

AISD District Turnaround Plan

Burnet Middle School Executive Summary

SCHOOL IMPROVEMENT STRATEGY

Goal: 72% of students achieve academic growth in Domain 2A, and by demographic groups evaluated in Domain 3.

- Around 7 out of every 10 students need to improve in reading, writing, and math. All students, no matter their background, need to show this growth on **STAAR**. Students (4.5 out of 10) who take the **TELPAS** test need to increase their English proficiency skills.

Austin ISD (AISD) has a backup plan, called the contingency plan / 1882 Partnership, to make sure its schools are performing well by December 2025. They're using student test results from each middle school to check if schools are on track. If the schools aren't doing as well as they should be, this plan acts as a safety net.

Part of this plan might involve AISD working with another group, like a charter school to help run the campus. This backup plan would begin in the 2026-2027 school year if needed.

STAKEHOLDER ENGAGEMENT

Over the past several months, district leadership led an extensive engagement process to inform the development of the Burnet Middle School Turnaround Plan (TAP), as required by the Texas Education Agency (TEA). This process began with a Superintendent Community Meeting and included targeted opportunities for input such as parent forums, Coffee with the Principal sessions, Parent Teacher Association (PTA) meetings, campus office hours, and Campus Advisory Council meetings. To broaden participation, the district distributed surveys to gather written feedback from staff and community members. These efforts ensured that a wide range of perspectives directly shaped the proposed strategies and adjustments reflected in the Turnaround Plan.

MILESTONES & PERFORMANCE MANAGEMENT

Burnet’s improvement plan must follow the rules of the **Effective Schools Framework (ESF) levers** and the **Accelerating Campus Excellence (ACE) pillars**, which are guidelines from the Texas Education Agency (TEA).

Staffing and Training: The plan prioritizes hiring all necessary staff and providing ongoing professional development for teachers. This training focuses on school-wide policies, high-quality instructional materials (HQIM), and data-driven instruction (DDI) systems.

Data-Driven Decisions: The school will consistently collect and review various types of data (student learning, teacher observations, attendance, discipline, and family engagement) throughout the year. This data will then be used to create plans for teacher coaching and student support.

Effective Instruction and Routines: Key efforts include implementing HQIM in classrooms, ensuring systems for observing and giving feedback to teachers are in place, and establishing clear, consistent school-wide routines for students.

Strong Partnerships: The school will develop and adjust an engagement plan that builds strong partnerships between parents, teachers, students, and community partners.

Enrichment and Continuous Improvement: The plan includes finalizing and implementing an after-school enrichment schedule, and using end-of-year data to plan for the next year’s professional development and make necessary adjustments to engagement and enrichment programs.

RESOURCES for BURNET

\$ 707,174

- 2 Teachers - \$148,426
- 1 Wellness Counselor - \$95,115
- 2 Instructional Coaches - \$166,780
- 4 Content Interventionists - \$296,853

\$150,000

- Family support resources will be collaboratively determined by the community and campus administration.

WHAT CAN I EXPECT FOR MY STUDENT

Schedules	<ul style="list-style-type: none"> • 5 Blocks/day - 70 minutes • 1 day/week - Extended Day <ul style="list-style-type: none"> ○ Wednesday and transportation will be provided
Content	<ul style="list-style-type: none"> • Literacy & Math every day
Support for Students	<ul style="list-style-type: none"> • Tier 3 built into course schedule • All students have 2 electives • Extended Day - 1x/week • Summer Programming
Burnet Programming	<p>Austin ISD committed to maintaining the Burnet MS programs designed to foster comprehensive student development. This includes a strong emphasis on Arts & Athletics (Athletics, Band, Orchestra, Dance, Color Guard) which are valued for cultivating teamwork, discipline, physical fitness, and creative expression, contributing significantly to a well-rounded educational experience. Alongside these, Academic Support & Enrichment programs are crucial, with after-school English tutoring directly boosting classroom success, and Pre-AP Courses and AVID preparing students for rigorous high school and college academics. Furthermore, diverse specialty electives such as Latin American Studies, Global Studies, Digital Media, and Journalism are preserved to allow students to explore varied interests and discover potential career paths.</p>
