

Evidence indicates that positive school climate fosters a positive learning environment for students. Also, researchers have documented that a positive school climate helps students from economically disadvantaged schools to beat the odds (Voight, Austin, & Hanson, 2013). This report displays school climate ratings for the past four years, along with the 2016 ratings for all AISD schools at this level. New items were added in 2016 to assess students' social and emotional (SEL) skills.

Survey Results

For each item in this report, the number displayed represents the percentage of students who agreed the statement is true a lot of the time or sometimes. Arrows indicate statistically meaningful changes from one year to the next. Items marked with * were not asked that year. To access reports from previous years, please visit the Department of Research and Evaluation's (DRE) website.

Behavioral environment

My classmates show respect to each other.

My classmates show respect to other students who are different.

I am happy with the way my classmates treat me.

Students at my school follow the school rules.

I feel safe at my school.

Students at this school treat teachers with respect.

My classmates behave the way my teachers want them to.

Our classes stay busy and do not waste time.

Students at my school are bullied (teased, messed with, threatened by other students).

Existing AISD Student Climate Survey items approximate items on the Adolescent Health School Connectedness subscale.

+ This item was reworded on the 2016 Student Climate Survey.

This section of the report describes students' responses to 2016 survey items based on their self-reported ethnicity and gender. The table below provides the number of students who responded to the survey from each student group. Blank cells indicate when the number of students responding was less than 10.

Number of students in self-selected student groups

Hispanic	179
White	28
African American	45
Male	116
Female	126

I will go to college after high school.
