

## **Educational Suitability Summary Report**

Kocurek Elementary School

Date: 07/21/2016 Score 71% Good

Kocurek Elementary School is serving a student population of approximately 505 students in South Austin. After interviewing the Principal, as well as conducting a campus walk assessment, the facility overall in good condition for educational suitability. Deficiencies found were primarily focused on the community's perceived poor appearance of the school and described as a 'ghetto school', security issues to provide a safe environment, and technological updates.

## **Survey Overview**

No survey results provided at this time.

#### Interview Overview

From the interview with the principal, the main spaces thought to not be suitable were the general classrooms being dated and lacking current technology throughout the campus. The classrooms are not readily available for students. Visual communication equipment throughout many of the classrooms is poor are not present at all. There are few whiteboards or built in projectors. The track is worn and in poor condition. The playground area needs shade. Some classrooms are appropriated for other uses since the school is under enrolled. Under enrollment is due to the poor appearance of the campus and students transferring to a nearby newer school which is over populated.

The campus lacks appropriate furniture for the pod spaces. Classrooms in general are lacking current technology and need upgrades. The principal expressed the need to have more fine arts programs and possibly a fine arts wing. The campus has been painting interior walls to create a more inspiring environment and are thankful for the staff efforts and personal time to help elevate the appearance problems at the school.

The principal has expressed some safety concerns on the campus with current camera surveillance being insufficient coverage and very poor quality. The entry to the building is extremely unsafe and although the front office is close to the main entry. The views of the entry are obscured and allow for visitors to roam freely into the classroom corridors. The back driveway of the campus is often used by random people driving to use it as a dumping ground. The resolution of the cameras are too poor to identify anyone. There have been homeless that have been on campus and have created shelter in blind spots from cameras. There is also a serious rodent issue throughout the campus.

Should any major renovations occur on campus, measures should be taken to preserve or salvage the painted solar system mural. The courtyard area is a main feature of the campus and should be enhanced and needs maintenance.

#### PERKINS+WILL

# **Educational Suitability Summary Report**

Kocurek Elementary School

The most critical issues for the campus is the appearance of the campus to appeal to the community and security concerns. Security priorities including a secure vestibule, updates as well as additional cameras, exterior lighting. The campus also needs technology upgrades.

## **Assessment Findings**

The educational suitability assessment of Kocurek Elementary School earned a 71% overall score and places the campus in a category of good. The assessment consists of 11 categories to determine areas that need more attention.

## **Lower Scoring Categories:**

## Security

The score is unsatisfactory.

The location of the central office is located close to the entry to the school but no secure vestibule and views are obscured by walls. Additional lighting needed as well as additional cameras and camera upgrades.

## **Technology**

The score is unsatisfactory.

Within the classrooms there are a few computers and/or devices with a mix of new and outdated technology. The data connections in the classrooms are very limited to just one for the teacher. There is a need for added network and electrical connectivity to support technology for all students.

#### **Furniture, Fixtures & Equipment**

The score is unsatisfactory.

The furniture is old, scratched and marked and not flexible because the chairs attached to the small desks.

## **General Building**

The score is average.

Circulation routes are wide enough to safely and effectively accommodate student movement with primary corridors 7-8 foot wide. Only two community use areas (gym and cafeteria) are arranged without full school access. The overall building is aged but maintained and apparent efforts made with painted walls to create a more inspiring environment. Central courtyard is an asset to the campus but needs some maintenance and landscaping.

## Controllability of Systems

The score is average.

The classrooms have individual thermal controls and blinds for controlling natural light. The artificial lighting controls are limited to only one on/off switch and the blinds are in poor condition.

#### PERKINS+WILL

# **Educational Suitability Summary Report**

## Kocurek Elementary School

## **Environmental Quality**

The score is good.

The quality of acoustics are inadequate as sounds are easily heard from the corridor and adjacent classroom spaces. All classrooms and learning spaces have good natural and artificial lighting. The campus does have rodent issues.

#### **Exterior**

The score is good.

Buses, cars, and pedestrians are separate but drop off does not have a canopy or a holding place like a commons or cafeteria. Outdoor play spaces need minor improvements to function well. The track needs improvements. Central courtyard is large and needs some maintenance to improve its functionality.

## **Future Ready Student Development**

The score is good.

Campus has dedicated common spaces of moderate size and layout with equipment and furniture for hands-on project based learning. Storage is sufficient with casework in good condition. There is sufficient space to display student work. There are a few common spaces throughout the school. Most classrooms have a mix of old and new visual communication tools with projectors and marker boards in good condition.

## Library/Media Center

The score is good.

The library has space and flexibility for collaborative work of different group sizes. The library is spacious with plenty of seating along with area for social interaction. In addition, the library has some technological support with power outlets and network connectivity.

## **Storage**

The score is good.

Sufficient amount of storage due to under enrollment. Classrooms have sufficient cabinets in great condition. Hooks for student storage are provided in the hallways.

## **Higher Scoring Categories:**

## **Academic & Co-Curricular Support**

The score is excellent.

Classrooms overall are appropriate size in nice condition. Support spaces are in great condition and have generous space. There are great pod/common areas provided in the school and they are in great shape.
