

# **Educational Suitability Summary Report**

Wooldridge Elementary School

Date: 01/14/2021 Score 56% Average

Wooldridge Elementary School serves an enrollment of 470 students in north Austin. It was built in 1969, with a studio addition constructed in 1998, and consists of approximately 70,000 square feet on 12 acres. The campus currently has 6 double wide portables that were added over the 1980s and 1990s. While this assessment does not cover the portables, it is assumed spaces in portables will be found deficient. The population of the school is diverse with students and families that speak over 30 different languages. They support after school programs for students such as Boys and Girls Club, GirlStart, Soccer Club and Tech Club.

Overall, the building does not greatly support the school's programs and population, nor does it meet the standards as described in the district's Educational Specifications. Numerous programs are housed in portables, and there is limited flexible space within the school. The main circulation of building is large, but stairs are required to get into studios on split levels. The campus has a new playground and a lot of outdoor learning areas. The outdoor areas need to be updated in order to function better. The studios have ample natural lighting and views to the exterior but lack transparency and visibility into the building.

#### **Interview Overview**

The interview participants consisted of Principal Sheri Mull and Head Custodian Erick Villagran. When asked about features of the school that should be kept staff noted the murals across campus, as well as two benches that are in the front of the school in honor of students. The green school park is a new initiative that the campus has implemented so they would like for that to stay and continue to be built upon as well. The site is large, and the back portion of the property is used as a city park during off hours. There is a new playground with shade covering, but the site otherwise lacks adequate outdoor learning spaces, and the sidewalks and parking lots are in poor condition. Improvements should include finishing out the walking trail, adding signage, adding a full setup for an outdoor studio, adding gardens, and

The existing studio configuration works well for collaboration and connection, but the operable walls are outdated. Replacement of the operable walls would improve acoustics. Ceiling tiles are being replaced constantly due to leaks, but walls, windows and doors are in good condition. Staff also noted that the flooring is in poor condition, with tiles frequently cracking or coming loose causing a tripping hazard as well as an overall issue with the condition of the facilities.

The school is undersized in almost every aspect. An entire grade level, art, music, and special education all take place in portables. The kitchen serving line is small and makes lunch periods long and inefficient. There is no dedicated space for flex areas in learning neighborhoods, maker space, small and medium group rooms, speech, dyslexia, therapist, coaches, or interventionist. The administration suite lacks a mail

## **Educational Suitability Summary Report**

Wooldridge Elementary School

room and a separate teacher workroom and lounge. The campus does not have furniture storage, making it difficult to utilize the cafeteria for assemblies and other events. Storage is needed throughout the entire campus.

#### **Assessment Findings**

The Educational Suitability Assessment of Wooldridge Elementary School earned a 56% overall score and places the campus in a category of Average. The assessment consists of seven General Building categories and seven Academic categories to determine areas that need more attention.

#### Very Unsatisfactory Categories (0-35%):

#### **Visual and Performing Arts**

Score is very unsatisfactory.

The stage in the cafeteria is not accessible and has no dedicated storage. There is no dedicated art or music studio – both are held in portables.

#### **Unsatisfactory Categories (36-50%):**

#### **Exterior**

Score is unsatisfactory.

The bus loop is shared with parent drop-off and the front entry is easily identifiable. There is a new playground, but all other outdoor areas could use improvement. The overhang at the school's entry has been temporarily shored by steel posts and requires maintenance.

### Security

Score is unsatisfactory.

## **Academics & Learning**

Score is unsatisfactory.

In main building, studios have built-in storage that discourages flexibility. There are exterior windows, but no visibility into corridors or other studios.

#### **PE and Wellness**

Score is unsatisfactory.

Gym is undersized but flooring and wall pads appear to be new. There is not adequate storage for PE.

#### **Food Services**

Score is unsatisfactory.

Kitchen is undersized and has only one small serving line. Seating is not flexible and there is no dedicated storage in the cafeteria. Furniture will be updated as part of the furniture refresh in summer 2021.

### **Technology**

Score is unsatisfactory.

Smart boards are provided throughout campus, but data and power outlets are lacking. Flexible

## **Educational Suitability Summary Report**

Wooldridge Elementary School

Perkins&Will

charging towers will be provided in each studio as part of the furniture refresh in summer 2021.

### **Administration Spaces**

Score is unsatisfactory.

The administration suite

has very little natural light and storage.

## Average Categories (51-65%):

#### **General Building**

Score is average.

Lack of storage throughout campus. Main circulation of building is large, but stairs are required to get into studios on split levels.

## **Controllability of Systems**

Score is average.

Lighting controls could be improved throughout entire campus. Windows have blinds but are in poor condition.

## Satisfactory Categories (66-80%):

### **Outdoor Learning and Activity**

Score is satisfactory.

There are many gardens and outdoor areas, but they are not equipped with appropriate furniture.

### **Environmental Quality**

Score is satisfactory.

Building has a history of pest problems. Most studios have natural lighting and access to outside views. The studios in the main building are separated by aged operable walls that are not in good condition.

#### **Media Resources**

Score is satisfactory.

Library is located close to main entry with access to natural light. Storage seems to be lacking and library feels small. New furniture will be provided as part of the furniture refresh in summer 2021.

#### Very Satisfactory Categories (81-100%):

#### **Furniture, Fixtures & Equipment**

Score is very satisfactory.

About 75% of existing furniture will be replaced as part of the furniture refresh in summer 2021. Administration furniture is not included but should be considered for future updates.

## **Supporting Photographs**

Main Entry: This display case is the only one found in the building. The adjacent room, which was at one point used for A/V, is now a storage and conference room for administration.

Typical Studio (Main Building): Each studio has existing built-in storage that is underutilized and discourages flexibility. There is no visibility into corridors.

## **Supporting Photographs**

Typical Studio (Main Building): Two studios are separated by an accordion wall. The hallway connecting these two studios is small and often gets filled with storage.

Pre-K Studios: Each studio in the pre-K building has one teaching wall, adequate storage, and a wide double door that opens to the adjacent studio. The restrooms are accessible and the connections between studios have no doors. The double doors do not appear to be utilized.

## **Supporting Photographs**

Maker Space: Maker space equipment and supplies are stored in this room, which is off the library. Items are pulled out of here and used in the library for activities. Storage is currently at a premium during Covid, and photo may not reflect conditions during normal school year.

Media Center: Library is overcrowded with materials and could use additional storage. Existing furniture to be supplemented with additional updates in a refresh project during summer 2021.

## **Supporting Photographs**

Corridor (Main Building): Corridors lack transparency, collaboration areas or display. There is very little natural light.

Corridors (Main Building): Studios can only be accessed from main corridor by going up or down a flight of stairs. A ramp and lift are provided at either end of the building

# **Supporting Photographs**

Visual and Performing Arts: Stage Is not accessible and lacks storage.

Exterior: Outdoor garden appears to be utilized but does not adequately support its use.
