

PREMIER AT TRAVIS HIGH SCHOOL

### Description of Survey

Every year, the self-reported Student Substance Use and Safety Survey (SSUSS) is administered to a random, representative sample of AISD students. The survey is used to track students' knowledge, attitudes, and self-reported behavior over time. In the spring of 2014, a sample of 9,819 students in grades 6 through 12 submitted valid responses to the district's annual survey of substance use and safety issues, yielding a response rate of 76%.<sup>1</sup> All item results are attached.

### How should sample data be interpreted?

When it is not feasible to survey an entire population, samples are used instead. However, when a sample is used to make inferences about a population the results must be interpreted with caution. For example, although 87% of a sample may select a particular survey response, this does not necessarily mean 87% of the entire population feels the same way. To interpret the sample data cautiously, we used the following information to construct an interval that describes the range within which the result for your campus population is likely to fall:

- Population size: in this case, the number of students at your campus
- Sample size: in this case, the number of survey respondents from your campus
- Desired level of confidence: in this case, 95%

The 95% confidence interval is commonly used, indicating that you can be 95% confident that the true population result will fall within the constructed interval.

### How should Confidence Intervals be used to interpret your campus data?

***Based on the Premier at Travis High School sample of 64 students and population enrollment of 291, the confidence interval for Premier at Travis is + and - 11 percentage points.***

***The interval for all high schools is + and -1 percentage point.***

To make inferences about your campus population using the sample data, the results should be interpreted with the computed confidence interval of 11 percentage points on each side of the sample statistics. For example, in 2014, 26% of respondents from your campus indicated that their friends belonged to gangs (see Q16, p.10). Applying the confidence interval (i.e., adding and subtracting 11 percentage points) to the 26% yields a range of 15% to 37%. Therefore, you can be 95% confident that somewhere between 15% and 37% of all students at your campus would indicate that their friends belong to a gang. When making comparisons between item results from year to year, please remember that small changes may have occurred by chance alone. The confidence interval for 2013 was 11 percentage points. Therefore, only differences of 22 percentage points (11%+ 11%) or greater should be considered statistically significant when comparing the results from two different years. In addition, differences of 12 (11% + 1%) percentage points or greater should be considered statistically significant when comparing the results between the campus and all high schools.

<sup>1</sup> A total of 10,271 surveys were returned to the Department of Research and Evaluation from an original sample of 12,922 students. Of those returned, 452 surveys were removed from analysis due to invalid responses. Since students did not necessarily respond to all questions on the survey, individual survey items have different response rates.

## RESPONDENTS' DEMOGRAPHICS AND ITEMS THAT ADDRESS BOTH SUBSTANCE USE AND SAFETY

Note: Numbers may not sum to the total because some students skipped the demographic questions.

Q22: Do one or both of your parents usually attend school sponsored open houses, PTA meetings or other school events?

Q4. How often do you participate in after school programs to help you with your school work (e.g., tutoring, homework, etc.) ?

Q5. How often do you participate in other after school programs (e.g. clubs, art, technology, leadership, dance, etc.) ?

Q6. How often do you participate in organized school sports?

Q23: During this school year, have you brought any of the following items to school?

	Premier at Travis 2013–2014	Percentage point change from 2012–2013*	All high schools 2013–2014
<b>Tobacco</b>	13%	-2	6%
<b>Illegal drugs</b>	5%	-5	8%
<b>Knives</b>	3%	-7	7%
<b>Alcohol</b>	3%	-2	5%
<b>Other weapons</b>	3%	3	4%
<b>Gun</b>	3%	3	2%
<b>Prescription drugs</b>	0%	-5	6%
<b>None of the above</b>	87%	12	84%

\*Negative percentage point changes indicate fewer students reported bringing those items to school in 2013–2014 than in 2012–2013.

Q26: Of the following, which do you consider to be the most serious problem on your campus?

	Premier at Travis 2013–2013	Percentage point change from 2012–2013*	All high schools 2013–2014
<b>Marijuana use</b>	30%	9	33%
<b>Student fighting and physical aggression</b>	7%	-5	7%
<b>Student weapon possession</b>	7%	5	3%
<b>Student harassment, threats, and intimidation</b>	5%	-2	8%
<b>Tobacco use</b>	5%	5	3%
<b>Prescription drug use</b>	2%	0	4%
<b>Alcohol use</b>	0%	0	5%
<b>Student vandalism, criminal mischief</b>	0%	-2	1%
<b>Violence or threats toward staff</b>	0%	-7	1%
<b>None of these are serious problems on my campus</b>	45%	0	33%

Note. Percentages may sum to more than 100% because respondents were allowed to choose multiple items.

\* Negative percentage point changes indicate fewer students reported those items as the most serious problem on their campus in 2013–2014 than in 2012–2013.

Q7. During this school year, have you received any information on drugs, alcohol, or violence from any of the following school sources?

	Premier at Travis 2013–2014	Percentage point change from 2012–2013*	All high schools 2013–2014
<b>Health class</b>	44%	-1	43%
<b>Science class</b>	32%	-6	35%
<b>Coach or P.E. teacher</b>	29%	-1	36%
<b>Advisory/seminar class</b>	24%	11	39%
<b>Special school event about tobacco, drugs, alcohol, or violence</b>	16%	-3	39%

<b>School nurse</b>	14%	-2	15%
<b>Student support group meetings at school</b>	14%	6	14%
<b>Guidance counselor</b>	13%	2	18%
<b>Afterschool program</b>	10%	0	14%
<b>Other school source not mentioned above</b>	18%	-2	36%
<b>None of the above</b>	44%	21	17%

Note. Percentages may sum to more than 100% because respondents were allowed to choose multiple items.

\* Positive percentage point changes indicate more students reported having received information on drugs, alcohol, or violence from school sources in 2013–2014 than in 2012–2013.

## SCHOOL SAFETY ITEMS

Q15a: How often does racial tension occur at your school?

Q15b: How often does student bullying occur at your school?

Q15c: How often do acts of disrespect for teachers occur at your school?

### Q15d: How often do gang activities occur at your school?

### Q15e: How often have you experienced any type of bullying at your school?

### Q15f: How often does your teacher have to interrupt class to deal with student misbehavior?

Q15g: Do teachers or staff give you praise or rewards for good behavior?

Q8: How safe do you feel when you are at school?

Q9: During the last month, did you miss one or more school days due to any of the following reasons?

	Premier at Travis 2013–2014	Percentage point change from 2012–2013*	All high schools 2013–2014
