

# 2010-2011 AISD Parent Survey **Clifton High School**

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and how parents describe their involvement in their child's education. The following report contains the results of the 2010-2011 Parent Survey for Austin Independent School District (AISD); longitudinal data are provided where applicable.

#### **Clifton High School Demographic Information**

Table 1. Number of r	espondent	s for Clifton
	Clifton	All High Schools
# of surveys returned	27	2,929
# of students	111	20,917
% of students represented	24%	14%

or students	111	20,917		
of students represented	24%	14%		
Table 3. Distribution of respondents and students by				

ethnicity and race for Clifton, 2010-2011

	% of respondents	% school population
Hispanic/Latino	44	n/a
American Indian/ Alaskan Native	7	n/a
Asian	4	n/a
Black/African American	15	n/a
Native Hawaiian/ Other Pacific Islander	0	n/a
White	41	n/a

Table 2. Distribution of respondents relative to Clifton's population, 2010-2011					
Grade	% of respondents	% school population			
9th	8	n/a			
10th	8	n/a			
11th	32	n/a			
12th	52	n/a			

## **New Federal Standards for Collecting and Reporting Ethnicity and Race**

Starting in 2010-2011, districts were required to report race and ethnicity using revised standards. The new standards require a person to first select his/her ethnicity (Hispanic/Latino or non-Hispanic/Latino) and one or more of five race values. Since more than one race value may be chosen, percentages might not add to 100.

Note. Students' grade and ethnicity were self-reported. Population data reflect enrollment as of the October 2010 PEIMS snapshot date.

A summary of Clifton High School survey results for the 2010-2011 school year is presented in figure 1. Scores over 3.0 are desirable, as indicated by the green line. Also, please note the green and red boxes that highlight the specific area in which Clifton most excels, as well as the area in which Clifton can improve most.

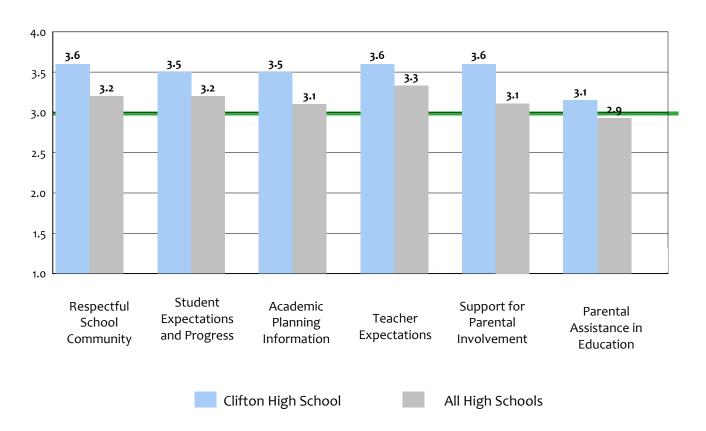

Figure 1. Parent Survey subscales for Clifton High School and all AISD High Schools, 2010-2011

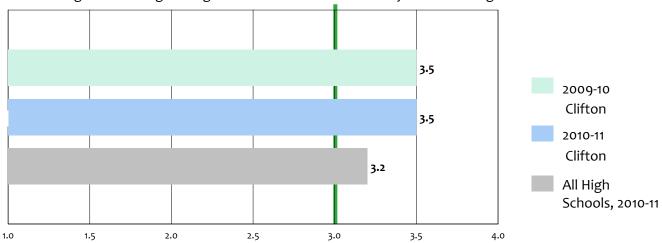

Clifton's highest score on the 2010-2011 Parent Survey was Respectful School Community, which refers to the extent to which parents perceive that staff provide a welcoming, respectful environment for students and their families. We encourage you to continue fostering this kind of environment on your campus and to share the best practices that lead to a respectful school community.

Clifton's lowest score on the 2010-2011 Parent Survey was Parental Assistance,
Communication, and School Involvement. This subscale asks parents to report the frequency with which they participated in a variety of school-related activities, both at home and at their child's school. We encourage your campus to consider ways to work with parents to promote their involvement in their child's education.

Note. In addition to the subscales reflected in Figure 1, parents responded to items regarding the Superintendent and Central Office Staff. For more information, see page 8.

## **Item Results**

Figure 2. Average rating for the item: "I believe that my child likes to go to school."
