DEMOGRAPHICS**

hanleywood | metrostudy

Templeton Demographics was engaged to perform demographic research and enrollment projections. Our process involved researching five years of district enrollment data, geo-code student data, review of economic conditions, review of vacant land and housing research. With our more than 40 years combined experience, we built a very extensive geographic data base. The process creates a detailed analysis of where the students reside and where they attend school. These patterns, along with economic conditions and research from the housing market, form the basis for the enrollment projections we provide to more than 100 districts throughout the state of Texas.

DISTRICT OVERVIEW

Austin ISD Executive Summary

The Austin Independent School District experienced a sharp enrollment decline of 5,815 students in 2020/21 due to the Covid-19 pandemic, resulting in an enrollment of 75,075. The pandemic has upended not just AISD enrollment, but public school enrollment across the state and nation, as well as the housing market and economy. The largest year over year enrollment declines were in early elementary grades, with early education and pre-kindergarten enrollment declining 2,375 students between 2019/20 and 2020/21.

The economic slowdown in the second quarter of 2020 caused by the pandemic resulted in a peak unemployment rate within the City of Austin of 12%. Between April and September, roughly half of the city's jobs returned, and the unemployment rate declined to 6%. Austin's large diverse economy and educated workforce will continue to drive the economic recovery into 2021.

The pandemic has resulted in an even tighter housing market, with inventory dropping and prices rising. The AISD housing market is largely driven by high density infill and multi-family development. The district added roughly 1,000 traditional single family homes in the last 12 months ending in the 3rd quarter of 2020. In addition, the district had another 1,000 closings of duplexes, condos and townhomes. Between 2019/20 and 2020/21 the highest number of units that came online were multi-family units. These high density infill developments and multi-family units however do not yield a significant number of AISD students. Condos and apartments yield an average of 1 to 2 students per 10 units, with newer complexes yielding lower than the district average. Traditional single family homes across the district yield an average of 3 to 4 students per 10 homes. In the next 5 years, the district is expected to add roughly 6,170 single family homes and 35,500 multi-family units. However, these population gains in new residential communities will be offset district-wide by the loss of secondary students within the district.

The Covid-19 pandemic is a once-in a lifetime shake up of public education. With the expected return to a historically normal school year in 2021/22, with parents choosing to re-enroll their students in in-person education, the AISD is expected to add 1,976 students next fall, for a 2021/22 enrollment of 77,048. Significant gains are expected in pre-kindergarten and kindergarten as students return to AISD schools. In the next 5 years, AISD is expected to add 150 students for a 2025/26 enrollment of 75,225. This enrollment increase is driven by the return of students in 2021/22, after which AISD is expected to once again to see enrollment declines. AISD enrollment includes out of district students enrolled in the district, while population includes just the students that reside within the district boundary. The AISD population is expected to decline by 601 students in the next 5 years, due to continued declines in student yields and district births.

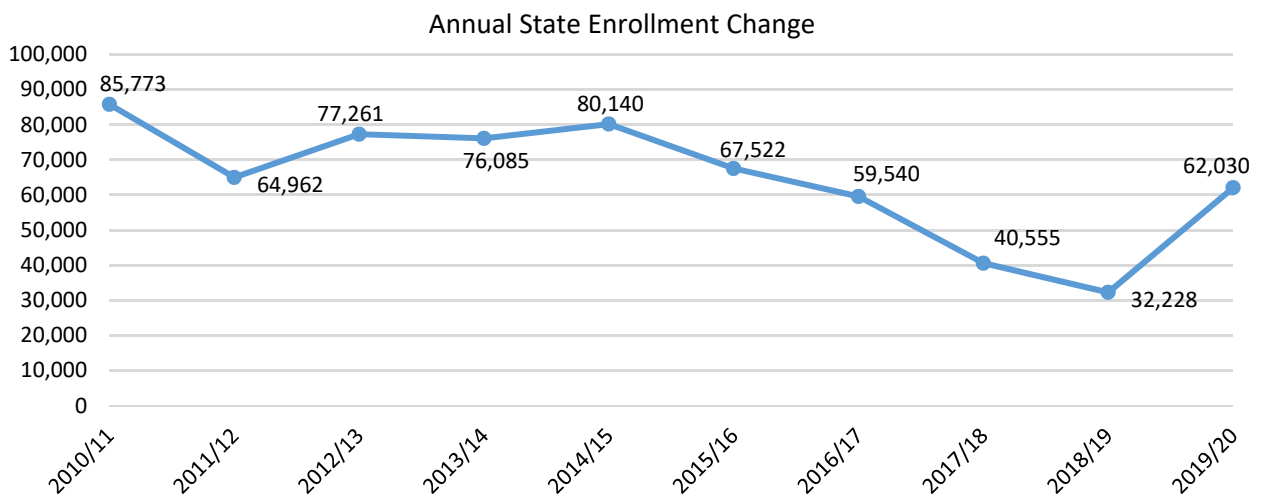

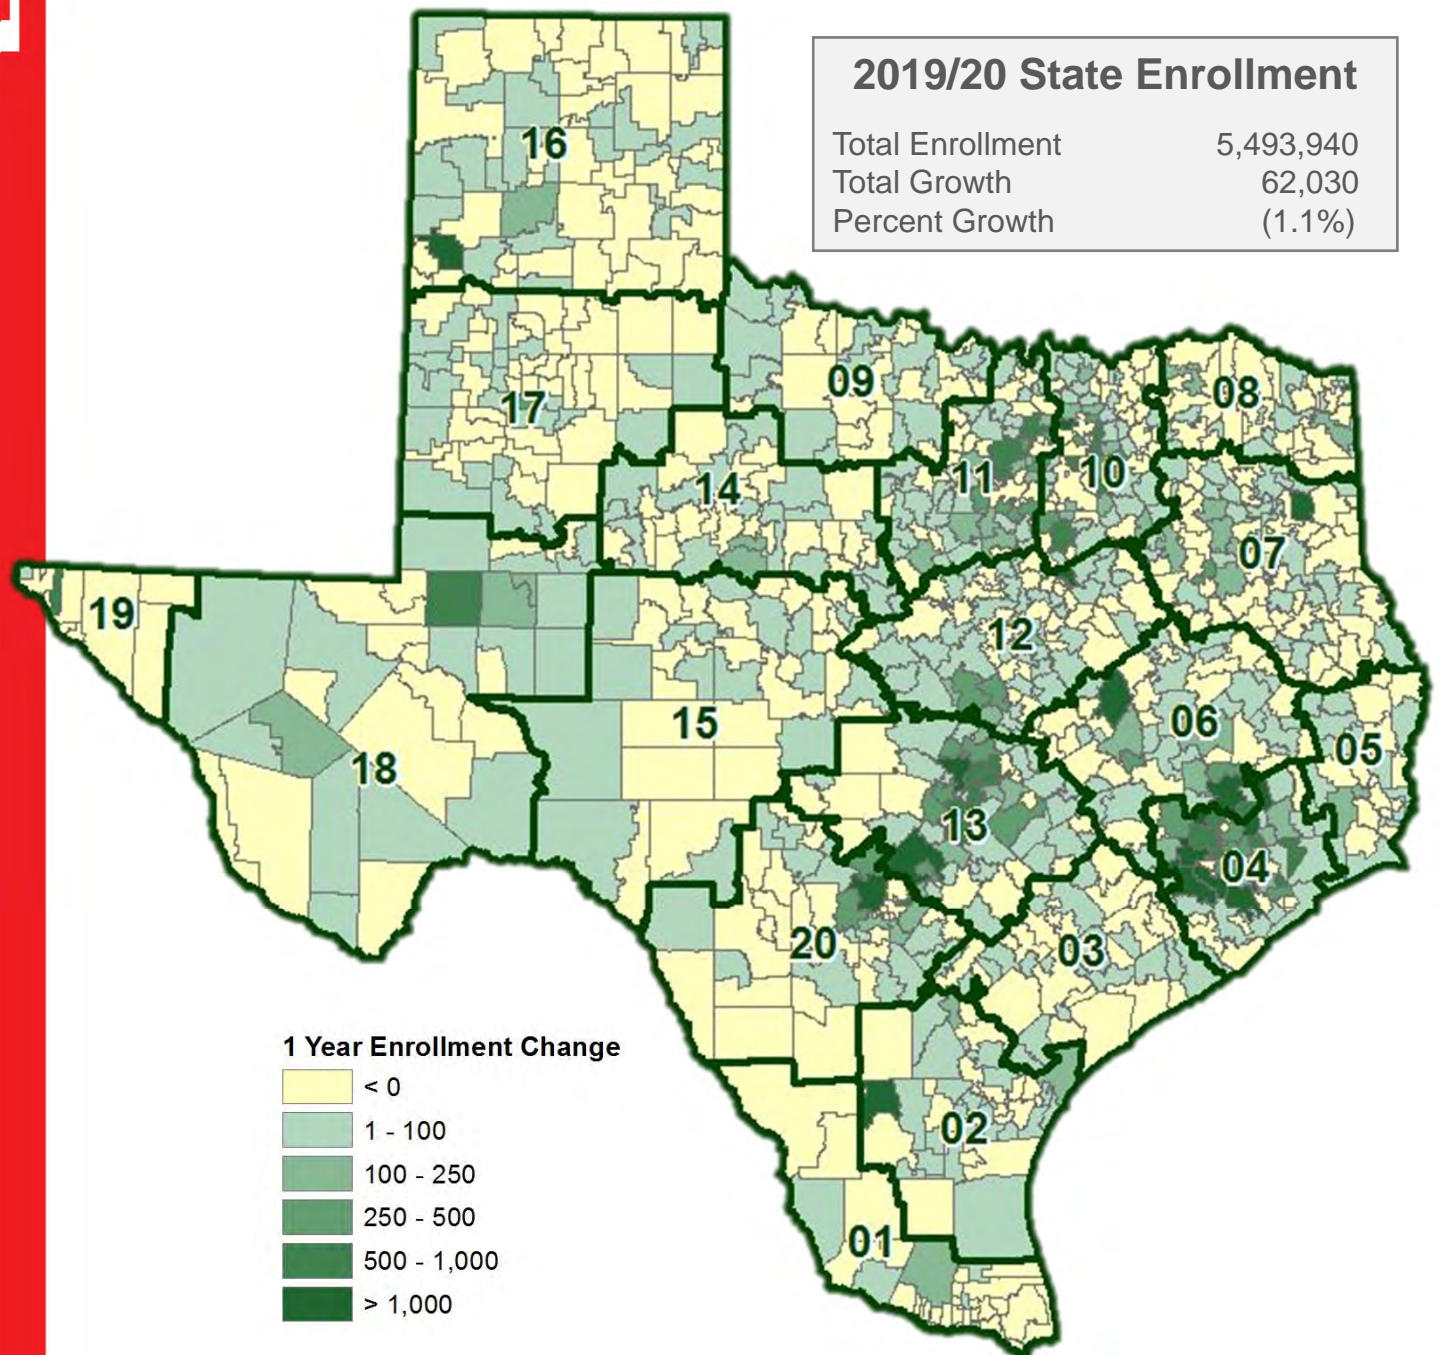

Key Takeaways

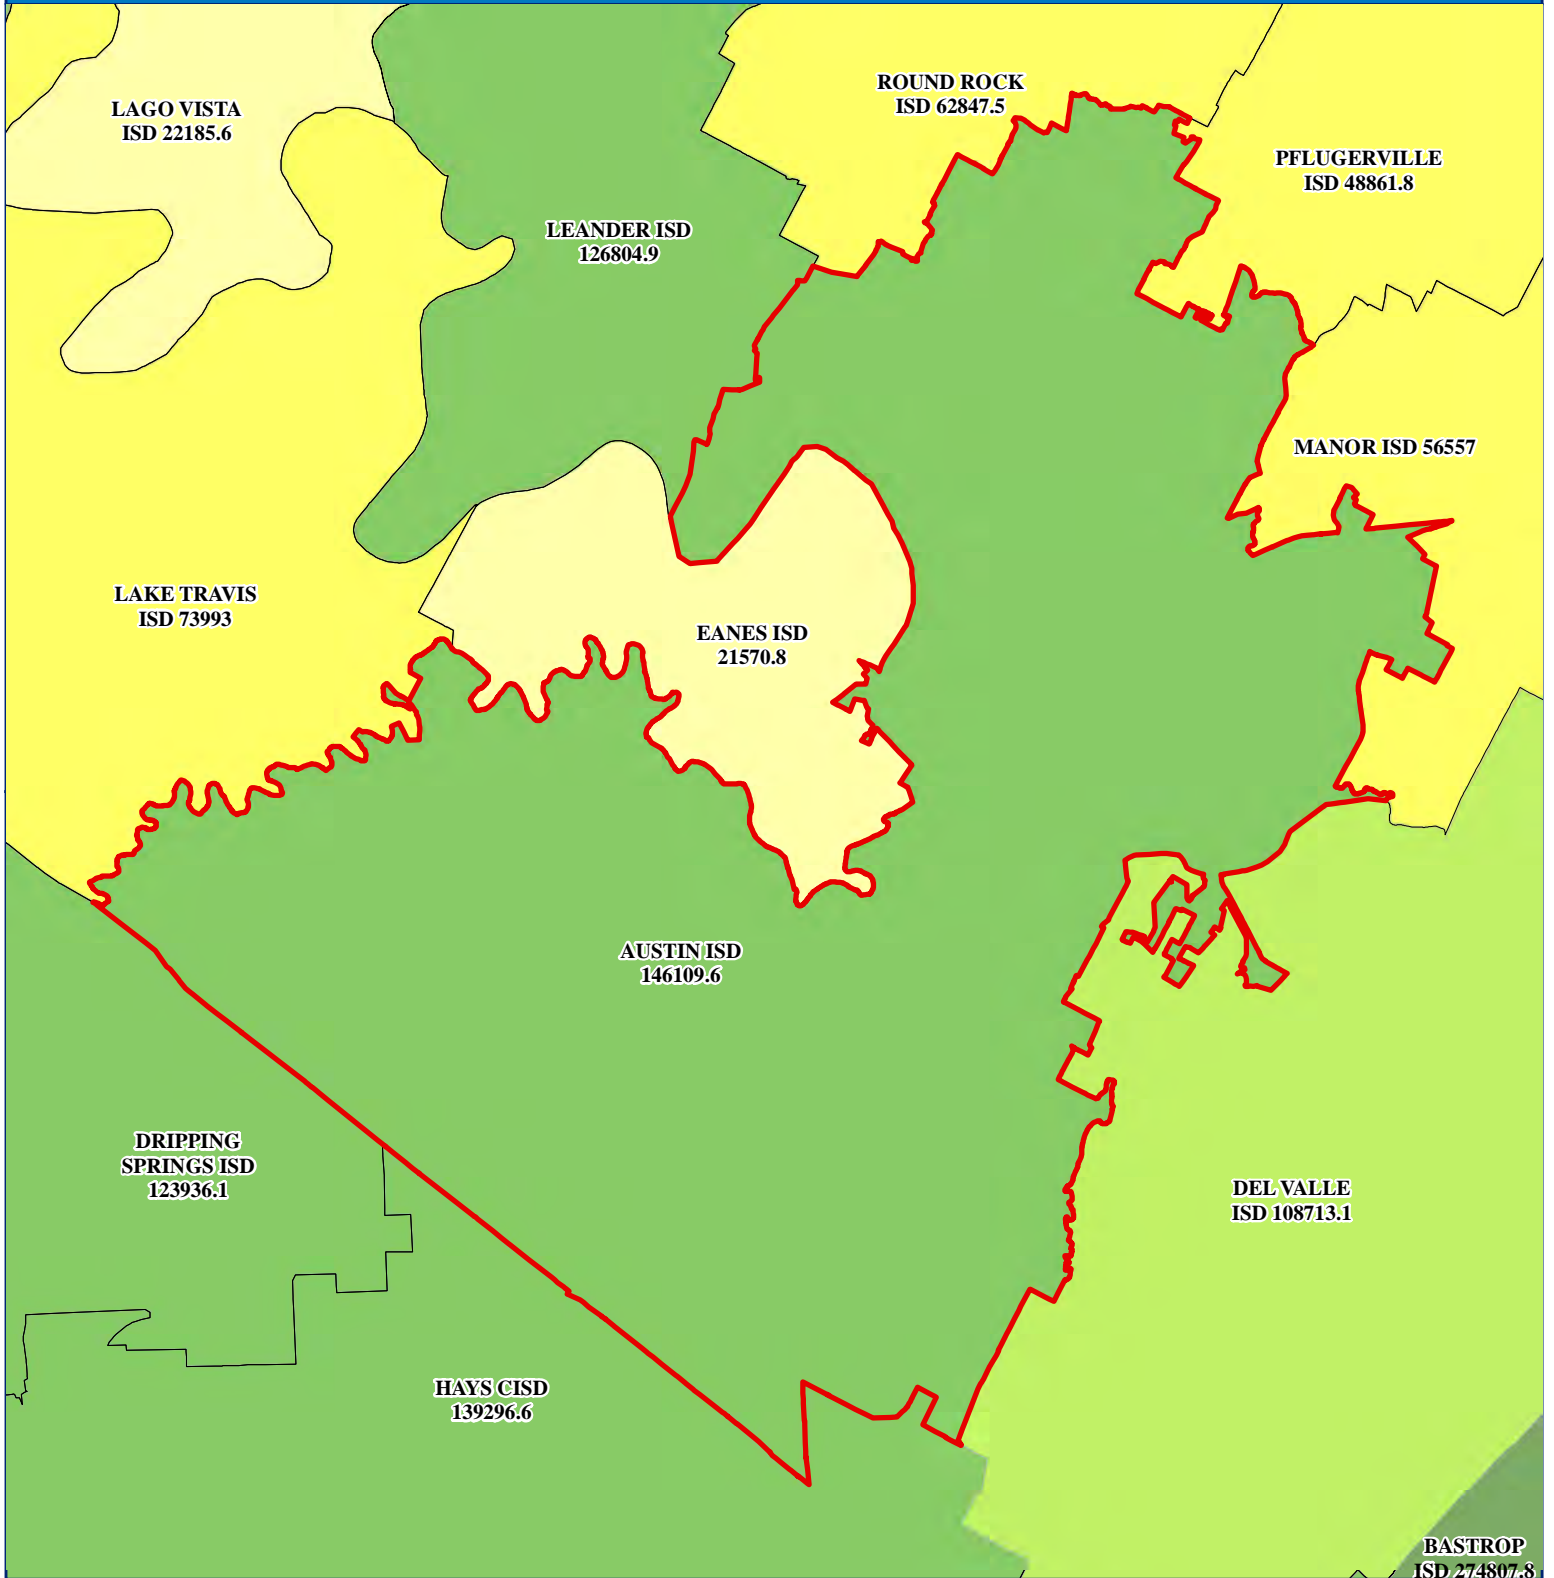

- In 2020/21 the Austin Independent School District's 2020/21 student enrollment is 75,075 students, an enrollment decline of 5,815 students over 2019/20, largely driven by the impact of the Covid-19 pandemic.
- The pandemic resulted in an unprecedented enrollment decline in elementary grades especially early education, pre-kindergarten and kindergarten as parents chose to delay enrolling their children.
- Of the 5,815 student enrollment decline, 2,375 was in early education and pre-kindergarten.
- AISD's elementary school population (students that reside within district boundaries) is 35,569 students, a decline of 5,425 students (-13%) over 2019/20.
- Total elementary school population is projected to increase by 2,656 students in the next year as students return to normal in-person instruction, and roughly 3,220 students in the next 5 years.
- AISD's middle school population is currently 15,903 students, a decline of 567 students over last year (-3.4%).
- The district's middle school population is expected to decline by 711 middle school students in the next year, and 2,157 students in the next 5 years due to smaller class sizes moving into secondary campuses, despite an increase of 428 students last year.
- AISD's high school population is 20,749 students, an increase of 54 students over last year.
- The district's high school population is forecasted to decline by 77 students next year, and 1,671 students in the next 5 years.
- In 2021/22, AISD is projected to enroll 77,048 students, an increase of 1,973 students (2.6%) from the current year, when it is expected students will return post-pandemic.
- Although the district may see a student population decline 601 students in the next 5 years, the enrollment is projected to increase by 150 students and a projected enrollment of 75,225 students, an increase of 153 students due to out-of-district transfers.
- Students that reside outside of the AISD boundary, but transfer into the district remained flat between 2019/20 and 2020/21 at approximately 2,660.
- Nearly 15,000 apartment units and an additional 2,000 condo units are under construction across AISD, which will come online within the district in the next one to two years and are expected to yield minimal students.
- AISD added more than 4,285 multi-family units and 1,740 single family units in the last year, even as the district saw a decline in student yields.

Birth Rate Analysis

Austin ISD KG Enrollment v. District Births

	Kindergarten Enrollment	District Births	Ratio
2006 (2011/12)	7,808	10,907	0.716
2007 (2012/13)	7,975	11,106	0.718
2008 (2013/14)	7,693	11,031	0.697
2009 (2014/15)	7,353	10,790	0.681
2010 (2015/16)	6,782	10,288	0.659
2011 (2016/17)	6,585	10,129	0.650
2012 (2017/18)	6,470	10,417	0.621
2013 (2018/19)	6,226	10,212	0.610
2014 (2019/20)	6,304	10,505	0.600
2015 (2020/21)	5,677	10,425	0.545
2016 (2021/22)	6,330	9,977	0.634
2017 (2022/23)	6,328	9,320	0.679
2018 (2023/24)	6,370	9,179	0.694
2019 (2024/25)	6,353	9,152	0.694

- In 2015, 10,425 live births occurred within AISD, generating a KG class of 5,677 students in 2020/21
- Due to competition from area charter schools and affordability, the ratio of KG students to district births has been declining since 2012/13
- Additional KG losses occurred in 2020/21 due to Covid-19
- Between 2016 and 2019, births within AISD continued to decline, resulting in a flattening KG forecast beginning in 2022/23

Note: In 2016/17 AISD Board changed district policy to allow open enrollment

Figures gathered from TD geocode of AISD student file

Charter School Tracking

- Within the AISD boundary there are 48 operating charter school campuses, including 1 campus that opened in 2019/20 and 1 that opened in 2020/21
- These campuses enrolled more than 16,340 students in 2018/19, an increase of 562 students over 2017/18
- Within a 5 mile radius of Austin ISD, there are 70 campuses that enrolled more than 26,240 students in 2019/20, added 2 campuses in 2019/20 and 2 campuses in 2020/21

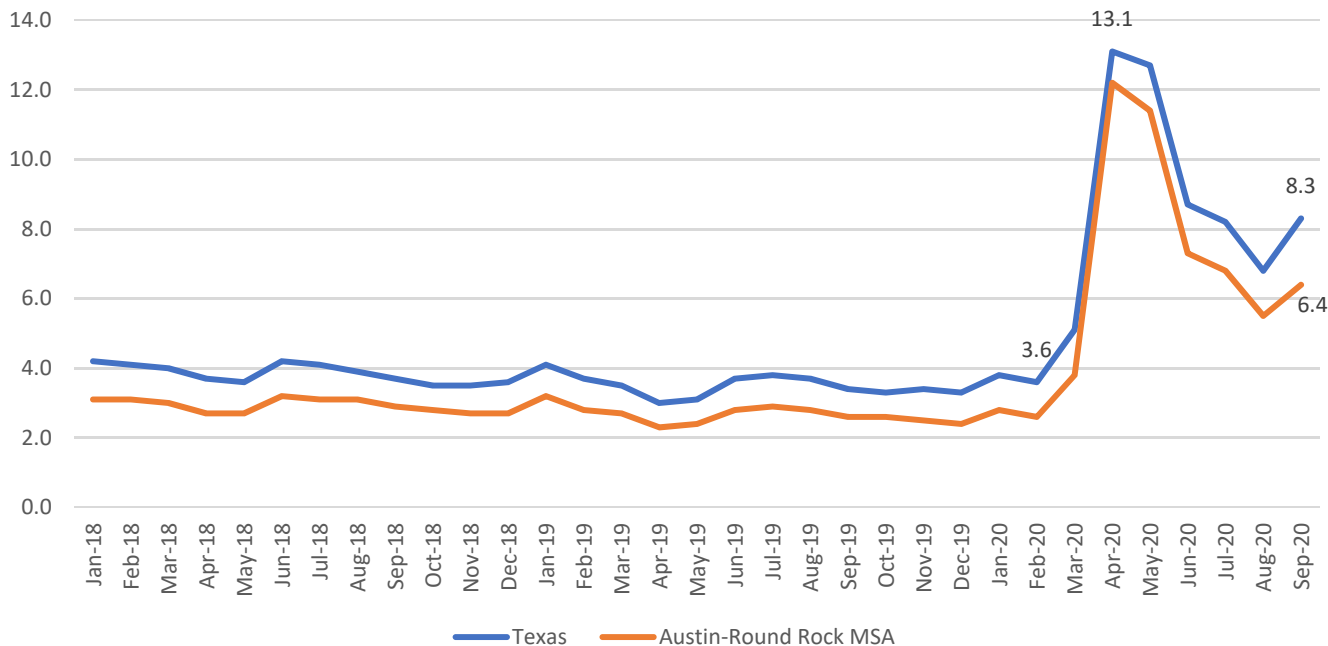

ECONOMIC OUTLOOK

The Coronavirus pandemic has upended many norms going into 2020, including the strong economy at the start of the year. 2019 proved to be another record year for low unemployment rates and strong job growth within the Austin MSA. However, like the rest of the state and nation, Austin saw unemployment peak at nearly 12% in April of 2020 as lockdown restrictions, employment furloughs and layoffs went into effect. As lockdowns eased and company hiring resumed, unemployment rates have dropped and roughly half of the lost jobs have returned. The Austin MSA is in a unique position to prove its economic resilience with its educated and diverse workforce. This strength is proven with the relocation of Oracle's Headquarters to Austin and the groundbreaking of a Tesla Electrical Vehicle Factory. The factory is expected to open in 2021 and bring thousands of high paying skilled positions to the city.

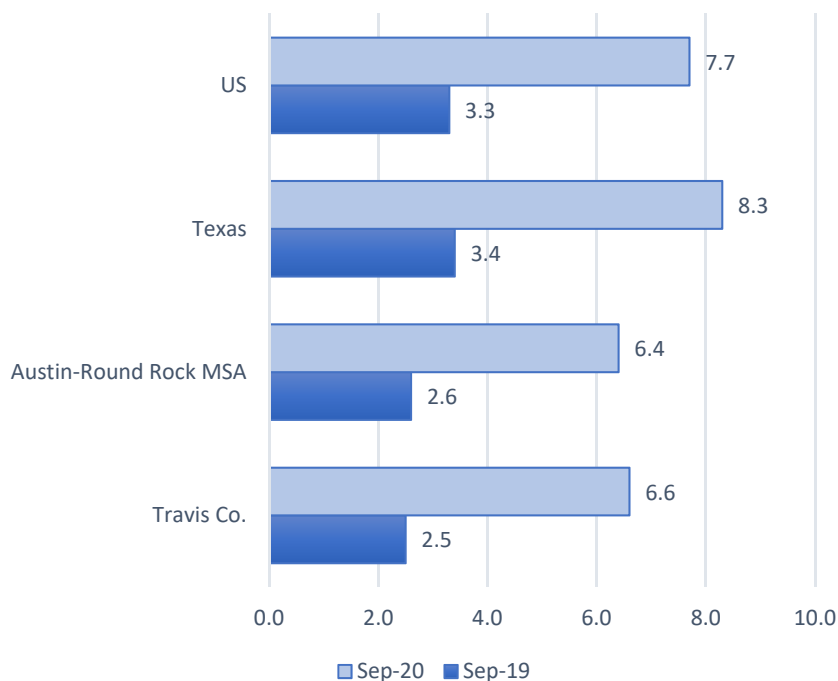

Economic Snap Shot (September 2020)

Unemployment Rates, Jan 2018 - Sept 2020

Unemployment Rates, Year Over Year

- The Covid-19 pandemic of 2020 resulted in widespread job losses as the economy was slowed in March and April
- As the economy has reopened in the third quarter, unemployment rates dropped steadily, however they remain higher than 2019
- Austin and Travis County have lower unemployment rates than the overall state and national average due to its diverse economy and highly educated workforce

Tesla Electric Vehicle Factory

- Tesla has begun ground clearing construction on its \$1.1 billion electric vehicle factory in Austin
- The plan filed with the City of Austin includes a massive oblong factory building just east of Texas 130 that spans from near the Colorado River north to near Harold Green Road
- The 7.9 million sq. ft. plant will be producing 2 popular existing vehicle models as well as be the launching point for two new Tesla products, the Cybertruck pickup and commercial semi-truck
- Travis County and Del Valle ISD helped lure the factory to the area by approving over \$60 million in tax breaks
- The factory is currently expected to employ 5,000 people, with plenty of room for expansion
- Current aims are for the factory to be operational sometime next year (2021)

Oracle Headquarters

- Oracle is moving its headquarters from the Silicon Valley to Austin while implementing a more flexible employee work location policy
- Employees will be able to choose their office location or continue to work from home
- Oracle built a campus in 2018 in downtown Austin which can hold up to 10,000 employees

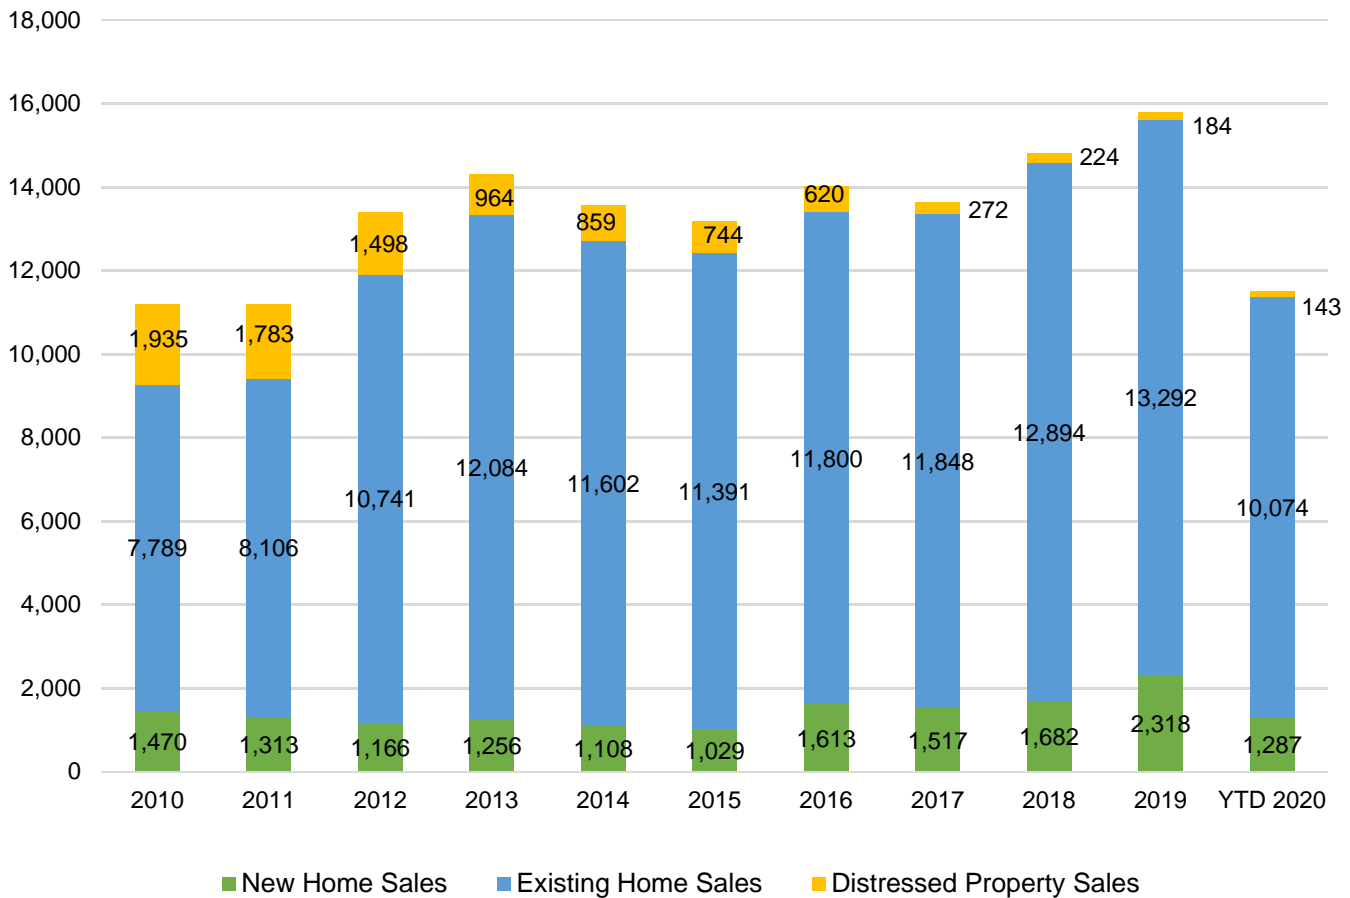

HOUSING MARKET

While it is true that the pandemic had negative affects on many parts of 2020, the housing market has not been one of them. Within AISD, total new home starts and closings totals are down from 2019 only due to fewer condominium complexes starting construction. New and existing home inventory remains extremely tight, causing prices to continue to rise even as the overall economy slowed and unemployment rose. Within AISD, there were more than 2,000 new residential closings in the last 12 months through the 3rd quarter of 2020. However, only roughly half of those units were traditional single family homes, while over 1,000 units were condos, duplexes and townhomes which yield significantly fewer students to AISD schools. Nearly 15,000 apartment units and an additional 2,000 condo units are under construction across AISD. While these complexes will cause an increase in new residential units in 2021 and 2022, they are not expected to yield a significant number of new students. In fact, student yields declined in 2020/21 due to a decline in AISD enrollment from the Coronavirus pandemic. Apartment and condo units continue to yield below 1-2 students per 10 units constructed within AISD.

Austin ISD Housing Activity

Annual Home Sales by Type

Figures include Single Family, Townhome, Duplexes and Condo units

- AISD has closed 2,004 residential units in the last 12 months, including 367 condo units
- Many high density infill developments like condos and townhomes do not yield AISD students

Townhouse	176	13	411	45	185	207	225	594
3Q20 Totals	1,678	263	2,004	382	1,321	1,573	1,287	10,976

- Of the 1,678 homes started in the last 12 months, 930, or 55% were single family homes
- Roughly two-thirds of all 3rd quarter new home closings were single family homes
- Condominium units, duplexes, townhomes and mixed use developments tend to yield fewer students than traditional detached single family housing

Historical Housing Yield by Housing Type

Forecasted AISD New Home Activity

- Between 2019/20 and 2020/21, AISD had roughly 1,740 new single family homes built and 4,285 multi-family units began leasing
- In the next 12 months within AISD, there will be an estimated 1,468 single family home closings and roughly 10,000 multi-family units begin leasing or selling
- The district is expected to add more than 1,000 new single family homes annually for the next 3 to 4 years
- AISD is forecasted to add an average of 6,000-7,000 multi-family units annually for the next 3 to 5 years

POPULATION AND ENROLLMENT PROJECTIONS

POPULATION PROJECTIONS METHODOLOGY

Templeton Demographics uses a detailed methodology in building population projections. First step is to break the district down into small geographic sections called planning areas. These planning areas are usually established around subdivisions and multifamily areas but major roads and transportation access also play a role in their creation. Second step involves the calculation of housing student yields which are calculated from the school district's student data that is carefully geocoded into our mapping software for analysis. Third step involves the review of student history to establish cohort patterns or historical growth rates. Fourth step involves the study of the housing market to forecast new single and multifamily housing units being built within the planning areas established in step one. Fifth step involves review of existing housing to establish regeneration areas based upon the age of the homes. All of these factors are used to build the ten year population projections at the campus and grade level

Following the completion of the student population projections the Templeton team then must establish the enrollment projections. Enrollment projections use the population projections as their base and then AISD incoming and outgoing transfer information is added in at the grade level. This includes; transfers from out of the district, employee students and transfers within the district based on internal transfer policies and programs. Unless Templeton is provided information about a program change that would affect the transfer rate into or out of a campus, transfer patterns are held constant at each campus. Therefore the resulting projections trend similar to the population projections.

NOTE: The projection methodology as detailed above was adjusted for the first year of this year's projections, 2021/22, as allowances were made for enrollments to bounce back at most grade levels following the impacts of the Covid-19 Pandemic. Enrollment in public schools throughout Texas, and certainly the country, saw significant declines related to the pandemic. The largest enrollment declines for AISD were experienced at the elementary level led by Pre-K and Kindergarten.

These totals are the result of a student file provided by AISD and geocoded by Templeton Demographics. The date stamp on these files does not always match the snapshot date used for the enrollment data set submitted to TEA.

Population = students that reside within the AISD boundary Enrollment = students that attend AISD schools

Unmatched = students with addresses TD was unable to geocode

- AISD is forecasted to have a student population of 74,089 students within the district boundary in 2021/22
- 2025/26 projected population = 71,620
- 5 year forecasted population decline of 601 students
- 2030/31 projected population = 70,784
- 10 year forecasted population decline of 1,437 students

Enrollment totals are intended to represent the enrollment as submitted to TEA at snapshot. However, TEA masks grade levels with enrollment of less than 10 students to comply with FERPA laws. Therefore, when compiled the total enrollment may be slightly different than the student file provided by AISD.

Population = students that reside within the AISD boundary Enrollment = students that attend AISD schools

Unmatched = students with addresses TD was unable to geocode

- AISD is forecasted to have a student enrollment of 77,048 in 2021/22
- 2025/26 projected enrollment = 75,225
- 5 year forecasted enrollment growth of 150 students
- 2030/31 projected enrollment = 74,431
- 10 year forecasted enrollment decline of 644 students
