

2010-2011 AISD Student Climate Survey Barton Hills Elementary School

Research indicates that school climate can either be a positive influence on students' learning environment, or can serve as a significant barrier to students' learning. Indeed, elementary school teachers in Austin Independent School District (AISD) whose students provided positive ratings of behavioral environment, teacher support, adult fairness and respect, and academic self-confidence had students who made greater growth on TAKS in 2009-2010 than did their peers whose students rated school climate less favorably.*

The following tables show the total number of surveys students at Barton Hills returned in 2010-2011 (Table 1) and the response rate by grade for students at Barton Hills (Table 2).

Table 1. Number of Respondents for:		
	Barton Hills	All Elementary Schools
# of surveys returned	205	17,641
# of students	214	20,160
% of students represented	96%	88%

Table 2. Response Rate by Grade for Barton Hills, 2010-2011			
grade	# of students	# of responses	response rate
3rd grade	57	55	96%
4th grade	51	46	90%
5th grade	73	75	103%
6th grade	33	29	14%

Note. Students' grade level was self-reported. Population data reflect enrollment as of the PEIMS snapshot date in October 2010.

Figure 1 depicts Barton Hills's average student climate survey ratings for 2010-2011, compared with average ratings across all Elementary Schools in 2010-2011. Scores over 3.0 are desirable, as indicated by the green line. Please note the green and red text boxes that highlight the specific area in which Barton Hills most excels, as well as the area in which Barton Hills can improve most.

Figure 1. Student Climate Survey Subscales for Barton Hills and all Elementary Schools, 2010-2011

Barton Hills's highest score on the 2010-2011 Student Climate Survey was for adult fairness and respect, which assesses the way teachers and other adults at your campus treat students. Research suggests that high levels of adult fairness and respect contribute to academic achievement. We encourage you to consider the ways your campus supports a respectful environment and share your best practices with others.

Barton Hills's lowest score on the 2010-2011 Student Climate Survey was for student engagement. This subscale measures the extent to which students enjoy their schoolwork and learning. We encourage your campus to improve the ways in which teachers provide instruction that is relevant and engaging for students.

The following pages contain more detailed information regarding Barton Hills's student climate results from 2008-2009 to 2010-2011. Please review the individual items on each subscale with particular attention to how Barton Hills's average ratings have changed or remained consistent over time. Please note that some subscales have changed from previous years, making longitudinal comparisons inappropriate for some items and subscales. For items and subscales where longitudinal data are available, statistically meaningful changes are flagged with up or down arrows. Please share the results of this report with all campus staff and your Campus Advisory Council to inform campus improvement planning.

Behavioral environment	Barton Hills			All Elementary Schools, 2010-2011
	2008-2009	2009-2010	2010-2011	
1. My classmates show respect to each other.	3.1	3.1	3.1	3.0
2. My classmates show respect to other students who are different.	3.4	3.3	3.4	3.1
3. I am happy with the way my classmates treat me.	3.4	3.3	3.3	3.2
13. Students at my school follow the school rules.	3.0	3.1	3.0↓	2.9
14. I feel safe at my school.	3.7	3.8	3.8	3.6
15. I feel safe on the school property.	3.7	3.8	3.8	3.6
29. My classmates behave the way my teachers want them to.	n/a	n/a	2.9	2.8
30. Our classes stay busy and do not waste time.	n/a	n/a	3.2	3.1
Behavioral environment average	n/a	n/a	3.3	3.1

Note. Response options ranged from 1 = *never* to 4 = *always*. It is desirable to have a response of at least 3.0. Subscale comparisons across years are no longer available due to the addition of items 29 and 30, which are from the *Control* subscale of the Tripod survey. The Tripod survey was developed by Ron Ferguson and has been administered to schools across the country over the last decade. The Tripod survey was used in the Gates Foundation's Measures of Effective Teaching (MET) Project. The survey is designed to assess the degree to which students agree with a variety of statements designed to measure the following dimensions: caring, captivating, conferring, controlling, clarifying, challenging, and consolodating. For more information, please visit: <http://www.metproject.org/partners#cambridge>. Response options for the Tripod items were changed to reflect the 1 = *never* to 4 = *always* scale.

Adult fairness and respect	Barton Hills			All Elementary Schools, 2010-2011
	2008-2009	2009-2010	2010-2011	
4. Teachers at this school care about their students.	3.9	3.9	3.8	3.9
