

## 2011-2012 AISD Student Climate Survey Reagan High School

Research indicates that school climate can either be a positive influence on students' learning environment, or can serve as a significant barrier to students' learning. Indeed, students attending high performing, higher economically disadvantaged schools reported higher ratings of behavioral environment, academic self-confidence, teacher expectations for student learning, and student engagement in 2010-2011 than did their peers at lower performing similar schools. Similarly, students attending high performing, less economically disadvantaged schools reported higher ratings of behavioral environment than did their peers at lower performing similar schools in 2010-2011.\*

The following tables show the total number of surveys students at Reagan returned in 2011-2012 (Table 1), the response rate by grade (Table 2), and the distribution of responses by race/ethnicity compared with the population (Table 3) for students at Reagan.

Table 1. Number of respondents for:		All High Schools
	Reagan	
# of surveys returned	467	11,197
# of students	790	16,183
% of students represented	59%	69%

Note. Population data reflect enrollment as of the PEIMS snapshot date in October 2012. Students' grade level and ethnicity were self-reported. The "ethnicity/race" designations allow students to first choose their ethnicity (Hispanic/Latino or non-Hispanic/Latino) and then choose one or more of five race values.

Table 2. Response rate by grade for Reagan, 2011-2012			
grade	# of students enrolled	# of responses	response rate
9th grade	372	194	52%
10th grade	229	128	56%
11th grade	189	83	44%

Table 3. Distribution of responses by ethnicity/race for Reagan relative to Reagan's school population, 2011-2012		
Ethnicity	% of population	% of responses
Hispanic/Latino	74%	74%
Race		
American Indian/Alaskan Native	32%	6%
Asian	3%	4%
Black/African American	24%	26%
Native Hawaiian/Other Pacific Islander	0%	3%
White	44%	16%

Figure 1 depicts Reagan's average student climate survey ratings for 2011-2012, compared with average ratings across all High Schools in 2011-2012. Scores over 3.0 are desirable, as indicated by the green line. Please note the green and red text boxes that highlight the specific area in which Reagan most excels, as well as the area in which Reagan can improve most.

Reagan's highest score on the 2011-2012 Student Climate Survey was for adult fairness and respect, which assesses the way teachers and other adults at your campus treat students. Research suggests that high levels of adult fairness and respect contribute to academic achievement. We encourage you to consider the ways your campus supports a respectful environment and share your best practices with others.

Reagan's lowest score on the 2011-2012 Student Climate Survey was for student engagement. This subscale measures the extent to which students enjoy their schoolwork and learning. We encourage your campus to improve the ways in which teachers provide instruction that is relevant and engaging for students.

The following pages contain more detailed information regarding Reagan's student climate results from 2009-2010 to 2011-2012. Please review the individual items on each subscale with particular attention to how Reagan's average ratings have changed or remained consistent over time. Please note that some subscales have changed from previous years, making longitudinal comparisons inappropriate for some items and subscales. For items and subscales where longitudinal data are available, statistically meaningful changes are noted with up or down arrows. Please share the results of this report with all campus staff and your Campus Advisory Council to inform campus improvement planning.
