

## 2010-2011 AISD Parent Survey Baranoff Elementary School

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and how parents describe their involvement in their child's education. The following report contains the results of the 2010-2011 Parent Survey for Austin Independent School District (AISD); longitudinal data are provided where applicable.

#### New Federal Standards for Collecting and Reporting Ethnicity and Race

Starting in 2010-2011, districts were required to report race and ethnicity using revised standards. The new standards require a person to first select his/her ethnicity (Hispanic/Latino or non-Hispanic/Latino) and one or more of five race values. Since more than one race value may be chosen, percentages might not add to 100.

Note. Students' grade and ethnicity were self-reported. Population data reflect enrollment as of the October 2010 PEIMS snapshot date.

A summary of Baranoff Elementary School survey results for the 2010-2011 school year is presented in figure 1. Scores over 3.0 are desirable, as indicated by the green line. Also, please note the green and red boxes that highlight the specific area in which Baranoff most excels, as well as the area in which Baranoff can improve most.

Figure 1. Parent Survey subscales for Baranoff Elementary School and all AISD Elementary Schools, 2010-2011

Baranoff's highest score on the 2010-2011 Parent Survey was Student Expectations and Progress which measures the adequacy of communication parents of AISD students have regarding staff expectations for their child and their child's academic progress. We congratulate you on your efforts to promote open communication with parents regarding their child's learning, behavior, and academic progress.

Baranoff's lowest score on the 2010-2011 Parent Survey was Respectful School Community. This subscale measures the extent to which parents perceive that staff provide a welcoming, respectful environment for students and their families. We encourage your campus to consider ways to make parents feel more comfortable at your school.

Note. In addition to the subscales reflected in figure 1, parents responded to items regarding the Superintendent and Central Office Staff. For more information, see page 8.
