

72%

of teachers evaluated using the AISD pilot appraisal rubric earned the highest possible score for positive rapport with students and encouraging positive peer interactions.

19%

of teachers evaluated using the AISD pilot appraisal rubric earned the highest possible score for students' exhibiting higher-level thinking through their communicating with each other.

83%

of AISD teachers agree that professional development is connected with teacher performance standards (i.e., their appraisal).

This report summarizes the 2013 – 2014 AISD teacher appraisal results and highlights the areas of particular need for additional professional development. In addition, teacher responses to select survey items on the 2014 – 2015 TELL AISD Teaching and Learning Conditions Survey (TELL AISD) are included.

Teacher Appraisal Results

In 2013–2014 teachers in AISD were appraised using one of two systems: the Texas Professional Development Appraisal System (PDAS) or the AISD Pilot Appraisal System.¹ Overall, teachers received high ratings of proficiency across evaluation components in both systems. Teachers who were rated using PDAS generally received higher scores than did teachers in the pilot appraisal.

The measure used to determine “areas of need” was the *percentage of teachers who earned the highest possible score on a the component*. Cut scores used for determining areas of need were derived from the distribution of scores observed for the two systems. For the pilot appraisal, a component was flagged as an area of need when 40% or fewer teachers earned the highest possible score on the component; for PDAS, components for which 55% or fewer earned the highest possible score were considered areas of need. (Table 1).

Table 1. Number of Teachers Rated by Appraisal Type, and Percent of Teachers Who Earned the Highest Possible Score within an Appraisal Strand

	#Teachers appraised	% of teachers who earned the highest possible score			Area of need
		Lowest	Highest	Avg	
Pilot Appraisal	440	19%	72%	47%	40%
PDAS	4,540	37%	80%	59%	55%

Appraisal results are displayed in the charts and tables that follow. For each appraisal component, the bar displayed represents the *percentage of teachers who earned the highest score on the rubric* for that component. Pink bars indicate areas of need. Please note: PDAS is expected to be replaced in the immediate future, therefore, results are presented in terms of the new AISD appraisal and results for PDAS are shown only for components identified as areas of need.

Instructional Practices

Figure 1 displays the results for the instructional practice components of both the pilot appraisal rubric and corresponding elements of PDAS for which fewer than 55% earned the highest rating.

The greatest needs were observed in the domains of classroom expectations and critical thinking/problem solving. The domain with the fewest areas of need identified was classroom climate. Disaggregated results by school level, teacher type, and years of experience are provided in Appendix A.

Figure 1. Percentage of Teachers Rated Who Earned the Highest Rubric Rating, by Appraisal Strand

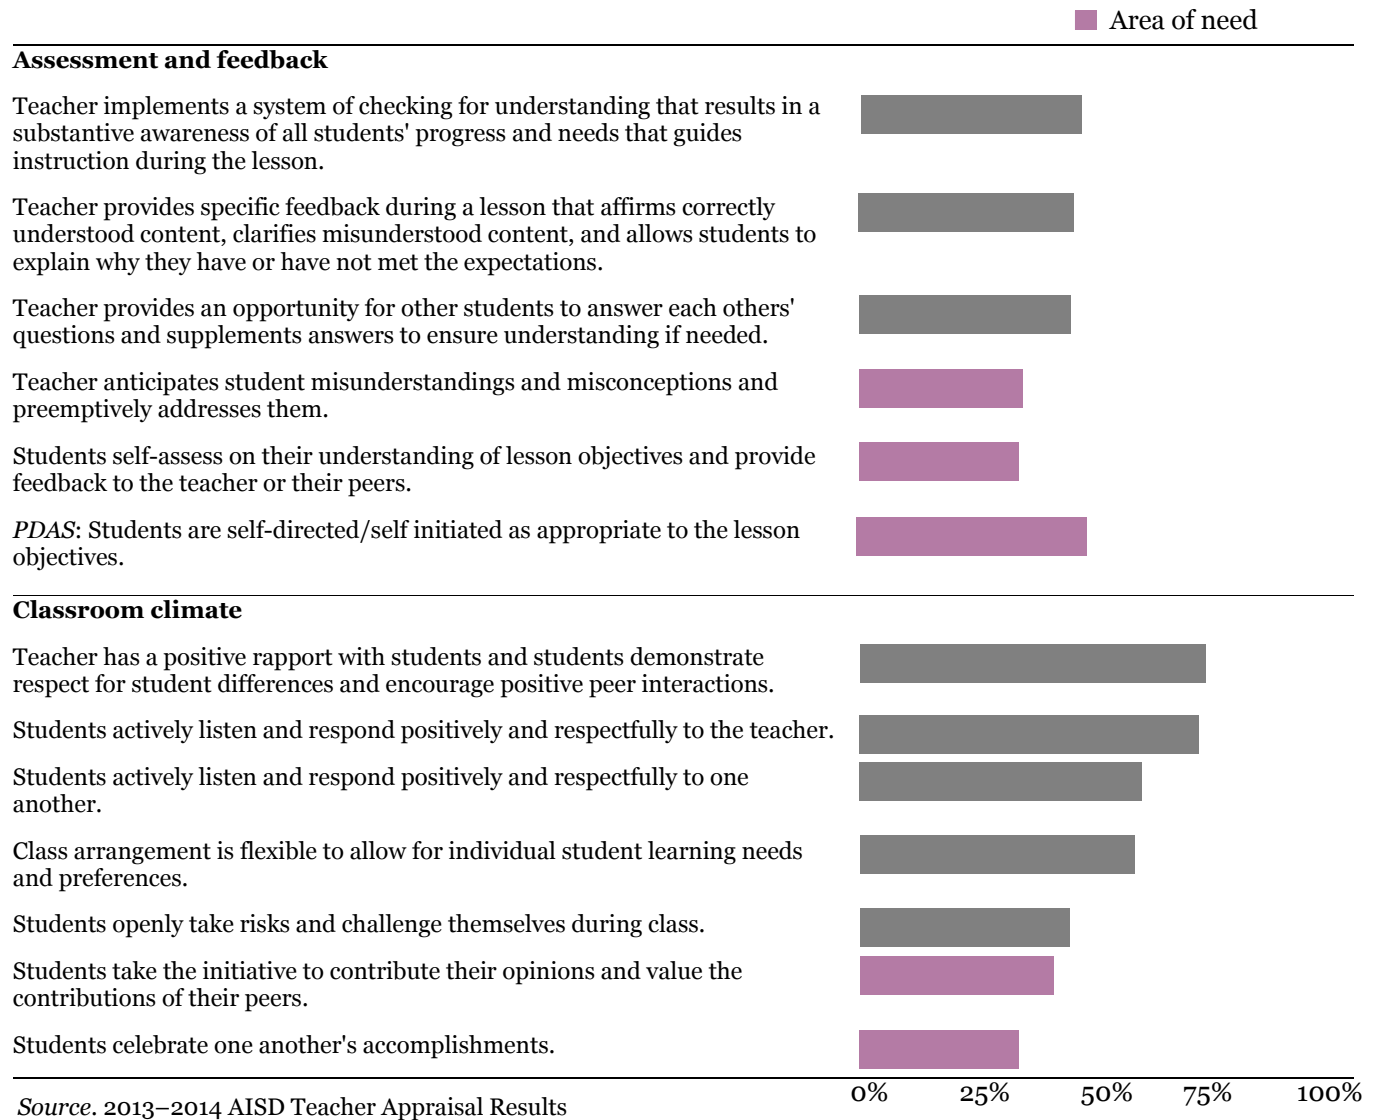

Figure I. Percentage of Teachers Rated Who Earned the Highest Rubric Rating, by Appraisal Strand (continued)

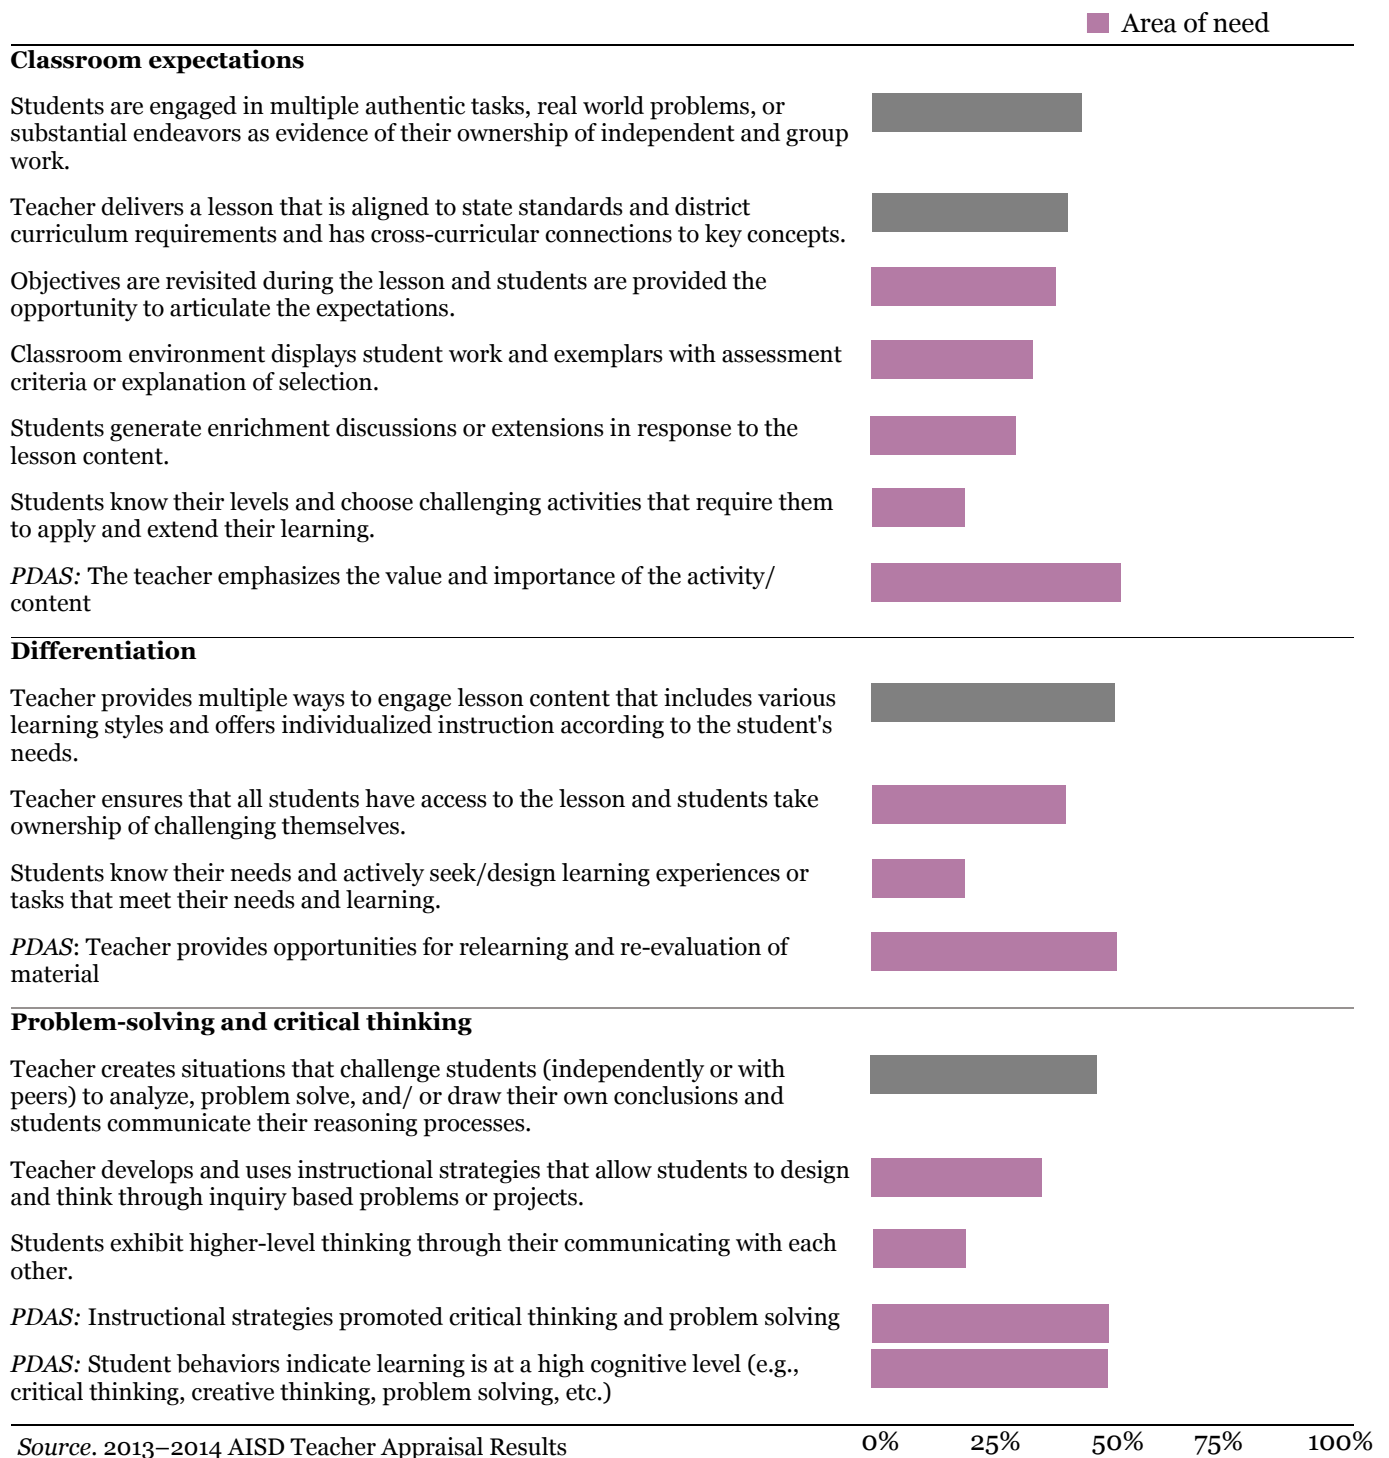

Figure I. Percentage of Teachers Rated Who Earned the Highest Rubric Rating, by Appraisal Strand (continued)

Professional Expectations

Figure 2 displays the results for the professional expectations components of both the pilot appraisal rubric and corresponding elements of PDAS for which fewer than 55% earned the highest rating. The individual sub-stands of the pilot appraisal were not scored separately, so only global ratings for each strand are available.

Teacher performance on all of the pilot appraisal professional expectations domains exceeded the cut point, therefore no domains are indicated as areas of need. However, several PDAS components were identified as areas of need. Of particular interest is the area of relational communication; three relational communication PDAS evaluation strands met the criteria for areas of need.

Figure 2. Percentage of Teachers Rated Who Earned the Highest Rubric Rating, by Appraisal Strand

Teacher Perceptions of Professional Development in AISD

In January 2015, AISD teachers were asked to respond to twenty-two professional development survey items during the TELL AISD survey administration. The items included some that always have been part of TELL AISD and some that were developed specifically to inform the needs assessment. (Tables 2 and 3). Results were generally very favorable and teachers were satisfied with the quality and type of professional development offered. The results however do suggest a need for both greater differentiation in professional development to meet the needs of teachers, and for communicating the results of professional development evaluation to teachers.

Table 2. Results for 2014 — 2015 TELL AISD Teaching and Learning Survey Professional Development Items

	% of teachers who agree/strongly agree			
	Elementary (n = 3,084)	Middle (n = 1,028)	High (n = 1,248)	Other (n = 69)
An appropriate amount of time is provided for professional development.	84%	82%	84%	87%
Follow up is provided from professional development in this school.	81%	74%	75%	86%
Professional development deepens teachers' content knowledge.	87%	70%	67%	88%
Professional development enhances teachers' abilities to implement instructional strategies that meet diverse student learning needs.	90%	82%	85%	87%
Professional development enhances teachers' abilities to improve student learning.	93%	83%	87%	88%
Professional development is differentiated to meet the needs of individual teachers.	77%	65%	66%	83%
Professional development is evaluated and results are communicated to teachers.	75%	67%	67%	72%
Professional development offerings are data driven.	90%	84%	88%	86%
Professional development provides ongoing opportunities for teachers to work with colleagues to refine teaching practices.	86%	77%	83%	85%
Professional learning opportunities are aligned with the school's improvement plan.	94%	90%	93%	95%
Sufficient resources are available for professional development in my school.	87%	83%	86%	86%
Teachers are encouraged to reflect on their own practice.	93%	89%	91%	82%

	teachers	ES	MS	HS	Core	Fine arts	Other elect	PE	SpEd	Bil/ESL	Pre-K	1st year	2-5	6-10	11+
Assessment and feedback															
Teacher implements a system of checking for understanding that results in a substantive awareness of all students' progress and needs that guides instruction during the lesson.		•		•			•					•			
Teacher provides specific feedback during a lesson that affirms correctly understood content, clarifies misunderstood content, and allows students to explain why they have or have not met the expectations.				•			•			•		•			
Teacher provides an opportunity for other students to answer each others' questions and supplements answers to ensure understanding if needed.				•		•		•	•			•	•		
Teacher anticipates student misunderstandings and misconceptions and preemptively addresses them.	•	•		•	•		•	•	•	•	•	•	•	•	•
Students self-assess on their understanding of lesson objectives and provide feedback to the teacher or their peers.	•	•		•	•		•	•	•	•	•	•	•	•	•
PDAS: Students are self-directed/self initiated as appropriate to the lesson objectives	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•

Source. 2013–2014 Teacher Appraisal Data. Note. Dots indicate fewer than 40% of teachers (55% for PDAS) earned the highest possible score.

Table A.2. Instructional Practice Areas of Need, by School Level, Teacher Type, and Years of Teaching Experience (continued)

	All teachers	Level			Teacher type							Years of teaching			
		ES	MS	HS	Core	Fine arts	Other elect	PE	SpEd	Bil/ESL	Pre-K	1st year	2-5	6-10	11+
Classroom climate															
Teacher has a positive rapport with students and students demonstrate respect for student differences and encourage positive peer interactions.												•			
Students actively listen and respond positively and respectfully to the teacher.												•			
Students actively listen and respond positively and respectfully to one another.											•	•			
Class arrangement is flexible to allow for individual student learning needs and preferences.				•							•	•			
Students openly take risks and challenge themselves during class.				•								•			
Students take the initiative to contribute their opinions and value the contributions of their peers.	•			•								•		•	
Students celebrate one another's accomplishments.	•	•	•	•	•	•	•					•	•	•	•
Classroom expectations															
Students are engaged in multiple authentic tasks, real world problems, or substantial endeavors as evidence of their ownership of independent and group work.				•								•			
Teacher delivers a lesson that is aligned to state standards and district curriculum requirements and has cross-curricular connections to key concepts.				•								•	•		
Objectives are revisited during the lesson and students are provided the opportunity to articulate the expectations.	•		•	•	•	•	•					•	•	•	
Classroom environment displays student work and exemplars with assessment criteria or explanation of selection.	•	•	•	•	•	•	•	•	•			•	•		•
Students generate enrichment discussions or extensions in response to the lesson content.	•	•	•	•	•	•	•	•	•			•	•	•	•
Students know their levels and choose challenging activities that require them to apply and extend their learning.	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•
PDAS: The teacher emphasizes the value and importance of the activity/content	•	•	•	•	•	•	•			•	•	•	•		

Source. 2013–2014 Teacher Appraisal Data. Note. Dots indicate fewer than 40% of teachers (55% for PDAS) earned the highest possible score.

Table A.2. Instructional Practice Areas of Need, by School Level, Teacher Type, and Years of Teaching Experience (continued)

	All teachers	Level			Teacher type							Years of teaching			
		ES	MS	HS	Core	Fine arts	Other elect	PE	SpEd	Bil/ESL	Pre-K	1st year	2-5	6-10	11+
Differentiation															
Teacher provides multiple ways to engage lesson content that includes various learning styles and offers individualized instruction according to the student's needs.										●		●			
Teacher ensures that all students have access to the lesson and students take ownership of challenging themselves.	●			●	●				●			●		●	
Students know their needs and actively seek/design learning experiences or tasks that meet their needs and learning.	●	●	●	●	●	●	●	●	●		●	●	●	●	●
<i>PDAS</i> : Teacher provides opportunities for relearning and re-evaluation of material	●	●	●	●	●		●	●		●	●	●	●	●	
Problem-solving and critical thinking															
Teacher creates situations that challenge students (independently or with peers) to analyze, problem solve, and/ or draw their own conclusions and students communicate their reasoning processes.								●				●			
Teacher develops and uses instructional strategies that allow students to design and think through inquiry based problems or projects.	●			●	●		●	●	●			●	●	●	●
Students exhibit higher-level thinking through their communicating with each other.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●
<i>PDAS</i> : Instructional strategies promoted critical thinking and problem solving	●	●	●	●	●	●	●	●	●	●	●	●	●	●	
<i>PDAS</i> : Student behaviors indicate learning is at a high cognitive level (e.g., critical thinking, creative thinking, problem solving, etc.)	●	●	●	●	●	●	●	●	●	●	●	●	●	●	
Routines and procedures															
Consequences are rarely required.												●			
Teacher effectively designs and implements consistent classroom routines and procedures where students assume responsibility and carry them out in an efficient manner with little or no direction from the teacher.												●			
Students demonstrate exemplary behavioral expectations through their actions and require little redirection from the teacher.												●			

Source. 2013–2014 Teacher Appraisal Data. Note. Dots indicate fewer than 40% of teachers (55% for PDAS) earned the highest possible score.

Table A.2. Instructional Practice Areas of Need, by School Level, Teacher Type, and Years of Teaching Experience (continued)

	All teachers	Level			Teacher type							Years of teaching			
		ES	MS	HS	Core	Fine arts	Other elect	PE	SpEd	Bil/ESL	Pre-K	1st year	2-5	6-10	11+
Routines and procedures (cont.)															
Off-task or inappropriate behavior rarely occurs, so there is no interference with student learning.		•				•					•	•			
Students hold each other accountable for appropriate behavior and encourage positive behavior.	•			•	•	•			•			•	•		
Teacher effectively designs a physically safe environment for activities and transitions and students assume responsibility for the routines with little or no direction.					*Not scored in 2013-2014										
<i>PDAS</i> : The teacher establishes a classroom environment which promotes and encourages self-discipline and self-directed learning as appropriate	•		•	•	•	•	•		•	•	•	•	•		
Student engagement															
Teacher clearly explains concepts in a way that actively involves students in the learning process.															
Students are actively engaged during direct instruction as indicated by completion of instructional activities, responsiveness to questions, accurate following of teacher directions, asking of appropriate questions, and communicating lesson content to each other.									•			•			
The lesson moves at an appropriate pace such that students are rarely disengaged, and/or students who finish assigned work early have something else meaningful to do that relates to the objective.									•			•			
Students display active engagement in independent and group work as indicated by participation of all group members working cooperatively and/or independent work goes beyond the lesson expectations.				•					•			•	•	•	
Students assume responsibility for utilizing instructional time.	•			•					•			•	•		
Students take a leadership role during the lesson and require little guidance from the teacher when appropriate.	•	•		•	•			•	•	•	•	•	•	•	•
Students take a leadership role during the lesson and require little guidance from the teacher when appropriate.	•	•		•	•			•	•	•	•	•	•	•	•
<i>PDAS</i> : Students are self-directed/self initiated as appropriate to the lesson objectives	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•
