

GARZA HIGH SCHOOL

Description of Survey

Every year, the self-reported Student Substance Use and Safety Survey (SSUSS) is administered to a random, representative sample of AISD students. The survey is used to track students' knowledge, attitudes, and self-reported behavior over time. In the spring of 2014, a sample of 9,819 students in grades 6 through 12 submitted valid responses to the district's annual survey of substance use and safety issues, yielding a response rate of 76%.¹ All item results are attached.

How should sample data be interpreted?

When it is not feasible to survey an entire population, samples are used instead. However, when a sample is used to make inferences about a population the results must be interpreted with caution. For example, although 87% of a sample may select a particular survey response, this does not necessarily mean 87% of the entire population feels the same way. To interpret the sample data cautiously, we used the following information to construct an interval that describes the range within which the result for your campus population is likely to fall:

- Population size: in this case, the number of students at your campus
- Sample size: in this case, the number of survey respondents from your campus
- Desired level of confidence: in this case, 95%

The 95% confidence interval is commonly used, indicating that you can be 95% confident that the true population result will fall within the constructed interval.

How should Confidence Intervals be used to interpret your campus data?

Based on the Garza High School sample of 102 students and population enrollment of 356, the confidence interval for Garza is + and - 8 percentage points.

The interval for all high schools is + and -1 percentage point.

To make inferences about your campus population using the sample data, the results should be interpreted with the computed confidence interval of 8 percentage points on each side of the sample statistics. For example, in 2014, 14% of respondents from your campus indicated that their friends belonged to gangs (see Q16, p.10). Applying the confidence interval (i.e., adding and subtracting 8 percentage points) to the 14% yields a range of 6% to 22%. Therefore, you can be 95% confident that somewhere between 6% and 22% of all students at your campus would indicate that their friends belong to a gang. When making comparisons between item results from year to year, please remember that small changes may have occurred by chance alone. The confidence interval for 2013 was 7 percentage points. Therefore, only differences of 15 percentage points (8%+ 7%) or greater should be considered statistically significant when comparing the results from two different years. In addition, differences of 9 (8% + 1%) percentage points or greater should be considered statistically significant when comparing the results between the campus and all high schools.

¹ A total of 10,271 surveys were returned to the Department of Research and Evaluation from an original sample of 12,922 students. Of those returned, 452 surveys were removed from analysis due to invalid responses. Since students did not necessarily respond to all questions on the survey, individual survey items have different response rates.

Note: Numbers may not sum to the total because some students skipped the demographic questions.

Q22: Do one or both of your parents usually attend school sponsored open houses, PTA meetings or other school events?

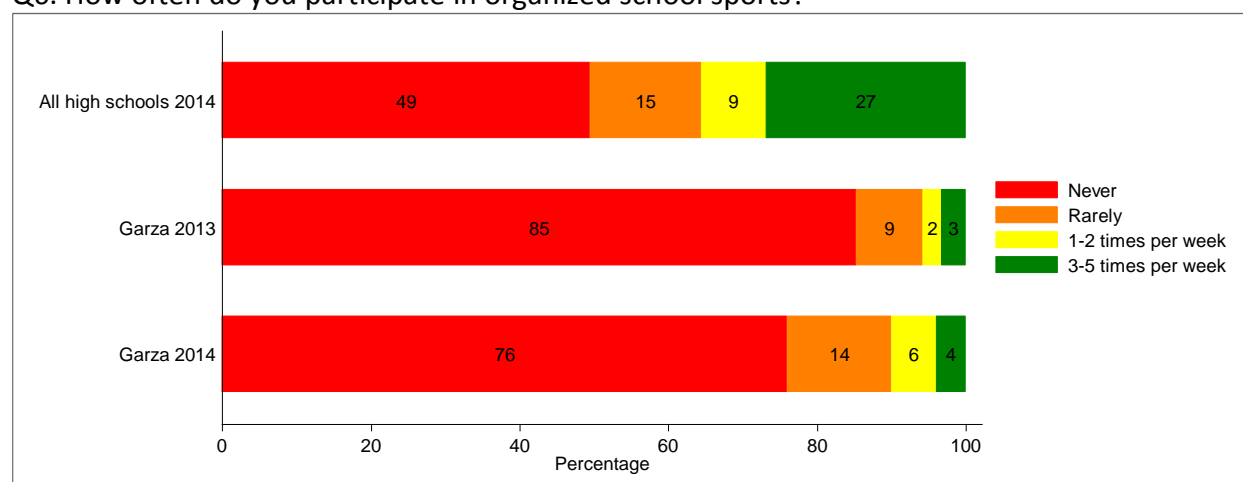

Q4. How often do you participate in after school programs to help you with your school work (e.g., tutoring, homework, etc.) ?

Q5. How often do you participate in other after school programs (e.g. clubs, art, technology, leadership, dance, etc.) ?

Q6. How often do you participate in organized school sports?

Q23: During this school year, have you brought any of the following items to school?

	Garza 2013–2014	Percentage point change from 2012–2013*	All high schools 2013–2014
Tobacco	33%	-1	6%
Illegal drugs	18%	4	8%
Prescription drugs	16%	5	6%
Alcohol	13%	7	5%
Knives	11%	1	7%
Other weapons	5%	1	4%
Gun	2%	2	2%
None of the above	57%	-4	84%

*Negative percentage point changes indicate fewer students reported bringing those items to school in 2013–2014 than in 2012–2013.

Q26: Of the following, which do you consider to be the most serious problem on your campus?

	Garza 2013–2013	Percentage point change from 2012–2013*	All high schools 2013–2014
Tobacco use	21%	5	3%
Prescription drug use	7%	0	4%
Marijuana use	4%	-3	33%
Student harassment, threats, and intimidation	1%	0	8%
Student fighting and physical aggression	0%	0	7%
Alcohol use	0%	-1	5%
Student vandalism, criminal mischief	0%	-4	1%
Student weapon possession	0%	0	3%
Violence or threats toward staff	0%	0	1%
None of these are serious problems on my campus	67%	3	33%

Note. Percentages may sum to more than 100% because respondents were allowed to choose multiple items.

* Negative percentage point changes indicate fewer students reported those items as the most serious problem on their campus in 2013–2014 than in 2012–2013.

Q7. During this school year, have you received any information on drugs, alcohol, or violence from any of the following school sources?

	Garza 2013–2014	Percentage point change from 2012–2013*	All high schools 2013–2014
Advisory/seminar class	65%	8	39%
Special school event about tobacco, drugs, alcohol, or violence	58%	47	39%

Afterschool program	10%	6	14%
Other school source not mentioned above	12%	-9	36%
None of the above	13%	-7	17%

Note. Percentages may sum to more than 100% because respondents were allowed to choose multiple items.

* Positive percentage point changes indicate more students reported having received information on drugs, alcohol, or violence from school sources in 2013–2014 than in 2012–2013.

SCHOOL SAFETY ITEMS

Q15a: How often does racial tension occur at your school?

Q15b: How often does student bullying occur at your school?

Q15c: How often do acts of disrespect for teachers occur at your school?

Q15d: How often do gang activities occur at your school?

Q15e: How often have you experienced any type of bullying at your school?

Q15f: How often does your teacher have to interrupt class to deal with student misbehavior?

Q15g: Do teachers or staff give you praise or rewards for good behavior?

Q8: How safe do you feel when you are at school?

Q9: During the last month, did you miss one or more school days due to any of the following reasons?

	Garza 2013–2014	Percentage point change from 2012–2013*	All high schools 2013–2014
