

# **Educational Suitability Summary Report**

Northeast Early College High School

Date: 10/26/2020 Score 58% Average

Northeast Early College High School serves an enrollment of approximately 1,100 students in northeast Austin. Formerly called Reagan High School, it was one of four schools renamed during the 2019-20 school year. The school opened in 1965 and has approximately 253,000 square feet of space.

Northeast ECHS is one of seven Early College High Schools in the district that allow students the opportunity to graduate simultaneously with a high school diploma and an associate degree at no cost to the students. Northeast is also one of the district's AVID (Advancement Via Individual Determination) schools, which support students who are traditionally underrepresented in higher education and prepares them for success in school and other postsecondary opportunities. Additionally, Northeast ECHS is one of four high schools in AISD that participates in Career Launch, which allows students to get a head start in a career where skilled employees are in high demand. Through the 2017 bond program, the school was approved for interior renovations for its Career Launch: Careers in Technology program in partnership with Dell.

#### **Interview Overview**

| The interview with Principal Sterlin McGruder, an assistant principal and other staff members identified areas for improvement throughout the campus. The campus is large and spread out, |
|---|
| composed of multiple buildings and a large amount of covered outdoor space.   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |

Much of the interview focused on the future and ways the campus can help support student learning through their environment. Of the 6 C's in the district Educational Specifications, they said that collaboration is not currently supported to the highest level. The campus's "New Mall" supports collaboration better than other areas, but much of the remaining space does not allow for opportunities for informal collaboration. Outdoor learning areas are underutilized (despite an abundance of space) due to a lack of resources, e.g., power, teaching areas, furniture, etc. Amphitheater-type seating was suggested as a solution that could support a variety of teaching modalities.

Performing arts spaces could use more storage and potentially an expansion. Orchestra was only recently added to the school's program, so it currently shares space with choir and guitar. The theater

## **Educational Suitability Summary Report**

Northeast Early College High School

supports school functions but could use new seating as the current seats are original and are not easily cleanable. The HVAC system is dated, and the campus experiences multiple outages per year.

There are many areas for improvement around accessibility. While not scored as part of the ESA, it should be noted that accessibility issues can lead to inequities across campus. Some restrooms do not have an accessible stall, and all restrooms have old, rusty sink fixtures that are not accessible. The drama studio has a sloped floor that prevents some students from accessing the entire room. The dressing rooms for the theater are only accessible by a set of stairs.

The UIL sports held on campus are volleyball, basketball and wrestling; all others occur elsewhere. Outdoor sheds house much of the equipment for sports programs, but they are aging and need repair. A larger, centralized complex for equipment storage needs could be beneficial. The assistant principal and teachers expressed concerns about the fields not having proper irrigation. Since they are not properly irrigated, the grass dies. Then the fields are not usable after it rains, and they have become uneven and unsafe due to erosion. Replacing them with turf was brought up as a possible solution that requires less maintenance and would allow them to be used more consistently year-round. The athletics department is also in need of updated spaces (with a sink/kitchen and restroom); these are currently housed in dilapidated portables. Opportunities for outdoor sports instruction supported by technology are also on the wish list.

In terms of technology around the campus, upgrades that will help support the future of learning through virtual reality, augmented reality, artificial intelligence, collaboration through the internet, and stronger computational power are items that the staff thinks should be present in every studio. The desire for the learning environment to work for the students and allow for fluidity in learning is of utmost importance to the staff.

Overall, the staff, teachers and students have a lot of pride in their campus. It is not seen as a traditional high school, and renovations and upgrades would help support their future thinking development.

## **Assessment Findings**

The Educational Suitability Assessment of Northeast High School earned a 58% overall score and places the campus in a category of Average. The assessment consists of seven General Building categories and eight Academic categories to determine areas that need more attention.

#### **Unsatisfactory Categories (36-50%):**

#### **General Building**

Score is unsatisfactory.

Outdoor corridors are generous, but interior corridors are only about 7 feet wide. The gym and theater can be accessed after-hours, but the cafeteria and library are too centralized to be used after-hours. The conference center and Hall of Fame off the cafeteria are functional for dedicated meeting spaces, but neither can be easily accessed by the public. The general appearance of the school is adequate but outdated. Grounds are well kept, but areas that need improvement are signage, painting and cleaning of the façade.

## **Educational Suitability Summary Report**

Northeast Early College High School

#### **Visual and Performing Arts**

Score is unsatisfactory.

Band and ensemble spaces do not have great acoustic control, but small prefabricated practice rooms are present. Orchestra and choir share a space and more storage is needed for all performing arts. Drama studio has a sloped floor, which is problematic for accessibility. Theater is in good condition, as are dressing rooms but they are not accessible. Art studios are generous in size, but the kiln is broken. Outlets are inadequate and power is supplemented with extension cords and power strips.

#### **Media Resources**

Score is unsatisfactory.

The library is in the Old Mall and not easy to find or accessible to the public. There are no areas for quiet study, but a few options in seating with a mix of old and new furniture. There are no breakout rooms for small group collaboration and only one large computer lab without flexible furniture. There are numerous computers and charging carts but only one flat panel display and a ceiling-mounted projection screen. No whiteboards are present.

### **Technology**

Score is unsatisfactory.

All studios have mobile markerboards and flat panel display. Some studios have blackboards. Average number of outlets per wall, but it is not uniform throughout school, and limited outlets are available outside of studios. The media center and other common areas do not have adequate charging capabilities. The cafeteria has a projection screen and speakers but no overhead projector. The gym does not appear to have any A/V capabilities.

#### Average Categories (51-65%):

#### **Exterior**

Score is average.

Signage across campus is minimal. Locating the main entry when approaching the building is difficult due to the orientation of the campus and adjacent roads.

## **Outdoor Learning and Activity**

Score is satisfactory.

There are many opportunities for outdoor studio spaces but not enough furniture. Outdoor courtyards and atrium spaces are abundant, but there does not appear to be a dedicated garden or irrigation. There are many opportunities for rain gardens and other outdoor features.

| Security                   |  |
|----------------------------|--|
| Security Score is average. |  |

|                            |  |

## **Educational Suitability Summary Report**

Northeast Early College High School

#### **Environmental Quality**

Score is average.

Most studios have access to natural light, but windows are narrow and small. Most spaces have nice views to the campus if blinds are opened. Most studios have dated artificial lighting, such as surface-mounted or recessed fluorescent fixtures.

#### **Controllability of Systems**

Score is average.

Studios have thermostats. All windows have blinds, but they are in poor condition. Lights only have one control.

## **Furniture, Fixtures, Equipment**

Score is average.

The furniture is dated in some places and new in others. Overall, the furniture appears to be in adequate condition. Most furniture can be moved if needed but does not have casters for flexibility.

## **Academics & Learning**

Score is average.

Studios are a good size but have limited flexibility and little storage. There are areas that could be used for collaboration but are not. There are no areas for small group learning and collaboration. Studio clusters appear to have PLC spaces for teachers but are used in different capacities.

#### **Athletics and Wellness**

Score is average.

Athletic fields/courts and track are in good shape, but basketball and volleyball are the only UIL sports held on campus. Gym floor and bleachers are new. Weight room is on the stage and not accessible.

#### **Administration Spaces**

Score is average.

and not welcoming with

low ceilings and limited seating. Acoustic separation seems adequate. There appears to be one small conference room that is accessible to the public.

## Satisfactory Categories (66-80%):

#### **Food Services**

Score is satisfactory.

Cafeteria is generously sized and offers a variety of seating options. Outdoor dining is adjacent and covered. Kitchen and serving lines are satisfactory. Furniture and decor are outdated, and the decor does not feel age appropriate for an early college high school.

## **Very Satisfactory Categories (81-100%):**

# **Educational Suitability Summary Report**

Perkins&Will

Northeast Early College High School

## **CTE and Career Connected Learning**

Score is very satisfactory.

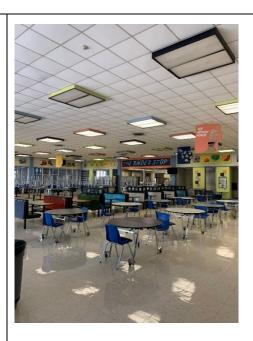

CTE studios and labs are well equipped for their programs. All CTE programs specified in the master plan are operational on campus.

# **Educational Suitability Summary Report** Northeast Early College High School

**Supporting Photographs** 

Generous outdoor space but limited functionality.

Centralized dining with a variety of seating options but dated and not suited for high school students.

Dated furniture and limited lighting controls. Natural light present but poor due to narrow windows.

Narrow interior corridors, poorly lit and low visibility. Little opportunity for collaboration spaces.

# **Educational Suitability Summary Report** Northeast Early College High School

Media Center: No quiet zones or areas for independent study and a mix of old and new furniture.

Well-equipped Maker Lab and robotics program with some additional storage needs.

Undersized dance space needs storage and a dedicated dressing room.

Broken kiln now serving as space for additional storage. More storage and power needed.
