Facility Summary

Pickle Elementary School was established in 2001, and consists of the Main School Building (BLDG-164A). This is the site of the City of Austin Public Library’s St. John branch, the St John Community Center, and the City of Austin Recreation Center.

Facility Condition Assessment (FCA)
The FCA is a process that is used to understand the deficiencies of a facility. It is conducted by a team of architects and engineers of various disciplines. The FCA is performed using existing data, facility staff interviews, facility walk-through assessments, analysis, and cost estimating.

Pickle Elementary School 59

Educational Suitability Assessment (ESA)
The ESA measures the degree to which the facility supports teaching and learning considering the exterior and site, academic spaces, support spaces, future-ready spaces, library and media center, security, technology, storage, fixtures, furniture and equipment, environmental quality, and controllability of lighting and HVAC systems.

AISD Cuestionario para la Condicion de Instalacion y Conveniencia Educativa - https://www.surveymonkey.com/r/AISD_Educational_Suitability_Espanol

*The FCA score is equal to 100 minus the Facility Condition Index (FCI). The FCI is equal to the cost to maintain, repair and replace deficiencies of a facility divided by the current replacement value of the facility.

*The FCA and ESA scores are not a representation of the school’s academic performance and does not reflect any construction or improvements performed after the assessment date.

*These are draft scores pending AISD feedback.
