

2016–2017 AISD Parent Survey Report

Small Middle School

Each spring, the Department of Research and Evaluation (DRE) coordinates with the campuses of Austin Independent School District (AISD) to administer the Parent Survey. The 2016–2017 survey asked parents to rate their level of agreement with statements about the following topics: quality of parents’ interactions with school staff, adequacy of information provided to parents, adequacy of opportunities provided to students, school climate, community support and engagement, and district decision making.

The survey was available to parents in paper form and electronically. Online versions of the survey were available in English, Spanish, and Vietnamese. In addition to those languages, paper versions of the survey were available in Arabic, Burmese, Korean, Mandarin, Nepali, Pashtu, and Swahili.

This report summarizes the results of the 2016–2017 AISD Parent Survey for Small Middle School. The feedback provided by parents will inform decision making by campus and district leaders as they plan for the 2017 – 2018 school year.

Results of Survey Items

The following pages display the results of the Parent Survey for Small Middle School for the last three school years, along with the 2016–2017 results for all middle schools combined. For each survey item, the results represent the percentage of parents who strongly agreed or agreed with the statement (excluding those parents who responded “Don’t Know/N.A.”).

Federal Standards for Collecting and Reporting Ethnicity and Race Data

In the 2009–2010 school year, the Texas Education Agency (TEA) began implementing new federal standards for the collection of ethnicity and race information. The current standards ask the individual first to select his or her ethnicity from two options (Hispanic/Latino or not Hispanic/Latino) and then to select one or more of five race options. For this report, parents who indicated their child's ethnicity was Hispanic/Latino are included in the Hispanic/Latino category. Percentages for the remaining race categories reflect parents who indicated their child's ethnicity was not Hispanic/Latino.
