AISD VISION

We will reinvent the Urban School experience

TEA VISIONS

WHAT IS 1882

- Passed during the 85th (2017) legislative session
- Meant as a new option for sanctions under HB 1842 (84th (2015) legislative session)
- Not just about IR or struggling schools
- Allows for a campus or new school to partner with an eligible organization
- Potential for additional funding through the state school finance system
- Allows accountability exemptions from the state for struggling schools
- Allows a school to operate similar to a charter, exempt from many state and local rules
- Provides greater autonomy, more funding, increased accountability
- For existing school- how will this allow you to reinvent in ways you are not able to do now?
- For new school- how will this fill an existing need in AISD?
