What is a FCA?

The FCA is a process that is used to understand the deficiencies of a facility. It is conducted by a team of architects and engineers of various disciplines. The FCA is performed using existing data, facility staff interviews, facility walk-through assessments, analysis, and cost estimating.

FCA REPORT CARD

Southeast Bus Terminal

95

*This score is not a representation of the school’s academic performance and does not reflect any construction or improvements performed after the assessment date. This is a draft score pending AISD feedback.

*The FCA score is equal to 100 minus the Facility Condition Index (FCI). The FCI is equal to the cost to maintain, repair and replace deficiencies of a facility divided by the current replacement value of the facility.
