**Introduction to Edgenuity**

Ashley Jiles | Edgenuity Professional  
Development Specialist

**Edgenuity Accounts**

Add, edit, and manage student accounts

Create and monitor individualized user groups

Experience the Edgenuity LMS as both an educator and a student

**Edgenuity's Curriculum**

Explore the Edgenuity curriculum and instructional design

Manage and monitor your enrollments

**Report Monitoring**

Understand reports used for monitoring student progress

Learn how to locate and use key data through a variety of reports to drive instruction

Lunch 12:00-12:30 (Lunch will be Provided)

**Foundations of the 21st Century Classroom**

In an age driven by technology, our Foundations of the 21st Century Classroom workshop will help your staff focus on best practices for program success. You'll learn how to help students develop pacing plans and time management skills to meet their goals. We'll also examine support strategies to increase student autonomy through monitoring, conferencing, and goal setting, as well as how student autonomy ties into engagement and achievement.

**Student Engagement**

Identify motivators that support student engagement

Access and analyze data to manage student performance

**Goal Setting**

Develop systems to facilitate student-led goal setting

Establish expectations for student pacing

Apply best practices to guide student achievement through confident conferencing

Adjourn 4:30pm
