

Introduction to Results for the Class of 2014

The purpose of this survey was to monitor high school students' perceptions of their high school experience. Results are used to improve the campus environment and program supports for students. Survey results also are used in the monitoring of the district's strategic plan *Goal 3: All students will graduate ready for college, career, and life in a globally competitive economy*. The report is organized into the following categories: postsecondary aspirations, parental engagement, and support; persistence and motivation; extracurricular activities; work and study time; instructional quality; technology access and use; postsecondary preparation and advising; applications to postsecondary institutions; postsecondary financial literacy; acronym key; and references.

Postsecondary Aspirations, Parental Engagement, & Support

Table 1. By this time next year, what do you plan to be doing? (Select all that apply.)

Postsecondary plans	Lanier 2013	Lanier 2014	District 2014
Continue my education	86.1%	91.2%	94.7%
Attend college or technical school without working	.	12.4%	22.5%
Attend college or technical school while working full time	.	24.0%	12.5%
Attend college or technical school while working part time	.	52.5%	59.7%
Work full time only	.	10.1%	6.1%
Work part time only	.	6.9%	2.8%
Enlist in the military	6.9%	4.6%	3.4%
No plans/ not sure yet	6.2%	5.1%	4.7%
Other	3.1%	4.2%	2.8%

Note. Response options changed in 2014.

Approximately 53% of Lanier seniors who indicated they will continue their education after high school planned to work part time while attending college.

About this survey. The 12th annual Austin Independent School District (AISD) High School Exit Survey was administered online to seniors in every AISD high school during Spring 2014. On each campus, Project ADVANCE facilitators primarily were responsible for ensuring all seniors were given the opportunity to complete the survey. Special education chairs at each campus may have provided eligible special education students with guidance and assistance in completing the survey.

This report contains the results for Lanier Class of 2014. Where available, data are presented from previous senior classes to compare with previous years' responses. This year, 217 Lanier students in the Class of 2014 completed the survey, for an overall response rate of 79.5%.

The overall response rate for the District was 92% (N = 3874). The district-level [Class of 2014 High School Exit Survey Report](#) is available online.

Table 2. When do you plan to start going to college, university, or career/trade school?

	Lanier 2013	Lanier 2014	District 2014
This summer	10.0%	15.5%	7.5%
This fall	77.4%	69.5%	84.8%
Next spring	12.7%	14.9%	8.7%

Approximately 70% of Lanier seniors indicated they planned to enroll in a postsecondary institution in Fall 2014. Nearly 36% planned to attend a 4-year college or university and roughly 44% planned to attend a 2-year community college and then transfer to a 4-year college.

Table 3. What type of institution do you plan to attend after high school?

	Lanier 2014	District 2014
A 4-year college or university	35.6%	58.2%
A 2-year college or university	25.0%	12.7%
A 2-year community college and then transfer to a 4-year college	43.9%	32.1%
A private career or trade school	5.6%	2.5%

About 65% of Lanier seniors planned to attend Austin Community College. About 14% planned to attend other postsecondary institutions. Almost 11% indicated plans to attend Texas State University after high school.

Table 4. Which college, university, or career/trade school do you plan to attend in the fall?

	Lanier 2013	Lanier 2014	District 2014
Austin Community College (ACC)	68.5%	65.0%	34.8%
Texas State University	13.5%	10.8%	12.0%
University of Texas-Austin	11.3%	7.5%	8.7%
University of Texas-San Antonio	5.9%	8.3%	4.2%
Texas A&M University	6.3%	5.0%	5.9%
St. Edward's University	1.8%	0.8%	2.2%
Blinn College	2.3%	0.0%	2.4%
University of North Texas	0.9%	0.0%	2.6%
Texas Tech University	1.8%	3.3%	2.9%
Stephen F. Austin University	1.4%	0.8%	1.2%
Other	22.5%	14.2%	31.0%

According to the [Austin Chamber of Commerce July 2014 MSA Job Market Report](#), 18% of the available job openings were in computer and mathematical occupations. Specifically, almost 50% of the top 10 available job openings in our MSA were software developers-applications, web developers, network and computer systems administrators, computer systems analysts, and computer user support specialists. Roughly 9% of Lanier seniors indicated they were interested in studying computer and information sciences.

Registered nurses jobs also were among the largest available job openings in the region and were difficult to fill. Approximately 18% of Lanier seniors were interested in health sciences.

Table 5. Select the one area that best fits what you plan to study.

	Lanier 2014	District 2014
Health sciences	18.3%	18.1%
Engineering	15.6%	11.7%
Business	10.6%	14.1%
Computer and information sciences	8.9%	5.1%
Law, public safety, corrections, and security	7.8%	5.3%
Agricultural sciences and technologies	6.7%	2.8%
I do not know	6.7%	7.9%
Education	6.1%	4.2%
Trade and industrial	5.6%	1.5%
Visual and performing arts	5.0%	7.4%
Communication	2.2%	4.2%
Human services	2.2%	3.2%
Hospitality and tourism	1.1%	1.6%
Social sciences	1.1%	3.3%
Architecture	0.6%	1.6%
Humanities	0.6%	1.9%
Natural sciences and mathematics	0.6%	6.1%
Office skills	0.6%	0.2%

Note. The percentages in the first column are presented in descending order.

Table 6. If you are not planning to pursue further education, what are your primary reasons? (Select all that apply.)

Reason	Lanier 2014	District 2014
Financial (e.g., can't afford to attend school, need income from working, etc.)	20.0%	17.4%
Academic (e.g., grades/test scores aren't high enough, don't feel academically prepared for college, etc.)	8.6%	8.4%
Personal obligation (e.g., child care or family responsibilities)	5.7%	7.1%
Personal preference (e.g., don't like school, career goals do not require college, etc.)	25.7%	23.2%
Gap year (e.g., want to take some time off from school to do other things, but plan to enroll in college after a year)	31.4%	32.9%
Other (please specify)	5.6%	10.8%

Note. The response options for this question changed in 2014, which precluded comparisons with prior years' results.

Table 7. How far did your **mother** go in school?

School status	Lanier 2013	Lanier 2014	District 2014
Less than high school	56.8%	54.2%	22.8%
High school or earned a GED	18.8%	25.5%	19.6%
Some college	.	6.5%	12.9%
Associate degree (2-year)	3.2%	3.2%	6.12%
Bachelor's degree (4-year)	3.2%	2.8%	20.3%
Master's degree	0.4%	0.5%	8.6%
Professional degree (e.g., MD, JD, etc.)	.	1.4%	3.6%
Doctorate degree (e.g., PhD, EdD, etc.)	.	1.4%	2.3%
Don't know or does not apply	.	4.6%	3.8%

Parental education level influences children's academic achievement, educational aspirations, and success in the workforce (Dubow, Boxer, & Huesmann, 2009; Foundation for Child Development, 2014).

Note. Only mother's educational level is reported. Mothers and fathers tend to have similar educational levels. Therefore, mother's educational attainment may serve as a proxy for parental education (Foundation for Child Development, 2014). Also note, the response options for this question changed in 2014.

Table 8. What is the highest level of education **your parents/guardians expect** you to achieve?

Level of education	Lanier 2013	Lanier 2014	District 2014
High school or earned a GED	15.5%	18.7%	7.6%
Some college	.	7.5%	6.0%
Associate degree (2-year)	12.6%	7.5%	6.4%
Bachelor's degree (4-year)	40.0%	29.0%	37.7%
Master's degree	.	8.4%	15.7%
Professional degree (e.g., MD, JD, etc.)	.	5.1%	6.2%
Doctorate degree (e.g., PhD, EdD, etc.)	.	9.4%	8.0%
I am not sure	12.6%	14.5%	12.4%

On average, expectations for highest level of educational attainment differed depending on Lanier seniors' personal expectations and their perceptions of their parents/guardians' expectations. Roughly 68% of Lanier seniors expected to earn a bachelor's degree or better during their lifetime, while approximately 52% of Lanier seniors indicated their parents expected them to achieve the same level of education.

Table 9. What is the highest degree **you expect** to earn during your lifetime?

Level of education	Lanier 2013	Lanier 2014	District 2014
High school diploma	7.4%	10.3%	3.9%
Industry license or certification (e.g., trade school, technical/community college)	5.0%	7.5%	3.8%
Associate degree	17.1%	14.6%	9.5%
Bachelor's degree (4-year)	51.2%	36.6%	39.3%
Advanced degree (e.g., master's, doctoral, medical, law degree)	19.4%	31.0%	43.5%

According to Perna and Titus (2005), the odds of enrolling in a 2- or 4-year college, relative to not enrolling, increases with the frequency with which parents discussed education-related topics (e.g., grades) with their children. Furthermore, Perna & Titus found the positive relationship between the frequency of parent-initiated contact with the school about academic issues and the odds of enrolling in a 4-year college were particularly important for African American students.

Table 10. During high school, to what extent were your parents involved in the following school-related activities?

Percentage who responded either <i>sometimes</i> or <i>often</i>	Lanier 2013	Lanier 2014	District 2014
Talking to you about homework	62.5%	71.9%	68.1%
Making sure you completed your homework	64.5%	70.7%	64.6%
Asking you about what you're learning in school	61.7%	67.9%	64.6%
Helping you decide what classes to take	50.6%	59.7%	55.3%
Talking to you about how you're doing in your classes	72.3%	83.4%	79.9%
Rewarding you when you do well in school	52.6%	64.7%	57.0%
Communicating with your teachers (e.g., teacher conferences, email, and phone calls)	38.1%	53.7%	46.4%
Attending school meetings	34.4%	40.6%	44.8%
Attending school events (e.g., sports, performances)	41.8%	48.9%	56.2%
Volunteering at your school	17.3%	28.1%	28.3%
Joining and participating in the PTA	11.3%	18.1%	18.5%

Note. Response options were *never*, *rarely*, *sometimes*, and *often*.

Table 11. To what extent did your parents use Parent Connect/Gradespeed to monitor your grades?

Use	Lanier 2013	Lanier 2014	District 2014
Never	34.5%	27.4%	25.5%
Rarely	13.7%	17.2%	15.6%
Sometimes	20.0%	21.9%	23.1%
Often	31.8%	33.5%	35.9%

Note. The question was changed in 2013, which precluded comparisons with prior years' results.

Most Lanier seniors indicated they know at least one teacher who supported them in their high school academics and postsecondary aspirations.

Table 12. Indicate if you know at least one teacher who would do the following:

Teacher help	Lanier 2013	Lanier 2014	District 2014
Would be willing to give you extra help with your school work if you needed it	79.5%	87.8%	90.1%
Would be willing to help you with a personal problem	58.7%	69.5%	74.7%
Cares about how you're doing in school	71.4%	76.5%	81.4%
Would be willing to write you a letter of recommendation for a job or college	64.5%	77.5%	84.7%
Knows what you will be doing next year	51.0%	63.4%	67.5%
Would be willing to help you even after you graduate	50.6%	62.0%	66.3%

Persistence & Motivation

Students' precollege behavior and experiences are important factors in determining their persistence in postsecondary education settings. Motivation to learn, effort, and amount of time students spend studying were found to be key determinants of college attainment and success (Bailey, Jenkins, & Leinbach, 2005). When teachers had high expectations and provide an interesting and engaging learning environment, students' self-esteem, confidence, and academic performance improved (Brophy, 2008; 2010).

Table 13. Seniors were asked to indicate feelings about their persistence, motivation, and interactions with teachers.

Percentage who responded either <i>sometimes</i> or <i>always</i>	Lanier 2013	Lanier 2014	District 2014
I can do even the hardest schoolwork if I try.	93.2%	91.9%	91.8%
I enjoy doing my schoolwork.	72.3%	68.4%	56.3%
I feel/felt well prepared for STAAR/EOC.	.	79.0%	78.8%
I try hard to do my best work.	94.1%	92.4%	91.3%
I feel successful in my schoolwork.	92.1%	92.8%	89.2%
My teachers push us to think hard about the things we read.	87.0%	86.1%	86.1%
My teachers push everyone to work hard.	90.8%	91.0%	88.8%
I can reach the goals I set for myself.	94.4%	96.7%	96.3%
My homework helps me learn things I need to know.	83.5%	83.9%	77.2%
My schoolwork makes me think about things in new ways.	86.3%	78.3%	70.7%
My teachers connect what I am learning to life outside of class.	78.1%	78.8%	68.4%
I have fun learning in my classes.	85.3%	83.3%	75.4%
I like to come to school.	84.4%	77.4%	69.3%

Note. Response options were *never*, *not a lot*, *sometimes*, and *always*. STAAR is State of Texas Assessment of Academic Readiness. EOC is end of course.

Extracurricular Activities

Extracurricular activities provide intellectual and social development opportunities for students. According to a study conducted by Stearns and Glennie (2009), schools that provided more extracurricular activities and had more student participants had better academic outcomes in terms of students performing at grade level and staying in school than did schools that provided fewer such activities. Participation in extracurricular activities was also linked to higher aspirations for college, college attainment and graduation, and better occupational status (Barber, Eccles, & Stone, 2001; Darling, Caldwell, & Smith, 2005).

The extra-curricular activity participated in most by Lanier seniors were sports. Approximately 67% of seniors participated in school-affiliated sports, and about 61% participated in sports outside of school.

Table 14a. Please indicate the number of years of high school in which you participated in each of these **school-affiliated extracurricular activities**.

In school	Did not participate	1-2 years	3-4 years
Music	69.8%	15.6%	14.6%
Theater/drama	70.7%	23.9%	5.4%
Dance	67.5%	21.8%	10.6%
Sports	33.3%	40.6%	26.1%
Academic clubs/UIIL competitions	66.5%	23.3%	10.2%
Speech/debate	54.9%	43.6%	1.5%
Student government	67.0%	30.5%	2.5%
Career and technical student organizations	56.3%	26.0%	17.8%

Note. UIL is University Interscholastic League.

Table 14b. Please indicate the number of years of high school in which you participated in each of the **extracurricular activities outside of school**.

Outside of school	Did not participate	1-2 years	3-4 years
Music	70.9%	16.0%	13.1%
Theater/drama	80.8%	15.3%	3.9%
Dance	77.2%	16.3%	6.4%
Sports	39.0%	32.9%	28.2%
Providing routine care for family members	63.5%	21.0%	15.5%
Community service	48.3%	33.7%	18.0%
Environmental projects/activities	66.5%	24.1%	9.4%
Boy/Girl Scouts	90.7%	6.9%	2.5%

Work and Study Time

Table 15. Please indicate the average number of hours per week you worked at a paid job during your senior year.

Work time	Percentage who worked during senior year		
	Lanier 2013	Lanier 2014	District 2014
Did not work	47.6%	31.2%	41.0%
Less than 20 hours	34.4%	19.1%	28.0%
20 hours or more	18.0%	49.8%	31.0%

Note. This question was changed in 2013, which precluded comparisons with prior years' results.

The percentage of Lanier seniors who indicated they worked 20 or more hours during their senior year has increased almost 32 percentage points from last year.

A study conducted by Marsh and Kleitman (2005) found that compared with those who did not work, students who worked longer hours had significantly lower academic achievement, attendance, and educational aspirations. They were less engaged in extracurricular activities. They also were less likely to enroll in college. As well, seniors who worked longer hours were more likely to save their earnings for postsecondary enrollment and were less likely to be unemployed 2 years after high school.

Table 16. How many hours per week did you typically spend studying, doing research, or completing homework assignments outside of class?

Study time	Percentage who studied each week		
	Lanier 2013	Lanier 2014	District 2014
None	13.4%	15.4%	10.5%
1 to 5 hours	53.1%	45.1%	40.4%
6 to 10 hours	16.1%	20.9%	23.1%
11 to 15 hours	9.1%	5.6%	11.5%
16 to 20 hours	2.0%	7.0%	8.1%
More than 20 hours	6.3%	6.1%	6.4%

On average, Lanier seniors indicated they studied 1 to 5 hours each week. [Penn State](#) and [University of Michigan-Flint](#) recommend a 2:1 study time/course load ratio; whereby students spend at least 2 hours studying for every 1 hour of class time.

Instructional Quality

Table 17. How well did your high school help you to actively develop knowledge and skills in the following areas?

Percentage who responded somewhat well or very well	Lanier 2013	Lanier 2014	District 2014
Teamwork	95.2%	93.0%	90.8%
Creative thinking	95.2%	92.6%	90.3%
Problem solving	95.2%	94.0%	92.7%
Conflict resolution	93.5%	93.0%	87.6%
Personal health/fitness	91.6%	89.2%	81.1%
Time management	90.8%	89.3%	83.7%
Technology	92.0%	89.1%	84.8%

Note. Response options were not well, somewhat well, and very well.

“Twenty-first-century skills” is a term which generally refers to competencies such as collaboration, digital literacy, critical thinking, and problem-solving (Partnership for 21st Century Learning, 2011).

Researchers have found that students are important sources of information about what happens in classrooms. Students’ responses are generally reliable, valid, and stable over time at the classroom level (Ferguson, 2010). Each year, seniors are asked to rate the quality of instruction they received in different types of courses.

Table 18. Rate the quality of instruction you feel you received in the following areas.

Percentage who responded good or excellent	Lanier 2013	Lanier 2014	District 2014
English language arts	87.5%	86.7%	82.9%
Career and technical (CTE)	75.3%	79.1%	73.5%
Social studies	80.8%	77.5%	77.6%
Performing/Fine arts	75.1%	72.7%	73.8%
Science	73.2%	71.8%	71.2%
Mathematics	69.4%	69.7%	70.2%
Foreign language	73.6%	68.6%	59.6%
Computer/Technology	77.5%	68.0%	66.8%

Note. Response options were excellent, good, fair, and poor.

This year, the types of instruction Lanier seniors rated lowest were foreign language, mathematics, and computer/technology.

Table 19. Percentage by course of Lanier seniors who rated a CTE course *fair* or *poor*. Seniors were allowed to select more than one course.

CTE course	Lanier 2014	District 2014
Agriculture or animal science	31.4%	18.9%
Computer programming or networking	28.6%	21.2%
Education	25.7%	15.1%
Business management	22.9%	26.5%
Audio/visual production	20.0%	21.7%
Animation or video game design	17.1%	18.1%
Health science	17.1%	24.7%
Cosmetology	14.3%	12.6%
Criminal justice or law enforcement	14.3%	13.1%
Web development	8.6%	15.2%
Graphic design or photography	5.7%	15.1%

Note. Some CTE courses may have higher enrollment than others. A higher percentage of seniors rating a particular CTE course Fair or Poor may be due to the higher enrollment in the course. Therefore, results should not be compared between courses. Also note, when data were analyzed, it was found that seniors responded to items for CTE courses they had not taken. This list includes only courses offered at the campus.

Because overall ratings for CTE courses had been found consistently lower than were those for other courses, this year, seniors who rated CTE instruction *fair* or *poor* were asked to identify the types of CTE courses they rated *fair* or *poor*. They were also asked to provide reasons why they rated the courses low. Approximately 21% of Lanier CTE seniors rated CTE courses *F* *fair* or *poor*.

The top 4 CTE courses rated *fair* or *poor* by Lanier seniors are agriculture, computer programming, education, and business management.

Overall, the top 2 reasons Lanier seniors indicated they rated CTE courses low were courses were too difficult and teachers were not experts in their subject areas. Lanier seniors who took CTE courses also indicated other reasons they rated CTE courses low.

Table 20. Please tell us what it was about the CTE instruction that was *fair* or *poor*.

	Lanier 2014	District 2014
Other	31.4%	15.4%
The course was too difficult.	31.4%	18.2%
The teacher was not an expert in the subject area.	22.9%	30.5%
A lot of time was spent on topics unrelated to the class.	20.0%	14.8%
The course was too easy.	20.0%	23.6%
The teacher did not explain things in a way that I could understand.	20.0%	29.0%
The teacher did not manage classroom discipline well.	20.0%	25.3%
Class projects were not interesting.	17.1%	33.1%
The teacher did not keep us busy—time was wasted.	14.3%	18.0%
The teacher did not respect students' ideas and suggestions.	11.4%	12.0%

Note. The CTE Summary Report lists the reasons AISD seniors rated CTE courses low by course type.

Technology Access and Use

Table 21. Which of the following describes your computer and Internet access at home?

Access	Lanier 2013	Lanier 2014	District 2014
No computer	7.3%	7.4%	4.7%
No computer, but Internet access (e.g., cell phone, iPad, or iTouch)	17.2%	17.7%	10.0%
Computer, no Internet	9.4%	5.6%	4.1%
Computer with Internet access	66.1%	69.3%	81.2%

Table 22. Have you ever used Naviance/Family Connection for the following activities?

Percentage answering yes	Lanier 2014	District 2014
Class rank and GPA inquiry	77.6%	84.2%
College search	63.9%	72.6%
Counselor-directed activities (e.g., Personality Type Questionnaire or Explore Careers)	61.6%	65.1%
Career exploration	52.1%	50.5%
College visit sign up	45.9%	56.2%
Resume building	35.4%	36.5%

Lanier seniors indicated they mostly used Naviance to check their class rank/GPA, to search colleges, and to complete counselor-directed activities.

Note. This item changed from “how frequently do you use” (2013) to “have you ever used” (2014).

Postsecondary Preparation and Advising

“Middle school is the crucial stage” at which parents and students should begin to think about preparing for college (Cunningham, Erisman, & Looney, 2007). By the time a student reaches junior year of high school, it may be too late to acquire the necessary coursework and GPA for admission to college.

About 42% of Lanier seniors indicated they did not start thinking about college until high school. Of these seniors, 64% indicated they did not start thinking about college until their junior and senior years of high school.

Table 23. At what time in your life did you start thinking about college as a possibility after high school?

Time frame	Lanier 2013	Lanier 2014	District 2014
As long ago as I can remember	21.5%	14.4%	36.8%
In elementary school	5.7%	6.5%	8.2%
In middle school / junior high	25.9%	30.7%	21.7%
In high school	43.7%	41.9%	30.4%
Never thought of college as an option	3.2%	6.5%	2.8%

Table 24. What grade were you in when you started thinking about college as a possibility after high school?

Grade	Lanier 2014	District 2014
9 th Grade	18.0%	24.4%
10 th Grade	18.0%	23.9%
11 th Grade	42.7%	36.1%
12 th Grade	21.4%	15.6%

Table 25. How did you prepare for your education after high school? (Select all that apply.)

Type of preparation	Lanier 2013	Lanier 2014	District 2014
Completed and submitted the FAFSA	56.0%	68.3%	67.8%
Visited one or more colleges or technical schools	53.3%	58.5%	60.1%
Took college entrance tests (e.g., SAT, ACT, THEA, COMPASS, ASSET)	58.7%	49.5%	66.6%
Completed or are currently enrolled in ACC courses	41.7%	47.2%	36.0%
Met with the school counselor or college/career advisor to discuss college plans/processes	54.4%	47.2%	52.8%
Ordered and submitted a transcript to a college or trade/ technical school.	38.2%	43.1%	59.2%
Participated in ACC College Connections (ACC Application Process)	33.2%	40.3%	35.0%
Completed and submitted a scholarship application	35.1%	37.4%	48.8%
Took one or more Advanced Placement or International Baccalaureate classes	33.6%	35.9%	51.1%
Met with a college representative or recruiter at my high school	36.3%	33.5%	43.3%
Attended one or more college fairs	42.1%	31.1%	44.8%
Took test prep class for the PSAT, SAT, ACT, etc.	34.0%	27.8%	40.0%
I have done nothing to academically prepare for continuing my education	22.5%	24.1%	17.2%
I have not completed any forms to prepare for continuing my education	23.7%	18.0%	16.0%
I have not completed any activities to prepare for continuing my education	16.1%	16.0%	16.0%
Took other college level courses (e.g., Texas State, Texas Tech, TSTC)	8.1%	7.6%	5.7%

Note. SAT is Scholastic Aptitude Test. ACT is American College Testing. THEA is Texas Higher Education Assessment. COMPASS is American College Testing Computer-adapted Placement Assessment and Support. ASSET is American College Testing placement exam for students in community/technical education. PSAT is Preliminary Scholastic Aptitude Test. TSTC is Texas State Technical College.

Table 26. Which of the following did a family member help you with to prepare for life after high school? (Select all that apply.)

Form of help	Lanier 2013	Lanier 2014	District 2014
Talked to you about career and/or college options	69.9%	76.7%	80.9%
Talked to you about finances	55.6%	60.5%	66.9%
Talked to you about your responsibilities as an adult	69.9%	73.0%	75.3%
Talked to you about what a career and/or college would be like	53.7%	54.9%	64.1%
Helped you with financial aid (FAFSA and/or scholarships)	36.3%	47.9%	56.8%
Helped you complete applications for colleges or trade/technical schools	17.8%	28.4%	41.6%
Encouraged you to apply to several different colleges	44.0%	49.8%	54.0%
No one in my family talked to me about or helped me with these things.	10.4%	5.1%	5.0%

On average, Lanier seniors indicated that teachers helped them by pushing their academic abilities, encouraging them to continue their education, and helping them write college essays. School counselors helped them select courses needed for work or college, and encouraged them to take AP, honors, and/or dual credit courses. College and career advisors helped select courses needed for work or college, get information about careers, decide what school to attend, and apply to multiple schools. College and career advisors also encouraged them to continue their education after high school.

Table 27. Indicate whether the following people helped you with or encouraged you in any of the following activities (select all that apply).

Activity	Teacher	School Counselor	College & Career Advisor	None of These
Select courses needed for work or admission to college	18.6%	36.7%	58.1%	16.7%
Push your academic abilities further (e.g., challenging courses, science fair or summer learning, extra credit work)	53.9%	34.6%	31.7%	15.4%
Take AP / honors courses	37.6%	36.7%	21.0%	28.6%
Take dual credit or articulated credit courses	34.7%	36.7%	40.2%	22.1%
Get information about careers and/or occupations you might want to pursue	36.2%	24.8%	61.0%	12.9%
Continue your education after high school	43.5%	34.0%	62.7%	11.5%
Apply to multiple schools	25.0%	20.2%	69.7%	11.5%
Decide what school to attend	28.2%	21.4%	56.8%	20.4%
Fill out applications for postsecondary education	22.3%	18.5%	69.4%	11.2%
Write college application essays or personal statements	42.6%	16.8%	54.6%	17.7%

Table 28. Were your school counselors and/or college and career/Project ADVANCE advisors available to talk to you about college and careers?

Availability	School Counselor	College & Career Advisor
Yes, this person was available and I talked to him/her.	69.4%	88.1%
I tried to talk to this person and wasn't able to meet with him/her.	12.1%	4.3%
I never tried to meet with this person.	18.5%	7.6%

Garland (2008) found that students' interactions with a school counselor and/or college advisor influenced the likelihood that those students would become enrolled in a postsecondary institution.

Applications to Postsecondary Institutions

Table 29. Percentage of Applications per Institution Type

Institution type	0 applications	1-3 applications	4 or more applications
2-year	14.6%	74.1%	11.3%
4-year	21.9%	56.2%	21.9%
Business/technical/vocational school	70.6%	24.2%	5.2%

Garland (2008) found that students who submitted applications to four or more institutions were significantly more likely to become enrolled than were students who submitted fewer applications.

Table 30. Percentage of Acceptances per Institution Type

Institution type	0 acceptances	1-3 acceptances	4 or more acceptances
2-year	29.8%	63.9%	6.4%
4-year	50.5%	36.5%	13.0%
Business/technical/vocational school	78.7%	17.1%	4.3%

Postsecondary Financial Literacy

The completion of the Free Application for Federal Student Aid (FAFSA) is important to entering and completing postsecondary education, especially for economically disadvantaged students. Students who completed the FAFSA were found 50% more likely to enroll in a 4-year college than were those who had not. Approximately 44% of Lanier's Class of 2014 who were enrolled in a postsecondary institution during the Fall semester after high school graduation completed a FAFSA (Looby, 2013).

Table 31. How do you plan to pay for your education after high school? (Select all that apply.)

Source	Lanier 2013	Lanier 2014	District 2014
Scholarships and/or grants	54.1%	69.5%	69.5%
Loans	24.7%	29.9%	41.9%
Family or personal savings	27.8%	49.2%	65.1%
Tuition and fees exemption (e.g., military, foster care, adoption, deaf, blind)	6.6%	9.0%	10.5%
Working during the school year	51.7%	65.5%	61.8%
Working during the summer	49.8%	69.5%	63.7%
I don't know	8.5%	6.8%	4.1%

About 70% of Lanier seniors indicated they planned to pay for college through scholarships and/or grants. Nearly 70% and 66% indicated they planned to pay for college by working during the summers and school year, respectively.

Table 32. Where did you learn about options for paying for your education after high school? (Select all that apply.)

Source of information	Lanier 2013	Lanier 2014	District 2014
Senior economics class	34.0%	28.4%	19.9%
Financial Aid Saturday events	35.1%	28.0%	18.2%
Talked to school counselor/college and career advisor/Project ADVANCE staff	65.3%	63.0%	50.3%
Information from a college or university (e.g., website, brochures)	29.3%	37.0%	38.8%
College recruiter	16.6%	23.2%	20.6%
U.S. Department of Education or FAFSA websites	23.9%	24.2%	25.2%
Parents or other adults	42.1%	43.1%	64.7%
Social media (e.g., Twitter, Facebook, etc.)	.	9.0%	11.9%
None of these	4.2%	13.3%	8.3%

Note. This question was changed in 2013, which precluded comparison with prior years' results.

Table 33. How easy has it been for you and your parents to understand the process of applying for financial aid?

Degree of ease	Lanier 2013	Lanier 2014	District 2014
Easy	12.3%	34.7%	26.8%
Some parts easy, some parts difficult	50.6%	39.9%	47.4%
Difficult	22.6%	10.3%	11.1%
I did not apply for financial aid	14.5%	15.0%	14.8%

On average, Lanier seniors indicated they learned about financial aid from their school counselors and college and career advisors and from their parents.

Table 34. If you did not submit a financial aid application, why not?

Reason	Lanier 2013	Lanier 2014	District 2014
I do not need financial aid to attend college	2.9%	9.4%	22.0%
My parents were not willing to submit private financial information	17.6%	6.3%	7.9%
My family did not think we would qualify or be eligible for financial aid	11.8%	12.5%	22.6%
I do not plan to go to college	20.6%	34.4%	16.2%
I did not know about the financial aid process	47.1%	37.5%	31.3%

About 15% of Lanier seniors indicated they did not apply for financial aid. Of these seniors, approximately 38% indicated they did not know about the financial aid process and about 34% indicated they do not plan to go to college.

Acronym Key

The following acronyms are used in the High School Exit Survey summary reports. Where relevant, acronyms have a link to an external URL.

Acronym	Definition
ACC	Austin Community College
ACT	American College Testing
AP	Advanced Placement
ASSET	American College Testing (ACT) placement exam for students in community/technical
COMPASS	American College Testing (ACT) Computer-adapted Placement Assessment and Support
EOC	End of Course exam
FAFSA	Free Application for Federal Student Aid
GPA	grade point average
MSA	Metropolitan Statistical Area
PSAT	Preliminary Scholastic Aptitude Test (SAT)
SAT	Scholastic Aptitude Test
STAAR	State of Texas Assessments of Academic Readiness
TAKS	Texas Assessment of Knowledge and Skills
THEA	Texas Higher Education Assessment
TSTC	Texas State Technical College
UIL	University Interscholastic League
