

Educational Suitability Summary Report

TA Brown Elementary School

Date: 01/25/2021

Score 90% Very Satisfactory

T.A. Brown Elementary School serves an enrollment of around 460 students in north central Austin. The school is in a new building inaugurated in early 2020 as part of the 2017 Bond Program. The school supports STEM programs with students in pre-K through fifth grade. After conducting a campus walk assessment, we found the facility exhibits and meets a high percentage of the education spec requirements.

The main building is two levels, and the art room, library and additional studios are on the second level. There are multiple outdoor learning spaces on the periphery of the building. The studios are properly sized and configured with flexible furniture. There are also designated open and closed breakout spaces adjacent to the studios. Large glass panels in the walls create visual connections between learning spaces for passive supervision. Restrooms in the studios are well laid out and can be shared between two studios separated by a foldable partition. This partition allows flexibility and acoustical privacy when needed. The studios have adequate natural lighting and is controlled with shades. Maker spaces are used for science as well as other functions. Currently, the special education space is being used as a second-grade studio. A washer and dryer is not provided in the special education areas, but one is in the health office, which is very well-equipped.

The main entrance vestibule is secure and adjacent to the administration offices. The admin spaces include a conference room and a designated community room. There are learning stairs near the entrance with a large two-story hall. The second-floor library can be challenging to find from the main entrance. The library exhibits adequate technology resources; however, the reading room is on the smaller side. The library has a narrow balcony, which serves as an outdoor reading space. The cafeteria meets the Education Specifications, and the connection to the gym accommodates larger groups. The outdoor spaces are satisfactory overall, but the playscapes are not shaded. The trees on the campus help provide some shade.

Interview Overview

The interview included Principal Veronica Sharp and administrative assistant Sheryl Bowie. The campus is only a year old and in good condition. Some punch list items are still being addressed, such as heating and cooling issues, floor finish cracks and interior wall finish fixes. Toilets were noted to require several flushes due to low-water-flow fixtures.

The site functions well,

Exterior signage is limited. No marquee or digital sign is in place. There are canopies at the bus and car drop-off/pickup, but drainage of rainwater is an issue off the edges of the canopies. The sidewalk abruptly ends and does not connect along the entry.

Educational Suitability Summary Report

T.A. Brown Elementary School

The interviewees noted that storage is lacking for maintenance and general school materials. Art and school pride installations are desired and budgeted for in the near future. Studios have large windows for views out and access to natural light, but a lack of window coverings results in glare for some students.

Outdoor learning spaces are a strong point for the campus along with the animal husbandry provided for natural, social and emotional learning. The community room has a secured separation from the learning areas and after-hours access for a variety of uses, though this space is being used as COVID staging currently. The cafeteria and gym open for multipurpose and community space with direct access to parking.

Assessment Findings

The Educational Suitability Assessment of T.A. Brown Elementary School earned an 90% overall score and places the campus in a category of Very Satisfactory. The assessment consists of seven General Building categories and seven Academic categories to determine areas that need more attention.

Satisfactory Categories (66-80%):

Outdoor Learning and Activity

Score is satisfactory.

Good size and in great condition. There is a variety of outdoor learning spaces although less than 50% have shade coverage over studio area.

Controllability of Systems

Score is satisfactory.

Dimmable lighting controls in all occupiable spaces. Blinds are provided to control natural light in learning spaces, but each studio does not have an individual thermostat.

Food Services

Score is satisfactory.

The cafeteria dining area is undersized for the current population. All finishes are in excellent condition, and all support spaces meet Ed Spec.

Very Satisfactory Categories (81-100%):

Exterior

Score is satisfactory.

As a new building, the exterior condition is great, and grounds are well-maintained. Parking is located where car drop-off is located. Bus drop-off is separate, and both have canopies.

General Building

Score is satisfactory.

Building is in great condition overall. Front rooms in circulation path have narrow corridors. Other locations have wide, spacious corridors.

T.A. Brown Elementary School

Security

Score is very satisfactory.

Environmental Quality

Score is very satisfactory. The studios have good acoustics, and all studios receive natural light.

Furniture, Fixtures, Equipment

Score is very satisfactory. Furniture is new in the building and all multi-use spaces have greater than two types of furniture. Furniture is flexible for multiple configurations of space, easy to move and stack.

Academics & Learning

Score is very satisfactory. Good size, multiple areas for different teaching methods. Good flexibility, transparency and connection to other studios and shared learning spaces.

Visual and Performing Arts

Score is very satisfactory. There are generously sized arts and music rooms with adequate storage and flexibility.

PE and Wellness

Score is very satisfactory.

The gym is configured well and in good condition with connected outdoor spaces. The gym has sufficient storage and connection to cafeteria for larger groups.

Media Resources

Score is satisfactory.

Accessing the library can be challenging since it is not near the entrance and is located on the second floor. No small rooms provided in the library to support small groups or quiet study.

Technology

Score is satisfactory.

Adequate instruction technology present in the learning spaces; however, there is minimal charging towers in spaces. Students use extension cords to charge tablets.

Administration Spaces

Score is very satisfactory. The administration feels welcoming. Acoustics are indicated as being adequate between offices.

Educational Suitability Summary Report

T.A. Brown Elementary School

Supporting Photographs

Hallways: Primary corridors are wide, but some secondary corridors are tight. Furniture and column protruding create narrower feel of some corridors.

Breakout Space: Breakout spaces are spread across the building adjacent to the main circulation and allow for extra collaboration and learning spaces.

Educational Suitability Summary Report

T.A. Brown Elementary School

Supporting Photographs

Community Room: Secured separation from the learning areas and afterhours access for a variety of uses

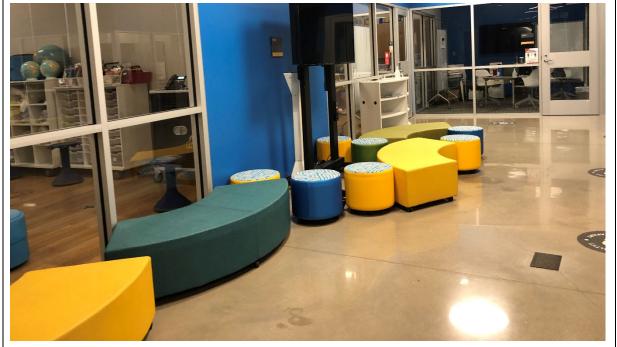

Exterior learning areas are planned with several settings, no shade coverings at most locations.

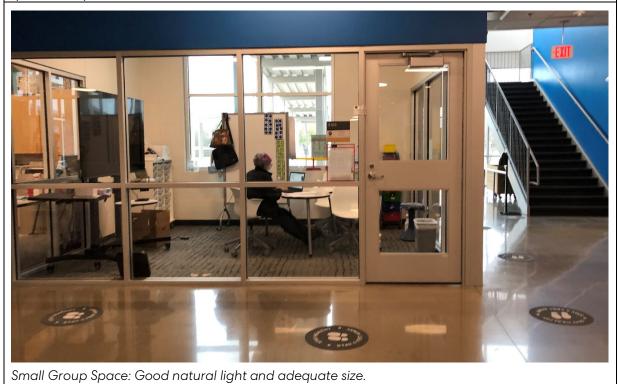

Educational Suitability Summary Report

T.A. Brown Elementary School

Supporting Photographs

Flexible Space/Hallways: Breakout spaces in the hallways, good transparency into the learning spaces and promotes social interaction.

Educational Suitability Summary Report

T.A. Brown Elementary School

Supporting Photographs

Studio: Movable partition, allows for flexibility and use of restrooms between studios without sacrificing acoustical privacy when needed.

Library: Good natural light in the space. Areas for quiet study are not available. The library is relatively close to the entrance but is on second floor. Outdoor balcony is directly accessed from library.

Educational Suitability Summary Report

T.A. Brown Elementary School

Supporting Photographs

Playscapes: 50% of play areas shaded by tree canopies only.
