Additional Notes

- WHAT - programming accessible for all students, in all locations, and at all times. HOW - teachers, cultural competency, facilities, transportation
- I wonder about the costs for these, and whether placing this in high feasibility is realistic given our current budget deficits.
- The ones in low feasibility seem tied to staffing. If you have the staffing, you can do the two in low feasibility.
- sees spots in statements that could use adjusting... will there be opportunity for this?
