

Dear Parent/Guardian,

All students enrolled in Austin Independent School District are mandated to take a required amount of physical education depending on their grade level. Students in 3rd-12th grade are also required to be physically assessed using FITNESSGRAM. Students must be classified as Non-Restricted (no physical limitations), Restricted (some physical limitations), or Adapted (cognitive and/or physical limitations) before entering a Physical Education Class (Policy: EHAA Legal). If a student is classified as Restricted or Adapted with physical limitations, a member of the healing arts must provide specific documentation regarding the student's physical limitations. Accommodations and/or modifications regarding the student's physical limitations will be made based on the student's individual needs and the Restricted Physical Activity Report that is attached from a licensed member of the healing arts. The "general" physical education teacher or the adapted physical education teacher will ensure the teaching of the Texas Essential Knowledge and Skills for Physical Education based on the student's physical activity limitations.

The Restricted program excludes the more vigorous activities. The Restricted program has two types of classifications:

- a. Permanent—A member of the healing arts licensed to practice in Texas shall provide written documentation to the school as to the nature of the impairment and the expectations for physical activity for the student. The student shall continue to learn the concepts of the lessons but shall not actively participate in the skill demonstration.
- b. Temporary—Students may be restricted from physical activity of the physical education class. A member of the healing arts licensed to practice in Texas shall provide written documentation to the school as to the nature of the temporary impairment and the expected amount of time for recovery. During recovery time, the student shall continue to learn the concepts of the lessons but shall not actively participate in the skill demonstration.

The Adapted Physical Education program may have restrictions as well. Specific activities may be prescribed or prohibited for students as directed by a member of the healing arts licensed to practice in Texas.

Please have your child's physician complete the attached Medical Report and return as soon as possible to his/her physical education teacher or to the ARD committee. This will ensure that your child's physical education instruction will be based on his/her individual needs. A copy of this document will also be provided to the school nurse. All health information is protected under the Health Insurance Portability and Accountability Act (HIPAA).

Sincerely,

Michele Rusnak
Health & Physical Education Supervisor
Austin Independent School District

Austin ISD Restricted Physical Activity Report for Physical Education

Dear Physician,

All students in the State of Texas are required to take a designated amount of physical education at each grade level. Students in 3rd – 12th grade must also be assessed on their physical fitness using the state approved FITNESSGRAM assessment. A student who is unable to participate in the general or adapted physical education program, due to a specific physical condition, will have his/her program modified based on the results of this document.

Student Name _____ School _____

FINDINGS AND RECOMMENDATIONS TO THE SCHOOL

I have examined _____ on (date) _____ and found the following physical condition(s) that may limit his/her participation in a physical education or an adapted physical education class:

The condition(s) listed above is (circle): permanent or temporary

If classified as temporary:

The student will require a restricted program until _____ 20 ____
