Subject Areas and Student Groups

Which subjects are a focus this year when thinking about student performance? Why have you identified these specific subject areas? What is the intended impact on your accountability domain scores?

This year, Sadler Means YWLA will focus on African American and Hispanic Math performance at Meets Grade Level. We have not yet met the Closing the Gaps target for either group. By meeting these targets (and others), we will meet our Closing the Gaps score of 73 (C).

Which student group outcomes are you targeting in these goals? What is the intended impact on your accountability domain scores?

This year, Sadler Means YWLA will focus on African American and Hispanic Math performance at Meets Grade Level. We have not yet met the Closing the Gaps target for either group. By meeting these targets (and others), we will meet our Closing the Gaps score of 73 (C).
Essential Actions

Cycles 1-3

Essential Action 1.1: Develop campus instructional leaders with clear roles and responsibilities.
Implementation Level: Fully Implemented
Key Practices:

Essential Action 2.1: Recruit, select, assign, induct and retain a full staff of highly qualified educators.
Implementation Level: Fully Implemented
Key Practices:

Essential Action 3.1: Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.
Implementation Level: Fully Implemented
Key Practices:

Essential Action 4.1: Daily use of high-quality instructional materials aligned to instructional planning calendars and interim and formative assessments.
Implementation Level: Fully Implemented
Key Practices:

Essential Action 5.1: Effective classroom routines and instructional strategies.
Implementation Level: Partial Implementation
Key Practices: Campus instructional leaders provide training and ongoing support so that teachers effectively use high-quality instructional materials and research-based teaching practices that promote critical-thinking skills and include differentiated and scaffolded supports for students with disabilities, English learners, and other student groups.

Essential Action 5.3: Data-driven instruction.
Implementation Level: Partial Implementation
Key Practices: Teachers use a corrective instruction action planning process, individually and in PLCs to analyze data, identify trends in student misconceptions, determine the root cause as to why students may not have learned the concept, and create plans for instructional adjustments.

Cycle 4

Essential Action 1.1: Develop campus instructional leaders with clear roles and responsibilities.
Implementation Level: Not Yet Started
Key Practices:

Essential Action 2.1: Recruit, select, assign, induct and retain a full staff of highly qualified educators.
Implementation Level: Not Yet Started
Key Practices:

Essential Action 3.1: Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.
Implementation Level: Not Yet Started
Key Practices:

Essential Action 4.1: Daily use of high-quality instructional materials aligned to instructional planning calendars and interim and formative assessments.
Implementation Level: Not Yet Started
Key Practices:

Essential Action 5.1: Effective classroom routines and instructional strategies.
Implementation Level: Not Yet Started

Key Practices:

Essential Action 5.3: Data-driven instruction.
Implementation Level: Not Yet Started

Key Practices:
Cycles

Cycle 1 - (Sept – Nov)

Did you achieve your student performance data goals? Why or why not?: Sadler Means YWLA achieved our student performance data goals in approaches and meets in Math and was 1% away from achieving their goal in masters. This is due to the continuous spiraling of key concepts. They did not yet meet their goals for reading, science, and social studies, the campus has indicated all these subject areas are affected because of student reading levels. The campus understands and knows that there needs to be direct intervention with students in these content areas. They also achieved their goal of meeting their target percent in student achievement for Hispanic students in mathematics. The campus will continue to work through the use of tutors and plc structures.

1. Essential Action 5.1: Effective classroom routines and instructional strategies.

Implementation Level: Partial Implementation

Key Practices: Campus instructional leaders provide training and ongoing support so that teachers effectively use high-quality instructional materials and research-based teaching practices that promote critical-thinking skills and include differentiated and scaffolded supports for students with disabilities, English learners, and other student groups.

Rationale: Due to staffing and an influx of inexperienced teachers (experience between 0-3 years) who are new to implementing effective classroom routines and procedures, Sadler Means YWLA will be focusing on 5.1 in order to provide support for their staff and a positive learning experience for students in a safe and structured environment.

Who will you partner with?: Other

How will you build capacity in this Essential Action? Partnering with College Board and Kagan to provide teacher training opportunities. Springboard PD (ELA), CMT PD (math), Kagan Strategies, ISTE conference ED Tech, AVID Training.

How will you communicate these priorities to your stakeholders? How will you create buy-in?: Curriculum discussions will be held at CAC meetings, and there will be mandatory parent meetings for all students. The academic goals of these meetings are to develop a community supported summer reading and math program that supports the accelerated curriculum implementation. Back to school nights will enhance summer learning programs to promote and support accelerated instruction.

Desired Annual Outcome: By the end of SY 22-23, at least 90% of all classroom observations will show evidence of effective implementation of curriculum resources. Curriculum resources: Springboard curriculum in ELA, Kagan strategies in the social studies curriculum, AISD curriculum in math.

Effective will be defined as meeting 7 out of 9 Strand 1 and Strand 2 criteria on the walkthrough form.

Evidence: walkthrough feedback form and coaching sessions

District Commitment Theory of Action: If the district ensures that campus instructional leaders receive initial training and ongoing coaching to support the implementation of instructional leadership systems (feedback on instructional materials alignment and use, data-driven instruction, and observation and feedback), AND for assessments that are district provided and graded, the district ensures that schools receive detailed reports within two instructional days, THEN the campus will be able to implement effective classroom routines and instructional strategies.

Desired 90-day Outcome: By the end of Cycle 1, at least 75% of math and ELA (n=7) all classroom observations will show evidence of effective implementation of curriculum resources. The implementation of curriculum resources with fidelity will show evidence of teachers utilizing the resources during small groups, individual instruction, and/or whole group lesson and will be measured via Walkthrough Forms.

District Actions: The DCSI will support the campus by providing coaching and feedback on planning-focused PLCs. The district will assist the campus in developing lists of students with which to plan targeted enrichment and intervention.

Did you achieve your 90 day outcome?: Yes

Why or why not?: This was achieved because teachers were provided with professional development for the newly purchased curriculum resources that allowed for an
Some teachers are new to their subject area and are not yet equipped with skills to close achievement gaps.

</table>

**Step 1 Details**

**Action Step 1:** The campus STEM Instructional Coach will train math and science teachers to utilize the AISD curriculum and to align district-provided resources with Teach Like a Champion strategies to increase student engagement. Teachers will work in PLCs to review upcoming SEs/lessons and decide how mastery will be assessed.

- **Evidence Used to Determine Progress:** PLC Agendas/meeting minutes (includes attendance)
- **Person(s) Responsible:** STEM Instructional Coach; Principal
- **Non-Funded Resources Needed:** Teach Like a Champion books
- **AISD PLC Framework**
- **Addresses an Identified Challenge:** Yes

**Step 1 Details**

**Start Date:** August 8, 2022 - **Frequency:** Weekly - **Evidence Collection Date:** November 30, 2022

**Reviews**

**Progress toward Action Steps:** Met

**Necessary Adjustments/Next Steps:** none needed

**Step 2 Details**

**Action Step 2:** Science and math teachers will be observed on Strands 1 and 2 at least twice in Cycle 1 (Sept-Nov). Observations and feedback will be documented through Frontline.

- **Evidence Used to Determine Progress:** Campus observation tracker
- **Person(s) Responsible:** Principal
- **Non-Funded Resources Needed:** none
- **Addresses an Identified Challenge:** Yes

**Step 2 Details**

**Start Date:** September 1, 2022 - **Frequency:** Weekly - **Evidence Collection Date:** November 30, 2022

**Reviews**

**Progress toward Action Steps:** Met

**Necessary Adjustments/Next Steps:** none needed

**Frequency**: One Time  
**Evidence Collection Date**: December 16, 2022  | **Progress toward Action Steps**: Met  
**Necessary Adjustments/Next Steps**: will continue utilizing this resource during the following cycles |
Cycle 1 - (Sept – Nov)

2. Essential Action 5.3: Data-driven instruction.

**Implementation Level:** Partial Implementation

**Key Practices:** Teachers use a corrective instruction action planning process, individually and in PLCs to analyze data, identify trends in student misconceptions, determine the root cause as to why students may not have learned the concept, and create plans for instructional adjustments.

**Rationale:** We are focusing on DDI in order to build the capacity of the Principal, instructional leaders, and teachers to use student data to drive instruction and progress monitor student growth, that will help the school meet accountability goals in growth measurement.

**Who will you partner with?:** TIL

**How will you build capacity in this Essential Action?** The campus will partner with Region XIII's Texas Instructional Leadership team to build capacity of the Principal and DCSI to conduct effective PLCs centered around analyzing student data and unpacking standards through know-and-show charts.

**How will you communicate these priorities to your stakeholders? How will you create buy-in?:** Through staff meetings, PD and goal setting at the beginning of the year (SY 2022-23) training. Data will be discussed at CAC and PTA meetings. The campus will send a letter home to parents identifying how their scholars performed on STAAR and BOY MAP. The Dragon Express (weekly staff newsletter) will include updates about data trends in STAAR, MAP, and SCAs, as well as any campus-wide adjustments that will be made in scheduling and/or to help students fill in gaps in learning. There will be a Math Day and Reading Day for students during advisory. The CLT sends a community letter home each Friday. Staff will review data in data PLCs.

**Desired Annual Outcome:** By the end of SY 22-23, at least 90% of ELA and Math teachers (n=14) will effectively implement Data-Driven Instruction re-teach in the classroom that revisits the frequently missed high leverage standard through daily warm-ups, daily practice, weekly common assessments, guided discourse and/or whole group modeling.

**District Commitment Theory of Action:** If the district ensures that campus leaders receive initial and ongoing training and coaching focused on instructional leadership systems and provides school with academic, behavioral, and on-track to graduate data, then campus leaders will provide teachers with the professional development, time, and data needed to deliver instruction that meets the needs of all students.

**Desired 90-day Outcome:** By the end of Cycle 1, at least 75% of Math teachers (n=7) will effectively implement Data-Driven Instruction re-teach in the classroom that revisits the frequently missed high leverage standard through daily warm-ups, daily practice, weekly common assessments, guided discourse and/or whole group modeling.

**District Actions:** The DCSI will support the campus by providing coaching and feedback on planning-focused PLCs. Academic Coaching Specialists will support the campus by participating in planning-focused PLCs as co-facilitators and will model instructional best practices in PLCs and during opportunities for co-teaching.

**Did you achieve your 90 day outcome?:** Yes

**Why or why not?:** This goal was achieved because master schedule was adjusted to allow specific time for re-teach and teachers are utilizing this time effectively to spiral in past content and work with identified struggling students.

Did you achieve your student performance data goals? Why or why not?:

1. Essential Action 5.1: Effective classroom routines and instructional strategies.

   **Implementation Level:** Partial Implementation

   **Key Practices:** Campus instructional leaders provide training and ongoing support so that teachers effectively use high-quality instructional materials and research-based teaching practices that promote critical-thinking skills and include differentiated and scaffolded supports for students with disabilities, English learners, and other student groups.

   **Rationale:** Due to staffing and an influx of inexperienced teachers (experience between 0-3 years) who are new to implementing effective classroom routines and procedures, Sadler Means YWLA will be focusing on 5.1 in order to provide support for their staff and a positive learning experience for students in a safe and structured environment.

   **Who will you partner with?:** Other

   **How will you build capacity in this Essential Action?** Partnering with College Board and Kagan to provide teacher training opportunities. Springboard PD (ELA), CMT PD (math), Kagan Strategies, ISTE conference ED Tech, AVID Training.

   **How will you communicate these priorities to your stakeholders? How will you create buy-in?:** Curriculum discussions will be held at CAC meetings, and there will be mandatory parent meetings for all students. The academic goals of these meetings are to develop a community supported summer reading and math program that supports the accelerated curriculum implementation. Back to school nights will enhance summer learning programs to promote and support accelerated instruction.

   **Desired Annual Outcome:** By the end of SY 22-23, at least 90% of all classroom observations will show evidence of effective implementation of curriculum resources. Curriculum resources: Springboard curriculum in ELA, Kagan strategies in the social studies curriculum, AISD curriculum in math. Effective will be defined as meeting 7 out of 9 Strand 1 and Strand 2 criteria on the walkthrough form. Evidence: walkthrough feedback form and coaching sessions

   **District Commitment Theory of Action:** If the district ensures that campus instructional leaders receive initial training and ongoing coaching to support the implementation of instructional leadership systems (feedback on instructional materials alignment and use, data-driven instruction, and observation and feedback), AND for assessments that are district provided and graded, the district ensures that schools receive detailed reports within two instructional days, THEN the campus will be able to implement effective classroom routines and instructional strategies.

   **Desired 90-day Outcome:** By the end of Cycle 2, at least 90% of all core content classroom observations will show evidence of effective implementation of curriculum resources. The implementation of curriculum resources with fidelity will show evidence of teachers utilizing the resources during small groups, individual instruction, and/or whole group lesson and will be measured via Walkthrough Forms.

   **District Actions:** The DCSI will support the campus by providing feedback on planning-focused PLCs and Staff Professional Development. The district will assist with leading instructional walkthroughs, providing feedback on campus data analysis action plans, and providing targeted coaching and feedback to principals and leadership teams.

Did you achieve your 90 day outcome?:

Why or why not?:

Did you achieve your annual outcome?:

Cycle 3 - (Mar – May)

2. **Essential Action 5.3**: Data-driven instruction.

**Implementation Level:** Partial Implementation

**Key Practices:** Teachers use a corrective instruction action planning process, individually and in PLCs to analyze data, identify trends in student misconceptions, determine the root cause as to why students may not have learned the concept, and create plans for instructional adjustments.

**Rationale:** We are focusing on DDI in order to build the capacity of the Principal, instructional leaders, and teachers to use student data to drive instruction and progress monitor student growth, that will help the school meet accountability goals in growth measurement.

**Who will you partner with?:** TIL

**How will you build capacity in this Essential Action?** The campus will partner with Region XIII's Texas Instructional Leadership team to build capacity of the Principal and DCSI to conduct effective PLCs centered around analyzing student data and unpacking standards through know-and-show charts.

**How will you communicate these priorities to your stakeholders? How will you create buy-in?:** Through staff meetings, PD and goal setting at the beginning of the year (SY 2022-23) training. Data will be discussed at CAC and PTA meetings. The campus will send a letter home to parents identifying how their scholars performed on STAAR and BOY MAP. The Dragon Express (weekly staff newsletter) will include updates about data trends in STAAR, MAP, and SCAs, as well as any campus-wide adjustments that will be made in scheduling and/or to help students fill in gaps in learning. There will be a Math Day and Reading Day for students during advisory. The CLT sends a community letter home each Friday. Staff will review data in data PLCs.

**Desired Annual Outcome:** By the end of SY 22-23, at least 90% of ELA and Math teachers (n=14) will effectively implement Data-Driven Instruction re-teach in the classroom that revisits the frequently missed high leverage standard through daily warm-ups, daily practice, weekly common assessments, guided discourse and/or whole group modeling.

**District Commitment Theory of Action:** If the district ensures that campus leaders receive initial and ongoing training and coaching focused on instructional leadership systems and provides school with academic, behavioral, and on-track to graduate data, then campus leaders will provide teachers with the professional development, time, and data needed to deliver instruction that meets the needs of all students.

**Desired 90-day Outcome:** By the end of SY 22-23, at least 90% of ELA and Math teachers (n=14) will effectively implement Data-Driven Instruction re-teach in the classroom that revisits the frequently missed high leverage standard through daily warm-ups, daily practice, weekly common assessments, guided discourse and/or whole group modeling.

**District Actions:** The DCSI will support the campus by providing coaching and feedback on weekly data meetings, campus data analysis action plans, and teacher re-teach plans. The DCSI will also meet with principal to have a one-on-one to reflect on District Short Cycle Assessment data and help to restructure campus PD and PLCs in response to student data. Academic Coaching Specialists will support campus leadership team with the facilitation of weekly PLC meetings.

**Did you achieve your 90 day outcome?:**

**Why or why not?:**

| **What group of students will your [prioritize? why?** | **Approaching**  
Kimberly  
Tatihana  
Danna  
Laila  
Paloma  
Amari  
Virginia  
I chose this group of students, because the results indicate that they can access the material, they just need refinement. I hope to focus on this group so that they get “Meets” on SCA 2 |
| **For the students who did not pass, what interventions can help them pass SCA2?** | 8 Math: I am monitoring their weekly trackers to increase investment and celebrate growth, I will use iReady and IXL to differentiate instruction and focus on 8.2D and 8.8C  
6 Math: New seating chart that prioritizes proximity for DNM students starting 10.17. I will use iReady and IXL to differentiate instruction and incorporate station rotation.(Smaller DI groups) |
| **For the students who received “approaching,” and are close to achieving “Meets,” what high leverage TEK(s) can help them grow on SCA 2?** | 8.8C- solving an inequality/ equation with the variable on both sides  
6 Math- 6.2D (ordering rational numbers) and 6.4G (benchmark FDP) |
| **Select 1 readiness TEK. This TEK will be assessed in every single formative moving forward. We will track TEK progression throughout the quarter/semester/year in Schoolcity.** | 8.8C- solving equations and inequalities with the variable on both sides  
6..4G- FDP eqivaents |
# Math Weekly Lesson Plans

**Dates:** 10/24 to 10/28  
**Class:** Math  
**Unit 4:** Angles  
**Teacher:** Ms. Palma

**TEK:** 8.8D use informal arguments to establish facts about the angle sum and exterior angle of triangles, the angles created when parallel lines are cut by a transversal, and the angle-angle criterion for similarity of triangles

**Spiraled TEK:** 8.7(A) solve problems involving the volume of cylinders, cones, and spheres  
8.7(B) use previous knowledge of surface area to make connections to the formulas for lateral and total surface area and determine solutions for problems involving rectangular prisms, triangular prisms, and cylinders

**Content Objectives/Learning Goal:**  
- SWBAT use informal arguments to establish facts about the angles in triangles & angles created when parallel lines are cut by a transversal  
- SWBAT find angles in triangles and those created by parallel lines being cut by a transversal using their knowledge of congruent and supplementary angles & angle theorems

**Language Objective**  
- I will speak and listen to my peers about my confidence level with parallel lines being cut by a transversal.  
- I will speak and listen to my peers about finding angle measures related to triangles and their exterior angles.  
- I will speak and listen to my peers about how the mathematical meaning of ‘similar’ relates to the outside of math meaning of ‘similar.’

**Success Criteria**  
- I can find the measures of angles formed when a line crosses two parallel lines.  
- I can find angle measures related to triangles and their exterior angles.  
- I can determine if two shapes are similar just by looking at their angle measures.  
- I can describe similarity and congruence.

**CFUs/Strategic Questions**

- How are angle relationships used to find missing measurements?  

**Students may make the following mistakes:**  
- Incorrectly identifying angle pairs created by a parallel line cut by a transversal*  
- Not connecting properties for similar figures to determine the missing angle measure in a triangle  
- Not relating supplementary angles to the sum of the angles in a triangle*
