

## 2010-2011 AISD Parent Survey Eastside - Green High School

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and how parents describe their involvement in their child's education. The following report contains the results of the 2010-2011 Parent Survey for Austin Independent School District (AISD); longitudinal data are provided where applicable.

### Eastside - Green High School Demographic Information

#### New Federal Standards for Collecting and Reporting Ethnicity and Race

Starting in 2010-2011, districts were required to report race and ethnicity using revised standards. The new standards require a person to first select his/her ethnicity (Hispanic/Latino or non-Hispanic/Latino) and one or more of five race values. Since more than one race value may be chosen, percentages might not add to 100.

Note. Students' grade and ethnicity were self-reported. Population data reflect enrollment as of the October 2010 PEIMS snapshot date.

A summary of Eastside - Green High School survey results for the 2010-2011 school year is presented in figure 1. Scores over 3.0 are desirable, as indicated by the green line. Also, please note the green and red boxes that highlight the specific area in which Eastside - Green most excels, as well as the area in which Eastside - Green can improve most.

Figure 1. Parent Survey subscales for Eastside - Green High School and all AISD High Schools, 2010-2011

Eastside - Green's highest score on the 2010-2011 Parent Survey was Student Expectations and Progress which measures the adequacy of communication parents of AISD students have regarding staff expectations for their child and their child's academic progress. We congratulate you on your efforts to promote open communication with parents regarding their child's learning, behavior, and academic progress.

Eastside - Green's lowest score on the 2010-2011 Parent Survey was Parental Assistance, Communication, and School Involvement. This subscale asks parents to report the frequency with which they participated in a variety of school-related activities, both at home and at their child's school. We encourage your campus to consider ways to work with parents to promote their involvement in their child's education.

Note. In addition to the subscales reflected in Figure 1, parents responded to items regarding the Superintendent and Central Office Staff. For more information, see page 8.
