APPENDIX III

2019-2020

TEMPLETON
DEMOGRAPHICS

Templeton Demographics was engaged to perform demographic research and enrollment projections. Our process involved researching five years of district enrollment data, geo-code student data, review of economic conditions, review of vacant land and housing research. With our more than 40 years combined experience, we built a very extensive geographic data base. The process creates a detailed analysis of where the students reside and where they attend school. These patterns, along with economic conditions and research from the housing market, form the basis for the enrollment projections we provide to more than 100 districts throughout the state of Texas.
