## 2015–2016 AISD Parent Survey Report

This report summarizes the results of the 2015–2016 Parent Survey for Austin Independent School District (AISD) for Metz Elementary School. The survey assessed parents' perceptions of their interactions with school staff; the information provided by the school about academic programs, enrichment opportunities, and future career opportunities for the students; school climate; and the quality of the food services.

The survey was available to parents in paper form (distributed to each child by hand) and in electronic form on the AISD website. In addition, the survey was available in English, Spanish, Vietnamese, Arabic, Burmese, Korean, and Mandarin Chinese.

In Spring 2016, a total of 75 parents of Metz Elementary School students responded to the parent survey. This report compares district results from Spring 2015 and Spring 2016. Unless otherwise noted, results in this report represent the percentage of respondents who strongly agreed or agreed with each item. Arrows (↑ ↓) in the tables indicate a statistically meaningful change from the prior year. Meaningful changes were identified with a statistical computation of effect size using Cohen's *h*. Changes with an effect size of at least .20 were considered meaningful. The feedback provided by parents will inform decision making by campus and district leaders as they plan for the 2016–2017 school year.

## Item Results

The following pages contain more detailed information regarding Metz's parent survey results from 2014–2015 to 2015–2016. As you review the individual items, note how Metz's percentage of parents indicating they agree or strongly agree with the items statements has changed or remained consistent over time. For items where longitudinal data are available, statistically meaningful changes were noted with up or down arrows.

## Federal Standards for Collecting and Reporting Ethnicity and Race

Starting in 2010–2011, school districts were required to report race and ethnicity using revised standards. The new standards require a person to first select his or her ethnicity (Hispanic/Latino or not Hispanic/Latino) and one or more of five race values. Because more than one race value may be chosen, percentages may not add to 100.
